Appearance and Key Function

Introduction

Installation of the SIM Card

Please install the SIM card before using your phone.

Note: Please keep the SIM card out of the reach of children. The SIM card and its contact are easily damaged due to scratching or bending. Please be cautious when carrying, installing or taking out the SIM card.

To insert SIM card:

1. Switch off the mobile phone and use the SIM tool to open SIM tray.

Note: *The phone uses a Micro SIM card. Please make sure to obtain one from your mobile phone service provider.*

2. Place the SIM card in tray.

3. Insert the SIM tray and power on.

Power On and Off

On - Please ensure the SIM card has been properly inserted into the phone. Long press the Power key to switch the phone on.

Off - In standby mode, long press on Power key until an options menu appears. Select Power Off in the menu and confirm in the pop-up prompt to switch off the phone.

Password Lock

You may set a security lock feature as a security measure for the phone. For further information regarding password locks, password revision and other functions please enter into the security option in system settings.

Call Functions

At the dial keyboard, enter the phone number and then click the dial key. If dialing an extension, you may click the dial pad icon in the bottom of the screen to open the interface and enter the number of the extension. You may also press and hold the 0 key to add a (+) sign when adding an international dialing prefix.

Call Logs

Every telephone number called and received will be saved in the phones call log. All numbers in the call log can be dialed directly by clicking the dial icon on the screen. When the number appears on the list, click it to view details.

Call Options

There are different options that can be used in the call log and dialing interface. You may press the menu key while in the dial interface and adjust speed dial and call settings. In the call logs, you may press the contact button to browse through contacts list.

Contacts

Enter: Click on the contacts icon

- The default display is the phone contacts and SIM card contacts
- The contacts are organized alphabetically by default.

Click the Search icon to enter the contact search interface.

- Any numbers or letters associated with any of the contacts saved in the list will be shown in the search results.

Add New Contact

1. Click the add contact icon (+) to add contact.
2. Select to save your contacts to the Google account, the phone or the SIM card.
3. You may enter different contact details which include adding a picture, name, telephone number, group, address, and email among other options.
4. Click to finish and save contact.

Messaging

You may use this function to exchange text messages and multimedia messages with your family and friends. The messages to and from the same contact or phone number will be saved into a single conversation so you may see the entire message history conveniently.

Send an SMS

Click on the Messaging icon and select new message

1. Click to enter recipient
(You may enter contacts from contact book or enter a new number)
2. Compose Message
3. Send

Send an MMS

When creating message, the default message style is SMS. The message will automatically convert to MMS when adding an attachment.

1. Click the attachment icon in the messaging interface.
2. Click to select attachment type and create an MMS message.
