WiFi (WLAN)	This device uses non-harmonised frequency and is intended for use in all European countries. The WLAN can be operated in the EU without restriction indoors, but cannot be operated outdoors in France.
FM Transmitter	The FM transmitter is intended to be used in all European countries except in France, Greece, Hungary, Italy, Latvia, Russia, Serbia & Montenegro, Slovak Republic, Slovenia and Turkey where the restrictive use applies.

Some of the contents in this manual may differ from your phone depending on the software of the phone or your service provider.

KM900 User Guide

Congratulations on your purchase of the advanced and compact KM900 phone by LG, designed to operate with the latest digital mobile communication technology.

Disposal of your old appliance

- 1** When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC.
- 2** All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
- 3** The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
- 4** For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Guidelines for safe and efficient use

Please read these simple guidelines. Not following these guidelines may be dangerous or illegal.

Exposure to radio frequency energy

Radio wave exposure and Specific Absorption Rate (SAR) information
This mobile phone model KM900 has been designed to comply with applicable safety requirements for exposure to radio waves. These requirements are based on scientific guidelines that include safety margins designed to assure the safety of all persons, regardless of age and health.

- The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardised methods with the phone transmitting at its highest certified power level in all used frequency bands.

- While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.
- The SAR limit recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP) is 2W/kg averaged over 10g of tissue.
- The highest SAR value for this model phone tested by DASY4 for use at the ear is 0.602 W/kg (10g) and when worn on the body is 0.646 W/Kg(10g).
- SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE), which is 1.6 W/kg averaged over 1g of tissue.

Product care and maintenance

WARNING

Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.

- Do not disassemble this unit. Take it to a qualified service technician when repair work is required.
- Keep away from electrical appliances such as TVs, radios, and personal computers.
- The unit should be kept away from heat sources such as radiators or cookers.
- Do not drop.
- Do not subject this unit to mechanical vibration or shock.
- Switch off the phone in any area where you are required by special regulations. For example, do not use your phone in hospitals as it may affect sensitive medical equipment.
- Do not handle the phone with wet hands while it is being charged. It may cause an electric shock and can seriously damage your phone.
- Do not charge a handset near flammable material as the handset can become hot and create a fire hazard.
- Use a dry cloth to clean the exterior of the unit (do not use solvents such as benzene, thinner or alcohol).
- Do not charge the phone when it is on soft furnishings.
- The phone should be charged in a well ventilated area.
- Do not subject this unit to excessive smoke or dust.

Guidelines for safe and efficient use

- Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.
- Do not tap the screen with a sharp object as it may damage the phone.
- Do not expose the phone to liquid, moisture or humidity.
- Use the accessories like earphones cautiously. Do not touch the antenna unnecessarily.
- Do not use the phone or accessories in places with high humidity such as pools, greenhouses, solariums or tropical environments; it may cause damage to the phone and invalidation of warranty.
- Do not use your mobile phone near medical equipment without requesting permission. Please consult your doctor to determine if operation of your phone may interfere with the operation of your medical device.
- Some hearing aids might be disturbed by mobile phones.
- Minor interference may affect TVs, radios, PCs, etc.

Pacemakers

Pacemaker manufacturers recommend that a minimum separation of 15cm be maintained between a mobile phone and a pacemaker to avoid potential interference with the pacemaker. To achieve this use the phone on the opposite ear to your pacemaker and do not carry it in a breast pocket.

Efficient phone operation

Electronic and medical devices

All mobile phones may get interference, which could affect performance.

Hospitals

Switch off your wireless device when requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment.

Road safety

Check the laws and regulations on the use of mobile phones in the area when you drive.

- Do not use a hand-held phone while driving.
- Give full attention to driving.
- Use a hands-free kit, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.
- RF energy may affect some electronic systems in your vehicle such as car stereos and safety equipment.

- When your vehicle is equipped with an air bag, do not obstruct with installed or portable wireless equipment. It can cause the air bag to fail or cause serious injury due to improper performance.
- If you are listening to music while out and about, please ensure that the volume is at a reasonable level so that you are aware of your surroundings. This is particularly imperative when near roads.

Avoid damage to your hearing

Damage to your hearing can occur if you are exposed to loud sound for long periods of time. We therefore recommend that you do not turn on or off the handset close to your ear. We also recommend that music and call volumes are set to a reasonable level.

Guidelines for safe and efficient use

Glass Parts

Some parts of your mobile device are made of glass. This glass could break if your mobile device is dropped on a hard surface or receives a substantial impact. If the glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by an authorized service provider.

Blasting area

Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

Potentially explosive atmospheres

- Do not use the phone at a refueling point.
- Do not use near fuel or chemicals.
- Do not transport or store flammable gas, liquid, or explosives

in the same compartment of your vehicle as your mobile phone and accessories.

In aircraft

Wireless devices can cause interference in aircraft.

- Turn your mobile phone off before boarding any aircraft.
- Do not use it on the ground without permission from the crew.

Children

Keep the phone in a safe place out of the reach of small children. It includes small parts which may cause a choking hazard if detached.

Emergency calls

Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on the phone for emergency calls. Check with your local service provider.

Battery information and care

- You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.
- Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.
- Do not disassemble or short-circuit the battery pack.
- Keep the metal contacts of the battery pack clean.
- Replace the battery when it no longer provides acceptable performance. The battery pack maybe recharged hundreds of times until it needs replacing.
- Recharge the battery if it has not been used for a long time to maximize usability.
- Do not expose the battery charger to direct sunlight or use it in high humidity, such as in the bathroom.
- Do not leave the battery in hot or cold places, this may deteriorate the battery performance.
- There is risk of explosion if the battery is replaced by an incorrect type.
- Dispose of used batteries according to the manufacturer's instructions. Please recycle when possible. Do not dispose as household waste.
- If you need to replace the battery, take it to the nearest authorized LG Electronics service point or dealer for assistance.
- Always unplug the charger from the wall socket after the phone is fully charged to save unnecessary power consumption of the charger.

Getting to know your phone

Installing the SIM and battery

1 Remove the battery cover

Press and hold down the battery release button on the top of the phone and lift off the battery cover.

⚠ WARNING: Do not remove the battery when the phone is switched on, as this may damage the phone.

⚠ WARNING: Do not remove the battery cover when using GPS, Wi-Fi or Bluetooth. The antenna is mounted on the battery cover.

2 Remove the battery

Hold the top edge of the battery and lift it away from the battery compartment.

07

08

Installing the SIM and battery

3 Install the SIM card

Slide the SIM card into the SIM card holder. Make sure the gold contact area on the card is facing downwards. To remove the SIM card, gently pull it outwards.

4 Install the battery

Insert the top of the battery into the top edge of the battery compartment first. Ensure that the battery contacts align with the phone's terminals. Press the bottom of the battery down until it clips into place.

Slide back the cover of the charger connector on the side of your KM900. Insert the charger and plug it into a mains electricity socket. Your KM900 must be charged until the “Battery full” message appears on the screen.

NOTE: The battery must be fully charged initially to improve battery lifetime. Disregard the first “Battery full” message and keep the phone on charge overnight (or for up to 14 hours).

Memory card

Installing a memory card

You can expand the available memory space on your phone by using a memory card.

NOTE: A memory card is an optional accessory.

Slide the memory card into the slot at the top, until it clicks into place. Make sure the gold contact area is facing downwards.

 **WARNING:** Slide into the memory card to the slot, otherwise, the card can be damaged.

Formatting the memory card

Your memory card may already be formatted. If it isn't, you will need to format it before you can start to use it.

NOTE: All files get deleted while formatting.

- 1 From the home screen select  and select **Phone settings** from the Settings tab.
- 2 Scroll and touch **Memory manager** then scroll and choose **External memory**.
- 3 Touch **Format** and then confirm your choice.
- 4 Enter the password, if one has been set. The card will then be formatted and ready to use.

NOTE: If there is existing content on your memory card, the folder structure may be different after formatting since all files will have been deleted.

Transferring your contacts

To transfer your contacts from your SIM to your phone:

- 1 From the Communication tab, scroll through **Contacts** and choose  then **Change location**.
- 2 Touch **Copy to Handset**.
- 3 Choose **Mark all** or select names one by one and touch **Copy to Handset**.

Touch screen tips

The home screen is also a great place to get used to using the touch screen.

To select an item, touch the centre of the icon.

- Do not to press too hard; the touchscreen is sensitive enough to pick up on a light, firm touch.
- Use the tip of your finger to touch the option you require. Be careful not to touch any other keys.
- When the screen light is off, either press the power key or hold down the Unlock/Lock key on the touch screen to return the home screen.

- Whenever your KM900 is not in use, it will return to the lock screen.

01

Your home screen

Customising the home screen

- **Get in touch with your KM 900**

- The User Interface is based on four types of Homescreens. To swap between the home screens just wipe quickly over display from left to right or from right to left.

- **Home screen customisation**

- For each type of home screen you are able to add and remove objects by pressing & holding your finger on the screen, or if already added touching and holding one of the objects.

Quick keys

The quick keys on your home screen provide easy, one-touch access to the functions you use most.

Touch it to bring up the touch dialling pad, which lets you make a call. Enter the number as you would with a normal key pad and touch **Voice call** or tap .

To place a video call to this number, touch  after entering the number.

Touch to access the **Messaging** menu. From here you can create a new SMS.

Touch to open your contacts. To search for the number you want to call: Click the search icon to enter the name of the contact using the touchpad. You can also create new contacts and edit existing ones.

Touch to open the full Top menu which is divided into four sub-menus.

Using the Multi-tasking function

Touch the multitasking hard key  to open the **Multitasking** menu. From here you can view some applications that are running and access them with one touch.

Calls

TIP! Press the power key briefly to lock the touchscreen and prevent calls being made by mistake.

Making a call or a video call

- 1 Touch  to open the keypad.
- 2 Type in the number on the keypad. To delete a digit, press the clear key.
- 3 Touch the  key to place the call.
- 4 To end the call, touch the  key.

TIP! To enter + for making international calls, touch  twice or press and hold down .

TIP! You can **Save number**, **Send message**, **Search contacts** by tapping .

Calling your contacts

- 1 From the home screen touch  to open your **Contacts**.
- 2 Scroll through the contact list or enter the first letter(s) of the contact you want to call by touching .
- 3 From the list, touch the contact you want to call and select the number to use, if there is more than one number for that contact.
- 4 Touch **Voice call** or **Video call**.

Answering and rejecting a call

When your phone rings, press the  hard key to answer.

Press the  hard key to reject an incoming call.

Calls

In-call options

Speaker - Touch  to turn the speaker phone on.

Mute - Touch  to turn the microphone off so the person you are talking to cannot hear you.

Hold - Touch  to put a call on hold.

Options - Choose from a list of additional in-call options, including Create new memo and Go to messages, so you can check your messages and add contacts during a call. You can also end the call from here by touching End call.

 **Dialpad** - Touch to open a numerical keypad for navigating menus with numbered options, e.g. when dialling call centres or other automated telephone services.

 **Memo** - Add a memo during a call.

 **Contacts** - Search your contacts during a call.

Adjusting call volume

To adjust the volume during a call, use the up and down button on the right side of the phone.

Speed dialling

You can assign a frequently-called contact to a speed dial number.

- 1 From the home screen touch  to open your **Contacts**.
- 2 Touch  and select **Speed dials**.
- 3 Your voicemail is already set to speed dial 1. You cannot change this. Touch any other number to assign it to a speed dial contact.
- 4 Your contacts list will open. Select the contact you want to assign to that number by touching the phone number once.

To call a speed dial number, touch  on the home screen then press and hold the assigned number until the contact appears on the screen.

The call will initiate automatically, without having to touch **Voice call**.

Making a second call

- 1 During your initial call, touch  and select the number you want to call.
- 2 Call the number or search your contacts.
- 3 Touch  to connect the call.
- 4 Both calls will be displayed on the call screen. Your initial call will be locked and put on hold.
- 5 To end one or both calls press **End** .

Calls

NOTE: You will be charged for each call you make.

Turning off DTMF

DTMF lets you use numerical commands to navigate within automated calls. DTMF default is set to on.

To turn it off during a call (e.g. to make a note of a number) touch  and select **Disable DTMF**.

Viewing your call logs

From the home screen, touch , then touch **Recent history** in the Communication tab.

Choose from the following:

All history - View a complete list of all dialled, received and missed calls, voice calls only, video calls and messages.

Missed calls - View a list of all calls you have missed.

Calls only - View a list of all calls you have made and missed.

Messages only - View a list of all numbers that have received or sent texts and multimedia messages.

VT only - View a list of all video calls.

TIP! From any call log, touch  and **Delete all** to delete all recorded items.

TIP! Touch any single call log entry to view the date, time and duration of the call.

Using call divert

- 1 Touch  and choose **Call settings** in the Settings tab.
- 2 Touch **Call divert** and choose **Voice calls** and/or **Video calls**.
- 3 Choose whether to divert all calls, when the line is busy, when there is no answer, or when you cannot be contacted.
- 4 Touch **Activate** to activate.
- 5 Enter the number to divert to.

NOTE: Diverting calls will incur charges. Please contact your network operator for details.

TIP! To turn off all call diverts, select **Deactivate all** from the **Call divert** menu.

Using call barring

- 1 Touch  and choose **Call settings** in the Settings tab.
- 2 Touch **Call barring** and choose **Voice calls** and/or **Video calls**.
- 3 Choose any or all of the five options:
 - All outgoing**
 - Outgoing international**
 - Outgoing international calls except home country**
 - All incoming**
 - Incoming when abroad**
- 4 Enter the call barring password. Please check with your network operator about this service.

Calls

TIP! Select **Fixed dial numbers** to turn on and compile a list of numbers that can be called from your phone. You'll need your PIN2 code, available from your operator. Only numbers within the fixed dial list can be called from your phone.

Changing the common call setting

- 1 Touch  and choose **Call settings** in the Settings tab.
- 2 Touch **Common settings**. This lets you amend the following settings:
 - Call reject** - Slide the switch left for **ON**. You can touch the **Reject list** to choose all calls, specific contacts or groups or calls from unregistered numbers (i.e. not in your contacts).

Send my number - Choose whether to display your number on an outgoing call.

Auto redial - Slide the switch left for **ON** or right for **OFF**.

Minute minder - Slide the switch left to **ON** to hear a tone every minute during a call.

BT answer mode - Select **Hands-free** to be able to answer a call using a Bluetooth headset, or select **Handset** to press a handset key to answer a call.

Save new number - Select **ON** or **OFF** to save a new number.

Changing your video call settings

- 1 From the home screen, touch  and scroll to **Call settings** in the Settings tab.
- 2 Touch **Video call settings** and select the settings for your video calls. Decide whether to use still image, then select one and/or switch on the mirror to see yourself on screen when making a video call.

Contacts

Searching for a contact

There are two ways to search for a contact:

From the home screen

- 1 From the home screen touch  to open your **Contacts**. Touch  and enter the contact name using the key pad.
- 2 Touch **Video call** or **Voice call** or the  key to place the call.

TIP! You can search by group by touching the Contacts tab on the top of the screen and selecting **Groups**. This will bring up a list of all your groups.

From the main menu

- 1 Touch , touch **Contacts** on the Communication tab.
- 2 Touch the search icon, or touch  and **Search**.

Adding a new contact

- 1 From the home screen touch  > New contact field, or select  then select **New contact** button.
- 2 Choose whether to save the contact to **Handset** or **USIM**.
- 3 If you want to add a picture to each contact, touch **Add picture**.
- 4 Enter the first and last name of your new contact. You do not have to enter both, but you must enter at least one.
- 5 Enter up to five different numbers and assign a type to each of them, choosing between **Mobile**, **Home**, **Office**, **Pager**, **Fax**, **VT** and **General**.
- 6 Add an email address.
- 7 Assign the contact to one or more groups, choosing between **No group**, **Family**, **Friends**, **Colleagues**, **School** or **VIP**.

- 8 You can also add a **Ringtone**, **Homepage**, **Home address**, **Company name**, **Job title**, **Company address**, **Birthday**, **Anniversary** and **Memo**.
- 9 Touch  to save the contact.

TIP! You can create customised groups for your contacts. See **Creating a group**.

Creating a group

- 1 From the home screen, touch  and then touch **Contacts** in the Communication tab.
- 2 Touch **Contacts** on the top of the screen, then touch **Groups** and select new group.
- 3 Enter a name for the new group.
- 4 Touch  to save the group.

NOTE: If you delete a group, the contacts assigned to that group will not be lost. They will remain in your contacts.

TIP! You can edit an existing group by touching the selected group once. Choose View members, Edit the group, Send message, Send businesscard or Delete group.

Contacts

Changing your contact settings

You can adapt your contact settings to suit your own preferences.

1 Touch **Contacts** from the Communication tab, select  and scroll through **Contact settings**.

2 From here, you can adjust the following settings:

Display name - Choose whether to display the first or last name of a contact first.

Copy - Copy your contacts from your SIM to your handset, or vice versa. You can do this one contact at a time, or all at once.

Move - This works in the same way as Copy, but the contact will only remain in the new location. Therefore, once a contact is moved from the SIM to the handset it will be deleted from the SIM memory.

Clear contacts - Delete all your contacts. Touch **Yes** if you are sure you want to delete all your contacts.

Memory info. - View memory capacity information.

Viewing information

1 Touch **Contacts** from the Communication tab select  and scroll to **Information**.

2 From here you can view your **Service dial numbers, Own numbers, Memory info.** (memory space remaining) and **My business card**.

TIP! To add your own business card, select **My business card** and enter your details as you would for any contact. Touch **Save** icon to finish.

Messaging

Messaging

Your KM900 combines SMS, MMS into one intuitive, easy to use menu. There are two ways of entering the messaging centre:

- 1 From the home screen, touch , or touch  then scroll through **Messaging** from the Communication tab.

Sending a message

- 1 Touch  then **Write message** to open a blank message.
- 2 Touch **To** to enter the recipient's number, or open your contacts or favourites. You can add multiple contacts. When you are finished, touch the message box below to start composing the message text.
- 3 After entering the text, you can send the SMS by touching the send button on top of the message.

TIP! You will be charged for a 160 character text message for every person you send the message to.

- 4 Touch  **Insert** to add a text template, multimedia template, emoticon, name & number, new slide, subject or signature.

 **WARNING:** The 160-character limit may vary from country to country depending on how the SMS is coded.

 **WARNING:** If an image, video or audio file is added to an SMS, it will automatically be converted to an MMS, and you will be charged accordingly.

Messaging

Entering text

 Touch to turn on T9 predictive texting.

 You can change the writing language.

 Tap to change between the number, symbol and text keypads.

Use  to scroll through the different keyboards in each text entry mode (e.g., capital or lower case letters).

To enter a space touch .

T9 predictive

In T9 mode, you will see , coloured circle in orange.

T9 uses a built-in dictionary to recognise your words based on the key sequences you touch. Simply touch the number key associated with the letter you want to enter, and the dictionary will predict the word you want to use.

For example, press 8, 3, 5, 3, 7, 4, 6, 6 and 3 to write 'telephone'.

Abc manual

In Abc mode you have to touch the key repeatedly to enter a letter. For example, to write 'hello', touch 4 twice, 3 twice, 5 three times, 5 three more times, then 6 three times.

Setting up your email

You can keep in touch on the move using your KM900 to email. It's quick and simple to set up a POP3 or IMAP4 email account.

- 1 Touch  from the home screen, and scroll to **Email** on the Communication tab.
- 2 Touch **Write email**. If the email account is not set up, start the email set up wizard.

TIP! If an email account is already set up, the wizard is not activated automatically.

You can also edit specific account settings by navigating to **Settings** > **Message settings** > **Email** > **Email account**. They are the following:

Title - Enter a name for this account.

User name - Enter the account username.

Password - Enter the account password.

Email address - Enter the account email address.

Reply email address - Enter the 'reply to' email address.

Outgoing mail server - Enter the outgoing email server address

Incoming mail server - Enter the incoming email server address

Maximum receive size - Select the size limit for your emails, up to the maximum of 1 MB.

Mailbox type - Enter mailbox type POP3 or IMAP4.

Save to server - Choose whether to save your emails on the server. Copies are always saved for IMAP4 accounts.

Save sent mail into - Select where to save sent emails for IMAP4 mailboxes. For POP3 mailboxes sent mails are always saved to the handset.

08

Messaging

Download option - Choose the way to download emails. Choose between Header only or All including body for POP3, and header only, header + body, or all for IMAP4.

Access point - Choose your Internet access point.

Advanced settings - Choose whether to use the advanced settings.

Once the account is set up, it will appear in the accounts list in your Email folder.

Sending an email using your new account

- 1 Touch  from the home screen, and scroll to **Email- Write email** on the Communication tab to open a new blank message.
- 2 Enter the recipient's address and write your message. You can also attach images, videos, audio files and other file types.
- 3 Touch **Send email** to send your email.

TIP! During an active Wi-Fi connection, emails are sent and received via Wi-Fi.

Changing your email settings

You can change your email settings based on your own preferences.

1 Touch  from the home screen, and scroll through **Messages settings** from the Settings tab.

2 Select **Email**.

3 You can alter the following settings:

Email accounts - Manage your email accounts.

Allow reply email - Choose whether to allow read confirmation messages to be sent.

Request reply email - Choose whether to request read confirmation messages.

Retrieve interval - Select how often your KM900 checks for new email messages.

Include message in Fwd & Reply - Select whether to include the original message in your reply.

Include attachment - Select whether to include the original attachment in any reply.

Auto retrieval when Roaming - Choose whether to retrieve messages automatically when abroad (roaming).

New email noti. info - Choose whether to be alerted about a new email without a pop-up message.

Signature - Create an email signature and switch this feature on.

Message folders

You will recognise the folder structure in your KM900, which is fairly self-explanatory. If you set up an email account, you can have folders for each account.

Inbox - All messages you receive are stored in your inbox. From here you can view them and delete them, amongst other functions.

01

03

04

05

06

07

08

Messaging

Outbox - This is a temporary storage folder while messages are being sent.

Sent - Messages you send are stored in this folder.

Drafts - If you don't finish writing a message you can save what you've done in this folder.

Threaded box - Messages (SMS) exchanged with another party can be displayed in chronological order so that you conveniently can see an overview of your conversation.

My Folders - Create folders to store your messages.

Using templates

Create templates for the SMS and MMS messages you send most often. There are already some templates on the phone, which you can edit.

- 1 When writing a new message, you can enter **Templates** from **Insert** in option menu.

- 2 Choose **Text templates** or **Multimedia templates**. You can add, edit, delete or delete all templates. To edit a message, select it, amend it, and touch **Save template**.

Using emoticons

Liven up your messages using emoticons. There are some commonly used emoticons already on your phone.

- 1 When writing a new message, you can enter **Emoticon** from **Insert** in the options menu.
- 2 You can add a new emoticon by touching **New emoticon**.

Changing your text message settings

Your KM900 message settings are pre-defined, so you can send messages immediately. These settings can be changed based on your preferences.

Scroll through **Message settings** from the Settings tab and touch **Text message**. You can change the following:

Text message centre - Enter the details of your message centre.

Delivery report - Slide the switch left to receive confirmation that your messages have been delivered.

Validity period - Choose how long your messages are stored at the message centre.

Message types - Convert your text into **Voice**, **Fax**, **X.400** or **Email**.

Character encoding - Choose how your characters are encoded. This impacts on the size of your messages and therefore on your data charges.

Send long text as - Choose to send long messages as Multiple SMS or MMS.

Changing your multimedia message settings

Your KM900 message settings are pre-defined, so you can send messages immediately. These settings can be changed based on your preferences.

Touch **Settings** then select **Message settings** and **Multimedia message**. You can make change the following:

Retrieval mode - Select **Home network** or **Roaming network**. If you then select Manual you will only receive notifications about MMS messages. You can then decide whether to download them in full.

Messaging

Delivery report - Choose whether to allow and/or request a delivery report.

Read reply - Choose whether to allow and/or send a read reply.

Priority - Choose the priority level of your MMS.

Validity period - Choose how long your message is stored at the message centre.

Slide duration - Choose how long slides appear on screen.

Creation mode - Restricted/Warning/Free

Delivery time - Choose how long to wait before a message is delivered.

Multimedia message centre - Enter the details of your message centre.

Changing your other settings

Scroll through **Message settings** from the Settings tab then:

Voicemail - Touch **New profile** or  to add a new Voicemail service. Contact your network operator for more information about the service they provide.

Service message - Choose whether to receive or block service messages. You can also set message security levels by creating trusted and not trusted sender lists.

Info. service - Select your reception status, language and other settings.

Camera

Taking a quick photo

- 1** Press and hold down the Camera key on the right side of the phone.
- 2** Holding the phone horizontally, point the lens towards the subject of the photo.
- 3** Press the capture button lightly and a focus box will appear in the centre of the viewfinder screen.
- 4** Position the phone so you can see the photo subject in the focus box.
- 5** When the focus box turns green, the camera has focused on your subject.
- 6** Press the capture button and hold it down.

Camera

Once you've taken the photo

Your captured photo will appear on the screen. The image name is shown with four icons on the right side.

Send Touch to send the photo as a **Message, Email** or **Bluetooth**.

NOTE: Additional cost may occur when MMS are downloaded when roaming.

Use Touch to use the image as wallpaper.

Rename Touch to edit the name of the selected picture.

Edit Touch to edit the image using various tools.

 Touch to return to the previous menu.

 Touch to delete the image.

 Touch to take another photo immediately. Your current photo will be saved.

 Touch to view a gallery of your saved photos.

Getting to know the viewfinder

Back - Touch here to return to the home screen.

Menu map - Shows whether the camera is in video or photo mode, and can also be used for capture.

Gallery - Touch this icon to view the gallery.

Exposure - See Adjusting the Exposure.

Macro - Switch this on to take close up shots.

Flash status - Set flash light mode to automatic, on or off.

Settings - Touch this icon to open the settings menu. See Using the advanced settings for full details.

TIP! You can close all shortcut options to give a clearer viewfinder screen. Just touch the centre of the viewfinder once. To recall the options, touch the screen again.

01

02

03

04

05

06

07

08

Camera

Using the flash

The default flash setting is auto, but there are other options.

- 1 Select  from the left side of the viewfinder to enter the flash sub-menu.
- 2 There are three flash options:
Auto - Your camera will assess the light available for a good picture and use the flash as necessary.
Always off - The camera will never flash. This is useful if you want to save battery power.
Always on - The camera will always flash.
- 3 When you touch the option you want, the flash menu will automatically close, allowing you to take a picture immediately.
- 4 The flash status icon in the viewfinder will change based on the new flash mode.

Adjusting the exposure

The exposure defines the difference between light and dark areas in an image. A low contrast image will appear foggy, whereas a high contrast image will appear much sharper.

- 1 Touch .
- 2 Slide the contrast indicator along the bar towards  for a lower exposure and hazier image or towards  for a higher exposure and a sharper image.

Taking a continuous shot

- 1 From the viewfinder, touch  to open all the advanced settings options and select **Continuous shot**.
- 2 Position the subject in the viewfinder and press the capture button as if taking a normal photo.

3 The camera will take shots in quick succession.

Using the advanced settings

From the viewfinder, touch  to open all advanced settings options. You can change the camera setting by scrolling the wheel. After selecting the option, touch the **OK** button.

Switch to - For self portraits, switch to the LG KM900's inner camera. You can also switch between camera mode and video camera mode.

Image size - Change the size of the photo to save on memory space or to take an appropriately sized picture for a contact. See **Changing the image size**.

Color Effect - Choose a colour tone to use on your new photo. See **Choosing a colour effect**.

White balance - Choose between **Auto, Incandescent, Sunny, Fluorescent** and **Cloudy**.

Timer - The self-timer allows you to set a delay after the shutter is pressed. Select **Off, 3 seconds, 5 seconds** or **10 seconds**. This is ideal if you want to be included in a photo.

Shot mode - Choose the shot mode.

ISO - The ISO rating determines the sensitivity of the camera's light sensor. The higher the ISO, the more sensitive the camera will be. This is useful in darker conditions when you can't use the flash. Select the ISO value from **Auto, 100, 200, 400**, or **800**.

01

02

03

04

05

06

07

08

Camera

Image quality - Choose between **Super fine**, **Fine** and **Normal**. The finer the quality the sharper the photo. However, the file size will increase as a result, which means you'll be able to store fewer photos in your memory.

Memory in use - Choose whether to save your photos to the Handset memory or the External memory.

Hide icons - Choose the icons of camera settings manually or automatically.

Image stabilization - Enables you to take a picture without the camera wobbling or shaking.

Auto focus - Select the way the camera will focus. Choose between **Spot**, **Manual** and **Face tracking**.

Shutter sound - Select one of the four shutter sounds.

Grid view - Choose between **Off**, **2X2 grid**, **3X3 grid**

Geo-Tagging - **On/ Off**

Reset - Restore all camera settings.

TIP! When you exit the camera, all settings will return to their defaults except image size and image quality. Any non-default settings will need to be reset, such as colour tone and ISO. Check these before you take your next photo.

TIP! The settings menu is superimposed over the viewfinder, so when you change elements of the image colour or quality you will see a preview of the image change behind the settings menu.

Changing the image size

The more pixels, the larger the file, which means the files take up more memory space. If you want to store more pictures on your phone, you can alter the number of pixels to make the files smaller.

- 1 Using the viewfinder, touch  in the top left corner.
- 2 Select **Image size** from the Preview menu.
- 3 Select a pixel value from the six options (**5M: 2560x1920, 3M: 2048x1536, 2M: 1600x1200, 1M: 1280x960, 640x480, 320x240**) or choose the predefined wallpaper size.

Choosing a colour effect

- 1 Using the viewfinder, touch  in the top left corner.
- 2 Select **Color Effect** from the Preview menu.
- 3 There are five colour tone options: **Off, Sepia, Mono** or **Negative, Emboss**.
- 4 Once you've made your selection, the colour tone menu can be closed by selecting the OK button. You are then ready to take a picture.

TIP! You can change a picture taken in colour to black and white or sepia, but you cannot change a picture taken in black and white or sepia to colour.

Camera

Using the inner camera

Your LG KM900 has an inner 640x480 camera for both video calls and taking photos.

- 1 To switch to the inner camera touch  then select **Switch to- Inner camera** from the Preview menu.
- 2 After a few seconds you'll see yourself in the viewfinder. To capture the image, press the side button as normal.

TIP! The inner camera has fewer settings as it has no flash nor ISO. You can still alter the image size, colour effect, image quality, white balance and set the self-timer by touching  in the same way as when using the main camera.

- 3 After you've taken the photo you'll be offered all the same options as for an image taken with the main camera.
- 4 To return to the main camera touch  and then select **Outer Camera** from the Preview menu.

Viewing your saved photos

- 1 You can access your saved photos from within camera mode. Just touch  and your gallery will appear onscreen.

Video camera

Shooting a quick video

- 1 Press and hold down the camera key on the right side of the phone.
- 2 Then, touch  and then select **Switch to** in the view finder in camera mode to switch to video mode. Or, you can enter this menu directly by touching **Video camera**.
- 3 The video camera's viewfinder will appear on the screen.
- 4 Holding the phone horizontally, point the lens towards the video subject.
- 5 Press the capture button once to start recording.
- 6 **Rec** will appear at the bottom of the viewfinder with a timer at the bottom showing the length of the video.
- 7 To pause the video, touch  and resume recording by selecting .

- 8 Touch  on the screen to stop recording.

Adjusting the exposure

The exposure defines the difference between light and dark areas in an image. A low contrast image will appear foggy, whereas a high contrast image will appear much sharper.

- 1 Touch .
- 2 Slide the exposure indicator along the bar, towards  for a lower exposure, hazier image, or towards  for a higher contrast and sharper image.

Using the advanced settings

Using the viewfinder, touch **Settings** to open all the advanced settings options.

You can adjust the video camera setting by scrolling the wheel. After selecting an option, touch the **OK** button.

Switch to - Switch to your LG KM900's inner camera to record yourself on video.

Video size - Change the size of the video to save memory space. See **Changing the video image size**.

Scene mode - Choose between **Auto** or **Night mode**.

Color Effect - Choose a colour tone to use on your new view. See **Choosing a colour tone**.

White balance - The white balance ensures any white in your video is realistic. To enable your camera to adjust the white balance correctly, you may need to determine the light conditions. Choose between **Auto**, **Incandescent**, **Sunny**, **Fluorescent** or **Cloudy**.

Video quality - Choose between **Super fine**, **Fine** and **Normal**.

The finer the quality, the sharper the video will be. The file size will increase as a result, meaning you'll be able to store fewer videos in the phone's memory.

Duration - Set a duration limit for your video. Choose between **Normal** and **MMS** to limit the maximum size to send the video as an MMS.

TIP! If you choose MMS duration, choosing a lower image quality will enable you to shoot a longer video.

Memory in use - Choose whether to save your videos to the Handset memory or the External memory.

Voice - Choose from Mute to record a video without sound, or unmute to include the sound.

Sound focus - Choose the sound focus: **Off**/ **Outer focus**/ **Inner focus**

Hide icons - Select whether to hide the icons on the camera menu automatically or manually.

Reset - Reset all the video camera settings.

Changing the video image size

The more pixels, the larger the file size, which means the files take up more memory space. If you want to store more videos on your phone, you can alter the number of pixels to make the files smaller.

- 1 Using the viewfinder, touch  in the top left corner.
- 2 Select **Video size**.

Video camera

- 3 Select a pixel value from the four options:

720X480(D1) - The highest-quality widescreen option.

640x480 - Standard sized VGA.

320x240 - Smaller image size, and therefore a smaller file size. This is ideal for saving memory space.

176x144 - Smallest image size and therefore the smallest file size.

- 4 Touch the OK button to return to the viewfinder.

 **WARNING:** The great editing software on your LG KM900 is compatible with all video types except 720X480 (D1) and 640x480. Don't record in this format if you plan to edit the video.

TIP! For video format conversion software, see the CD that came with your KM900.

Choosing a colour tone

- 1 Using the viewfinder,  in the top left corner.
- 2 Select **Color Effect**.
- 3 There are five colour tone options, **Off**, **Sepia**, **Mono**, **Negative** or **Emboss**.
- 4 Touch the colour tone you want to use.

TIP! You can change a video shot in colour to black and white or sepia, but you cannot change a video shot in black and white or sepia to colour.

Using the inner video camera

Your LG KM900 has an inner 320x240 camera for both video calls and recording videos.

- 1 To switch to the inner camera, touch  then select **Inner Camera** from the Preview menu.
- 2 After a few seconds you'll see yourself in the viewfinder. To start recording the image press the capture button as normal, and press it again to stop recording.
- 3 After you've shot the video, you'll be offered all the options available for a video shot using the main camera.
- 4 To return to the main camera touch  and then **Outer Camera**.

TIP! You can still alter the image size, colour effect, white balance and quality by touching **Settings** in the same way as when using the main camera.

Watching your saved videos

- 1 In the viewfinder, touch .
- 2 Your gallery will appear on the screen.
- 3 Touch a video once to bring it to the front of the gallery. It will automatically start to play.

Watching your videos on TV

Connect your KM900 to TV using the TV output cable.

NOTE: The TV output cable is available for purchase separately.

 **WARNING:** All formats except 320x240 and 176x144 are compatible with playing the video through a TV.

- 6 All colour will be removed from the photo, apart from in the section marked for colour accenting.
- 7 Select **Save** to save the changes.

Swapping colours in a photo

- 1 From the editing screen, touch **Image**.
- 2 Choose **Colour Swapping**.
- 3 Select part of the photo. A traced line will appear around everything in that area which is the same or a similar colour, for example, a person's hair or jumper.
- 4 Select a colour.
- 5 Press **OK**.
- 6 The part of the photo selected for colour accenting will change to the selected colour.
- 7 Select **Save** to save the changes.

Editing your videos

The video editing features are available for MPEG4 types except 720x480 (D1) resolution.

Don't record in these formats if you plan to edit your video.

Trimming the length of the video

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Trim/Multi-trim**.
- 3 Touch  and set the new start and end points using **Trim**.
- 4 Touch **Preview** to confirm you are happy with the new cut.
- 5 Touch **Save** or, alternatively, touch  to return to the gallery and discard the changes.

Merging two videos

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Video merge**.
- 3 The My videos folder will open. Choose the video you want to merge.
- 4 Touch and slide the photo to move it to the end or the beginning of the video.
- 5 Touch **Preview** to choose how to merge the videos together.

- 6 Press **Save** then **Yes** to save the new merged video. Replace the existing file or save as a new file.
- 7 Repeat these steps to merge more videos.

Merging a photo with a video

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Image merge**.
- 3 The My images folder will open. Choose the photo you want to merge into your video and touch **Select**.

08

Your photos and videos

- 4 Touch and slide the photo to move it to the end or the beginning of the video.
- 5 Touch **Preview** to choose how the photo and video merge together.
- 6 Press **Save** then choose to replace the existing file or save as a new file.
- 7 Repeat these steps to merge more photos.

Adding text to a video

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and select **Text overlay**.
- 3 Touch  and pause playback for setting the start point for text appearance.
- 4 Touch Start and choose the text styles. Enter your text using the keypad and select **OK**.

- 5 Touch the area of the screen you want the text to appear and touch **OK**.

- 6 Touch **Save**. Replace the existing file or save as a new file.
- 7 Repeat these steps to add more text.

Overlaying a photo

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Image overlay**.
- 3 The My images folder will open. Choose the photo you want to overlay on your video.

- 4 Touch  and pause when you want the picture to appear, then select Opacity after touching the Start button.
- 5 Touch **OK** and then press **End** when the photo overlay shall be stopped.
- 6 Touch the area of the screen where you want the text to appear. If the photo is too big it will overlay the whole screen, not just the selected area.
- 7 Touch **Save**. Replace the existing file or save as a new file.
- 8 Repeat these steps to add more photos.

Adding a soundtrack to your video

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Audio dubbing**.
- 3 The My sounds folder will open. Choose the track you want to add to your video.
- 4 The original audio track on your video will be erased.
- 5 If the audio is shorter than the video choose whether to play it **Once** or to **Repeat** it.
- 6 Replace the existing file or save as a new file.

Your photos and videos

Adding live sound to your video

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Live**.
- 3 Set the sound value to original sound or recording sound.

Changing the video speed

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Time scaling**.
- 3 Select one of the four options. This can vary depending on the frame rate.
- 4 Replace the original file or save as a new file.

Adding a dimming effect

- 1 Open the video you want to edit, touch  option key.
- 2 Select **Edit** and choose **Dimming Effect**.
- 3 Your video will now fade in at the start and fade out at the end.
- 4 Replace the original file or save as a new file.

Multimedia

You can store multimedia files in your phone's memory so you have easy access to all your pictures, sounds, videos and games. You can also save your files to a memory card. Using a memory card allows you to free up space in your phone's memory.

To access the Multimedia menu, touch  select **My stuff** from the Multimedia Tab. You can open a list of the folders that store all your multimedia files.

TIP! To delete any files in My stuff, touch  then **Delete**.

Pictures

My images contains a list of pictures including default images pre-loaded onto your phone, images you have downloaded and those taken on your phone's camera.

My images options menu

The options available to you in **My images** depend on the image type you have selected. All of the options will be available for pictures you have taken on the phone's camera, but only the **Set favorites**, **Sort by**, **Slide show** and **Memory manager** options are available for default images.

Sending a photo

- 1 To send a photo just select the picture you want.
- 2 Touch **Send**. Choose between **Message**, **Email**, **Bluetooth** or **Upload to web**.
- 3 If you choose **Message** or **Email**, your photo will be attached to a message and you can write and send the message as normal. If you choose **Bluetooth**, your phone will search for a device to send the picture to.

Multimedia

Using an image

You can choose images to use as wallpapers and screensavers, or even to identify a caller.

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My images**.
- 3 Select an image and touch .
- 4 Touch **Use as** and choose between:

Wallpaper - Set a wallpaper for the key lock screen.

Contacts - Allocate an image to a person in your contacts list, so the picture is displayed when they call you.

Start up image - Set an image to appear when you switch the phone on.

Shut down image - Set an image to appear when you switch the phone off.

Outgoing call image - Set an image to appear during outgoing calls.

Incoming call image - Set an image to appear during incoming calls.

Printing an image

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My images**.
- 3 Select an image and touch .
- 4 Touch **Print**, then choose between **Bluetooth** and **PictBridge**.

Moving or copying an image

An image can be moved or copied between the phone memory and the memory card. You may want to do this to clear some space in one of the memories, or to safeguard your images against being lost.

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My images**.
- 3 Touch .
- 4 Select **Move** or **Copy**.

Creating a slide show

If you want to view all the images on your phone, you can create a slide show to save you having to open and close each individual image.

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My images**.
- 3 Touch  then **Slide show**.

Geo-tagging

Turn on the camera and enjoy the capabilities of your phone's location-based services.

Take pictures wherever you are and tag them with the location.

If you upload tagged pictures to a blog that supports Geo-tagging, you can see the pictures displayed on a map.

Checking your memory status

You can check to see how much memory space you have used and how much you have left available.

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My images**.
- 3 Touch  then **Memory manager**.

Multimedia

Sounds

The **My sounds** folder contains Downloaded sounds, **Default sounds** and **Voice recordings**. From here you can manage or send sounds or set them as ringtones.

Using a sound

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My sounds**.
- 3 Select **Default sounds** or **Download sound**.
- 4 Select a sound and touch the play icon. It will start to play.
- 5 You can use the sound as a various tone by selecting **Use as** menu.
- 6 Choose between **Voice ringtone**, **Video ringtone** and **Message tone**.

Videos

The **My videos** folder shows a list of videos you have downloaded or recorded on your phone.

Watching a video

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **My videos**.
- 3 Select a video to play.

TIP! KM900 supports both DivX & Xvid video format playback to ensure greater content availability.

NOTE: The TV output cable is available for purchase separately.

Sending a video clip

- 1 Select a video and touch .
- 2 Touch **Send** and choose between **Message**, **Email** and **Bluetooth**.
- 3 If you choose **Message** or **Email**, your video clip will be attached to the message, which you can write and send as normal. If you choose **Bluetooth**, your phone will search for a device to send the video to.

Games and Applications

You can download new games and applications to your phone to keep you amused in your spare time.

Playing a game

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **Games or Applications** menu.
- 3 Touch Launch button to launch a game or an application.

Using the options menu

Within Games and Application folders, the following options are available:

New folder: Create a folder within Games or Applications

Sort by: Sort the games and applications by Date, Name, Size or Memory

Memory manager: View the memory status handset or external memory.

Multimedia

Installing a Java game and application

- 1 Touch  then select **My Files** from Multimedia tab.
- 2 If you insert new memory card, touch External Memory menu.
- 3 Select the file(*.jad or *.jar) you want to install and touch **Install**.

Use the M-Toy menu

M-Toy contains preloaded flash games which are using the integrated motion sensor.

Flash contents

The Flash contents folder contains all your default and downloaded SWF files.

Viewing an SWF/ SVG file

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **Flash contents**.
- 3 Select the file you want to view.

Documents

This is possible with your Excel, PowerPoint, Word, Text and pdf files.

Viewing a file

- 1 Touch  then select **My stuff** from the Multimedia tab.
- 2 Touch **Documents**.
- 3 Select a document and touch **View**.

Transferring a file to your phone

Bluetooth is probably the easiest way of transferring a file from your computer to your phone. You can also use the LG PC Suite via your sync cable.

To transfer files (e.g. music) using Bluetooth:

- 1 Make sure your phone and computer have Bluetooth switched on and are connected to each other.
- 2 Use your computer to send the file via Bluetooth.
- 3 When the file is sent, accept it on your phone by touching **Yes**.
- 4 The file should appear in your **Documents** or **Others** folder.

Others

The **Others** folder is used to store files that are not pictures, audio files, videos, games or applications. It is used in the same way as the **Documents** folder. You may find that when you transfer files from your computer to your phone that they appear in the **Others** folder. If this happens, you can move them.

Creating a movie

- 1 Touch  then select **Movie maker** from the Multimedia tab.
- 2 Touch **Insert** to add an image.
- 3 Touch the **Style** tab on the top to choose a movie style.
- 4 Touch the **Sound** tab on the screen to change the sound, e.g. for a voice recording.
- 5 Touch the **Preview** button to see the results.
- 6 Touch the **Play Order** tab on the screen to change the order.

07

08

Multimedia

- 7** Touch the **Saved in** tab on the screen to choose where to save the movie, and touch the **Usage** tab to choose between storing it and MMS.
- 8** To save your movie, press play and then touch **Save movie**.

Orange music

Your LG KM900 has a built-in music player that lets you play all your favourite tracks. To access the music player, touch menu key  then select **Orange music** from the Multimedia Tab. From here, you can access a number of folders:

All tracks - Contains all the songs you have on your phone.

Favorites - Contains the songs you have saved as favourites.

Artists - Browse your music collection by artist.

Albums - Browse your music collection by album.

Genres - Browse your music collection by genre.

Transferring music onto your phone

The easiest way to transfer music onto your phone is via Bluetooth or the sync cable.

You can also use the LG PC Suite. See page 94 for details. To transfer music using Bluetooth:

- 1** Make sure both devices have Bluetooth switched on and are connected to each other.
- 2** Select the music file on the other device and select to send it via Bluetooth.
- 3** When the file is sent, accept it on your phone by touching **Yes**.
- 4** The file should appear in **Orange music > All tracks**.

Playing a song

- 1 Touch  then select **Orange music** from the Multimedia tab.
- 2 Touch **All tracks**.
- 3 Select the song you want to play then touch .
- 4 Touch  to pause the song.
- 5 Touch  to skip to the next song.
- 6 Touch  to go back to the previous song.
- 7 Touch  to return to the **Orange music** menu.

TIP! To change the volume while listening to music, touch .

Creating a playlist

You can create your own playlists by choosing a selection of songs from the **All tracks** folder.

- 1 Touch  then select **Orange music** from the Multimedia tab.
- 2 Touch the  option icon.
- 3 Touch **New playlist**, enter the playlist name and touch .
- 4 The All tracks folder will be displayed. Touch all the songs that you would like to include in your playlist; a tick will appear next to these track names.
- 5 Touch **Add songs**.

To play a playlist, select it and touch Play.

NOTE: To add a second playlist, touch  then New playlist.

01

Deleting a playlist

- 1 Touch  then select **Orange music** from the Multimedia tab.
- 2 Touch the  option icon.
- 3 Touch **Delete** or **Delete all** to delete all of the playlists.

Using the radio

Your LG KM900 has a built-in FM radio feature so you can tune into your favourite stations and listen on the move.

NOTE: You will need to attach your headphones to listen to the radio. Insert them into the headphone socket.

Searching for stations

You can tune your phone to radio stations by searching for them manually or automatically. They will then be saved to specific channel numbers, so you don't have to keep re-tuning. You can store up to 30 channels on your phone.

Automatic tuning:

- 1 Touch  then select **FM radio** from the Multimedia tab.
- 2 Touch  .

- 3** Touch **Auto scan** then **Yes**. The stations found will be allocated to channel numbers in your phone by selecting **Set**, **Skip** and **Stop**.

NOTE: You can also manually tune to a station by using the wheel displayed next to the radio frequency.

Resetting channels

- 1** Touch  then select **FM radio** from the Multimedia tab.
- 2** Touch .
- 3** Choose **Reset** to reset the current channel or choose **Reset all** to reset all of the channels. If you reset all channels, each channel will return to its default 87.5 Mhz frequency.

Listening to the radio

- 1** Touch  then select **FM radio** from Multimedia tab.
- 2** Touch the channel number of the station you would like to listen to.

TIP! To improve radio reception, extend the headset cord, which functions as the radio aerial.

 **WARNING:** If you connect the headset not specifically made for it to the phone, the radio reception can be interfered.

Organiser

Adding an item to your To Do list

- 1 From the home screen select  then scroll through **Organiser** in Utilities tab.
- 2 Select **New task** in  and touch **Note**.
- 3 Set the date for the task, add notes, then select its priority level: **High**, **Medium** or **Low**.
- 4 Save the task by selecting .

TIP! You can back up and synchronise your calendar with your computer by PC Suite.

Using the date finder

Date finder is a handy tool to help you calculate what the date will be once a certain number of days have passed. For example, 60 days from 10.10.2009 will be 09.12.2009. This helps you keep track of deadlines.

- 1 From the home screen select  then scroll through **Organiser** in Utilities tab.
- 2 Select **Date finder** from the option menu.
- 3 In the **From** tab set the required date.
- 4 In the **After** tab set the number of days.
- 5 The **Target date** will be shown.

Setting your alarm

- 1 From the home screen select  then scroll through **Alarms** in Utilities tab.
- 2 If you want add a new alarm, touch **New alarm**. If you want to set the alarm to sound again within one hour, touch **Quick alarm**.
- 3 Set the time you would like the alarm to sound.
- 4 Choose whether you want the alarm to repeat and set the repeat type.
The icons indicate the weekday you select.
- 5 Select **Sound/ Vibration** to select the type of alarm you want.
- 6 Touch **Alarm bell** then select bell. To listen to sounds, touch the sound, followed by .
- 7 Add a memo to the alarm.

Adding a memo

- 1 From the home screen select  then scroll through **Memo** in Utilities tab.
- 2 Touch **New memo**.
- 3 Type your memo, and then touch .

TIP! You can edit an existing memo. Select the one to be edited, touch **Edit** and type in your changes.

Voice recorder

Use your voice recorder to record voice memos or other audio files.

Recording a sound or voice

- 1 From the home screen select  then scroll to **Voice recorder** in the Utilities tab.
- 2 Touch **Rec.** to begin recording.
- 3 Touch **Stop** to end recording.

- 4 If you want to re-record the voice, touch **New**.

Sending the voice recording

- 1 Once you have finished recording, touch **Send**.
- 2 Choose **Message**, **Email** or **Bluetooth**. If you choose **Message** or **Email**, the recording will be added to the message which you can write and send it as normal. If you choose **Bluetooth**, your phone will search for a device to send the voice recording to.

Using your calculator

- 1 From the home screen select , then scroll to **Calculator** in the Utilities tab.
- 2 Touch the number keys to enter numbers.
- 3 For simple calculations, touch the function you require (+, -, x or ÷), followed by =.
- 4 For more complex calculations, touch  and choose from **sin**, **cos**, **tan**, **deg**, **log** etc..

Converting a unit

- 1 From the home screen select , then scroll to **Tools** in the Utilities tab.
- 2 Select **Unit converter**.
- 3 Choose whether you want to convert **Currency, Area, Length, Weight, Temperature, Volume** or **Velocity**.
- 4 Then select the unit, and enter the value you would like to convert from.
- 5 The corresponding value for all units will appear on the screen.

Using the stopwatch

- 1 From the home screen select , then scroll to **Stopwatch** in the Utilities tab.
- 2 Touch **Start** to begin the timing.
- 3 Touch **Lap** if you want to record a lap time.
- 4 Touch **Stop** to end the timer.

- 5 Touch **Continue** to restart the stopwatch from the point you stopped it, or touch **Reset** to start the time again.

Adding a city to your world clock

- 1 From the home screen select  .
- 2 Scroll to **World clock** in the Utilities tab.
- 3 Touch the  icon, followed by **Add city**.

PC Suite

You can synchronise your PC with your phone. This will ensure all your important details and dates match, and also act as a back up to help put your mind at ease.

TIP! To do this, you will need to install the application PC Suite provided on the CD-ROM or available as a download from <http://update.lgmobile.com>. (From www.lgmobile.com PRODUCTS > Manual & Software > Go to Manual & S/W Download Section)

Installing the LG PC Suite on your computer

- 1 From the home screen, touch , and then scroll to **Connectivity** in the Settings tab.
- 2 Select **USB connection mode**.
- 3 Connect handset and PC via USB cable and wait for a while.

- 4 Installation guide message will be displayed.

Caution! If installation guide message is not displayed in your PC, please check your CD-ROM setting on Windows.

- 5 Insert the supplied CD or click download button to directly download LG PC Suite program from website.
- 6 Click on the LG PC Suite Installer which will appear on your screen.

Connecting your phone and PC

- 1 Select PC Suite mode in Connectivity menu and then connect the USB cable to your phone and your PC.
- 2 LG PC Suite will be automatically activated on your PC.

Caution! If LG PC Suite is not activated automatically in your PC, please check your CD-ROM setting on PC.

- 3 Your phone and PC are now connected.

Backing up and restoring your phone's information

- 1 Connect your phone to your PC as outlined above.
- 2 Click on the **Backup** icon, and select **Backup** or **Restore**.
- 3 Choose whether to back up **Contents Data** and/or **Phonebook/Schedule/ToDo/Memo Data**. Select the location you want to back up the information to, or restore it from. Click **OK**.
- 4 Your information will be backed up.

Viewing phone files on your PC

- 1 Connect your phone to your PC as outlined above.
- 2 Click on the **Manage Files** icon.
- 3 All the documents, flash contents, images, audio files and videos you have saved on your phone will be displayed on the screen in the LG Phone folder.

TIP! Viewing the contents of your phone on your PC helps you to arrange files, organise documents and remove content you no longer need.

PC Suite

Synchronising your contacts

- 1 Connect the phone to your PC.
- 2 Click on the **Contacts** icon.
- 3 Your PC will now import and display all the contacts saved on your SIM card and handset.
- 4 Click on **File** and select **Save**. You can now select where you want to save your contacts to.

NOTE: To back up contacts saved to your SIM card, click on the SIM card folder on the left side of the PC screen. Right click on one of your contacts and choose **Select all**, then **Copy** or **Move to phone memory**.

Right-click your contacts and select **Copy to contact**. Now click on the **Handset** folder on the left side of the screen and all your numbers will be displayed.

Synchronising the messages

- 1 Connect the phone to your PC.
- 2 Click on the Messages icon.
- 3 All your PC and phone messages will be displayed in folders on the screen.
- 4 Use the toolbar at the top of the screen to edit and rearrange messages.

Orange Music Sync

This menu lets you add music to your KM900. Before you start transferring music from your PC to your device, make sure your computer has the following set-up and accessory is at hand:

- Microsoft Windows XP or Vista
- Windows Media Player 10 or above
- USB cable

Transferring music using Windows Media Player

- 1 From the home screen select , then scroll through **Connectivity** in the Settings tab.
- 2 Select **USB connection mode** and choose **Music sync**.
- 3 Connect your handset and PC using a compatible USB cable.
- 4 When you try to connect the handset to your PC, your handset will read: "Orange Music Sync" followed by **Connected**.
- 5 The PC will prompt you to launch your preferred music management software.
- 6 Select Windows Media Player.
- 7 Go to the Sync Tab, then drag and drop the music you wish to transfer to your handset into the **Sync List** pane.
- 8 Click on **Start Sync** button. This starts the transfer process.

WARNING

Do not disconnect your phone during the transfer.

NOTE: Music Sync is only available for music contents.

Using iSync

Install the iSync plug-in install file, which is supported by Macintosh and PCs and connect the phone via Bluetooth or USB.

To synchronise via Bluetooth, set up a pair between the Macintosh or PC and the phone. If you want to set up via USB, select the iSync menu in USB connection mode.

NOTE: When using Bluetooth, you have to select **iSync on** in option menu.

PC Suite

DivX Converter

Install the DivX converter, which is supplied on the same CD as the PC Suite software. DivX will convert media files on your PC to a format that lets you upload them and view them on your phone.

Once installed select **DivX** from the Program Files on your PC, then **DivX converter** followed by Converter.

Use the arrows in the application to change the conversion format to Mobile. If you right click on the application box and select **Preferences**, you can change the location where the converted files are saved.

Drag and drop the files into the application for initial analysis. Then select **Convert** for the process to begin. When the process is complete a Conversion complete pop up will be displayed.

The web

Orange World

Orange World gives you a fast, full-colour world of games, music, news, sport, entertainment and loads more, straight to your mobile phone. Wherever you are and whatever you're into.

Accessing the web

- 1 From the home screen select  then scroll through **Orange World** in the Communication tab.
- 2 To go straight to the browser home page, select **Home**. Alternately, select **Enter address** and type in the URL, followed by **Connect**.

NOTE: You will incur extra cost by connecting to these services and downloading content. Check data charges with your network provider.

Adding and accessing bookmarks

For easy and fast access to your favourite websites, you can add bookmarks and save web pages.

- 1 From the home screen select  then scroll through **Orange World** in the Communication tab.
- 2 Select **Bookmarks**. A list of your Bookmarks will appear on the screen.
- 3 To add a new bookmark, touch **New Bookmark**. Enter a name for the bookmark followed by its URL.
- 4 Touch . Your Bookmark will now appear in the bookmark list.
- 5 To access the bookmark simply touch the bookmark then touch connect. You will be connected to the bookmark.

The web

Using the RSS reader

RSS (Really Simple Syndication) is a family of web feed formats used to publish frequently updated content, such as blog entries, news headlines or podcasts. An RSS document, called a feed, web feed, or channel, contains either a summary of content from an associated web site or its full text. RSS makes it possible for people to keep up with their favourite web sites in an automated way that is easier than checking manually.

The user subscribes to a feed by entering its link into the reader or by clicking an RSS icon in a browser that starts the subscription process. The reader checks the user's subscribed feeds regularly for new content and downloads any updates that it finds.

Accessing a saved page

- 1 From the home screen select  then scroll through **Orange World** in the Communication tab.
- 2 Select **Saved pages**.
- 3 Select the page you want to view and it will open.

Viewing your browser history

- 1 From the home screen select  then scroll through **Orange World** in the Communication tab. Select **History**.
- 2 The web pages you have accessed recently will be displayed. To access any of these pages, simply select it.

Changing web browser settings

- 1 From the home screen select  then scroll to **Connectivity** in the Settings tab.
- 2 Select **Browser settings**.
- 3 You can edit the **Profiles**, **Appearance settings**, **Cache / Cookies**, **Security**, or **Reset settings**.
- 4 You can simply set these on or off by touching the switch icon.

Using your phone as a modem

Your KM900 can double as a modem for your PC, giving you email and internet access even when you don't have any wired connection. You can do this via the USB cable or by Bluetooth.

Using the USB cable:

- 1 Ensure you have the LG PC Suite installed on your PC.
- 2 Connect your KM900 and PC using the USB cable and launch the LG PC Suite software.
- 3 Click **Communication** on your PC. Then click **Settings** and select **Modem**.
- 4 Choose **LG Mobile USB Modem** and select **OK**. It will now appear on the screen.
- 5 Click Connect and your PC will connect via your KM900.

The web

Using Bluetooth:

- 1 Ensure Bluetooth is switched **On** and **Visible** for both your PC and KM900.
- 2 Pair your PC and KM900 so that a passcode is required to connect them.
- 3 Use the **Connection wizard** on your LG PC Suite to create an active Bluetooth connection.
- 4 Click **Communication** on your PC. Then click **Setting**.
- 5 Click **Modem**.
- 6 Choose **Standard Modem over Bluetooth link** and click **OK**. It will now appear on the screen.
- 7 Click **Connect** and your PC will connect via your KM900.

Settings

This folder lets you adapt your settings to personalise your KM900.

Changing your screen settings

- 1 From the home screen select  then scroll through **Display settings** in the Settings tab.
- 2 You can choose the option menu from:

Screen images - Choose an image for locking, switching the phone on or off, or making or receiving a call.

NOTE: The setting will be reset if you select **Reset** menu.

Homescreens - Widget/ Contact/ Multimedia/ Shortcut

Lock screen - Choose the clock type on the lock screen.

Font - Adjust the font size and style.

Backlight - Choose how long the backlight stays on for.

NOTE: The longer the backlight stays on, the more battery power it uses, and you may need to recharge your phone more often.

Auto brightness - Adjust the screen brightness automatically.

Brightness - Adjust the screen brightness.

Personalising your profiles

You can quickly change your profile on the home screen. Just touch the status summary icon on the top, then touch the profile tab.

Using the settings menu, you can personalise each profile setting.

- 1 From the home screen select  then scroll through **Profiles** in the Settings tab.
- 2 Choose the profile you want to edit: **Normal**, **Silent**, **Outdoor** or **Flight mode**
- 3 You can then change all sounds and alert options available in the list, including your **Voice/Video**

01

02

03

04

05

06

07

08

Settings

ringtone, Volume, Message alerts and others.

Changing your phone settings

Enjoy the freedom of adapting the KM900 to your own preferences.

1 From the home screen select  then scroll to **Phone settings** in the Settings tab.

2 Select a menu from the list below:

Date & Time - Adjust your date and time settings or choose to auto update the time when travelling or for daylight saving.

Power save - Choose to switch the factory set power saving settings to **On** or **Off**.

Languages - Change the language on your KM900's display.

Auto key lock - Lock the keypad automatically on the home screen.

Security - Adjust your security settings, including PIN codes and handset lock.

Touch settings - Change the touchpad value settings.

Memory manager - See **Using memory manager** on page 102 for more information.

Reset settings - Restores all settings to their factory defaults.

Handset Information - View KM900 technical information.

Changing your touch settings

From the home screen select  then scroll through **Phone settings** > **Touch settings** in the Settings tab.

Touch vibration - Change the type of vibration.

Vibration type - Vibration 1/2/3

Vibration volume - Controls the strength of vibration.

Touch sound - Change the tone when touching the screen.

Sound - Sound 1/2/3

Volume - Controls the volume of tone.

Changing your connectivity settings

Your connectivity settings have already been set up by your network operator, so you can enjoy your new phone immediately. To change any settings, use this menu:

From the home screen select  then scroll to **Connectivity** in the Settings tab.

Network selection - Your KM900 will connect automatically to your preferred network.

Internet profile - Set the profiles for connecting to the internet.

Access points - Your network operator has already saved this information. You can add new access points using this menu.

GPS type - Choose either **Assisted GPS** or **Stand alone**.

GPS

- GPS technology uses information from earth-orbiting satellites to find locations.
- A receiver estimates the distance to GPS satellites based on the time it takes for signals to reach them, then uses that information to identify its location.
- This may take from a couple of seconds to several minutes.
- Assisted GPS(A-GPS) on this mobile is used to retrieve location assistance data over a packet data connection.
- The assistance data is only retrieved from the Service server when offered by your network provider and needed.

01

02

03

04

05

06

07

08

Settings

Note: GPS service has an error tolerance and will not work in buildings or underground.

USB connection mode -

Synchronise your KM900 using the LG PC Suite software to copy files from your phone. See page 94 for more information about synchronisation.

Projector/TV out - Choose **PAL** or **NTSC** when connecting your KM900 to a TV.

DivX VOD registration - This menu is used to generate a DivX VOD registration code. Please visit <http://vod.divx.com> to register and for technical support.

Packet data conn. - Set the packet data connection.

Browser settings - Set the values related to the browser.

Streaming settings - Your network operator has already saved this information. You can edit it if you want to make changes.

Java settings - Allows you to set profiles for connections made by Java programs and to view certificates.

Using memory manager

Your KM900 has three available memories: the phone itself, the SIM Card and an external memory card (which you may need to purchase separately). You can use memory manager to see how much of each memory has been used and how much space is available.

From the home screen select  then scroll through **Phone settings** in the Settings tab. Select **Memory manager**.

Handset common memory 1/2 -

View the memory available on your KM900 for MMS, Email, Java applications and others.

Handset multimedia memory -

View the memory for multimedia content such as Pictures, Sounds, Video, Flash and Documents.

Handset reserved memory -

View the memory available on your handset for SMS, Contacts, Calendar, To do list, Memos, Alarms, Call history, Bookmarks and Miscellaneous items.

USIM memory - View the memory available on your SIM Card.

External memory - View the memory available on your external memory card (which you may need to purchase separately).

Using flight mode

Turn flight mode on by selecting  then **Settings** > **Profiles** and select **Flight mode**.

Flight mode prevents you making calls, connecting to the Internet, sending messages or using Bluetooth.

Sending and receiving files using Bluetooth

Bluetooth is a great way to send and receive files as it uses no wires and connection is quick and easy. You can also connect to a Bluetooth headset to make and receive calls.

To send a file:

- 1 Open the file you want to send, which will typically be a photo, video or music file.
- 2 Touch  and choose **Send**. Select **Bluetooth**.
- 3 If you have already paired the Bluetooth device, your KM900 will not automatically search for other Bluetooth devices. If not, your KM900 will search for other Bluetooth enabled devices within range.
- 4 Choose the device you want to send the file to and touch **Select**.
- 5 Your file will be sent.

01

02

03

04

05

06

07

08

Settings

TIP! Check the progress bar to make sure your file has been sent.

To receive a file:

- 1 To receive files your Bluetooth must be set to **On**. See **Changing your Bluetooth settings** below for more information.
- 2 A message will prompt you to accept the file from the sender. Touch **Yes** to receive the file.
- 3 You will see where the file has been saved and choose to **View** the file or **Use as wallpaper**. Files will usually be saved to the appropriate folder in My stuff.

Changing your Bluetooth settings

- 1 From the home screen select  then scroll through **Bluetooth** in the Settings tab.

- 2 Touch .

Make changes to:

My device information - Enter a name for your KM900.

My device visibility - Choose to be **Visible**, **Hidden** or **Visible for 1 min**.

Remote SIM mode on - Activate the remote SIM mode.

iSync on - Choose to activate on iSync.

Supported services - Select how to use Bluetooth in association with different services.

Delete - Choose to delete the selected profile.

Delete all - Choose to delete all profiles.

Pairing with another Bluetooth device

By pairing your KM900 with another device, you can set up a passcode protected connection. This makes your pairing more secure.

- 1 Check that your Bluetooth is **On**. You can change your visibility using the **Settings** menu.
- 2 Touch **Search**.
- 3 Your KM900 will search for Bluetooth devices. When the search is completed **Refresh** will appear on the screen.
- 4 Choose the device you want to pair with and enter a passcode, then touch **OK**.
- 5 Your phone will then connect to the other device, on which you will need to enter the same passcode.
- 6 Your passcode-protected Bluetooth connection is now ready.

Using a Bluetooth headset

- 1 Check that your Bluetooth is **On**.
- 2 Follow the instructions that came with your headset to put it in pairing mode and pair your devices.
- 3 The headset will be automatically switched to Headset profile.
- 4 Touch **Ask always** or **Allow without ask**.

Wi-Fi

Wireless Manager allows you to manage Internet connections per Wi-Fi (Wireless LAN) on your device. It allows the phone to connect to local wireless networks or access the Internet wirelessly. Wi-Fi is faster and has a greater range than Bluetooth wireless technology and can be used for fast emailing and Internet browsing.

NOTE: The KM900 supports WEP, WPA-PSK/2 encryption, and not EAP, WPS encryption. If your Wi-Fi service provider or network administrator sets encryption for network security, fill in the key in the pop-up window. If encryption is not set, this pop-up window will not be shown. You can obtain the key from your Wi-Fi service provider or network administrator.

1. How to set up Wi-Fi

- 1 Wi-Fi On
- 2 AP (Access Point) Search
 - Searches which AP it can connect to.
- 3 AP Connect
 - Connects to the desired AP from the AP search list.
 - If the AP is security type WEP or WPA-PSK/2, enter the security key.

2. Wi-Fi network profile support

- 1 Wi-Fi profile support (how to connect to a frequently-used AP or Hidden AP)
 - 1) If the AP does not appear in the search list, you can connect to it by saving it as a profile.
 - 2) Saving the frequently-used AP as a profile makes it easier to enter the Security key when

connecting to an AP with that Security type.

- 3) If the AP does not support DHCP, you can connect to the AP using a static IP address.

2 Description of each field in the Wi-Fi profile.

- 1) Network name: SSID (ID)
- 2) Security type: WEP, WPA-PSK/2 support.
- 3) Security key: saves the security key.
- 4) IP/DNS setting: this allows you to set to Automatic or Static depending on whether the AP supports DHCP.
For Static, enter the field value of the IP address and DNS server to use with the static IP address when connecting.

3 How to save the Wi-Fi profile

- 1) Select Saved networks from the Options menu, then select **New network** and enter values into each field.
- 2) It is possible to select and save the AP search list by selecting **Wi-Fi On** and then **Refresh** (Searching AP).
- 3) After connecting to an AP with this Security type, the profile will be saved automatically.

3. How to obtain MAC address

For setting up a connection in some wireless networks with MAC filter you may need to enter the MAC address of your KM900 into the router.

- 1 Touch Wi-Fi from the settings tab, then open the options menu.
- 2 Select My MAC Address and it will be displayed.

Software Upgrade

Software Upgrade

LG Mobile Phone Software Upgrade Program

For more information on installing and using this program, please visit <http://update.lgmobile.com>.

This feature allows you to upgrade your software to the latest version quickly and conveniently over the Internet without needing to visit our service centre.

As the mobile phone software upgrade program requires your full attention throughout the upgrade process, please make sure you check all instructions and notes that appear at each step before moving on to the next step. Please note that removing the USB data communication cable or batteries during the upgrade may seriously damage your mobile phone. As the manufacturer takes no responsibility for loss of data

during the upgrade process, you are advised to back up any important information in advance for safekeeping.

Accessories

There are a variety of accessories available for your mobile phone, which may be sold separately. You can select these options according to your personal communication requirements. Consult your local dealer for availability. **(Items described below may be optional.)**

Charger

Battery

Stereo headset

Data cable and CD

Connect and synchronise your KM900 and PC.

User Guide

Network service

The wireless phone described in this guide is approved for use on E-GSM 900, DCS 1800, GSM 850, PCS 1900 and W-CDMA networks.

A number of features included in this guide are called Network Services. These are special services that you arrange through your wireless service provider. Before you can take advantage of any of these Network Services, you must subscribe to them through your service provider and obtain instructions for their use from your service provider.

Trouble shooting

This chapter lists some problems you might encounter while using your phone. Some problems require you to call your service provider, but most are easy for you to correct yourself.

Message	Possible causes	Possible Solutions
SIM error	There is no SIM card in the phone or it is inserted incorrectly.	Make sure the SIM card is correctly inserted.
No network connection	Signal weak Outside GSM network area	Move towards a window or into an open area. Check the service provider coverage map.
Codes do not match	To change a security code, you will need to confirm the new code by entering it again. The two codes you have entered do not match.	Contact your Service Provider.
Function cannot be set	Not supported by Service Provider, or registration required	Contact your Service Provider.
Calls not available	Dialling error New SIM card inserted Charge limit reached	New network not authorised. Check for new restrictions. Contact Service Provider or reset limit with PIN 2.
Phone cannot be switched on	On/Off key not pressed long enough Battery empty Battery contacts dirty	Press the On/Off key down for at least two seconds. Keep charger attached for a longer time. Clean the contacts.

Message	Possible causes	Possible Solutions
Charging error	Battery totally empty	Charge battery.
	Temperature out of range	Make sure the ambient temperature is right, wait for a while, and then charge again.
	Contact problem	Check the power supply and connection to the phone. Check the battery contacts and clean them if necessary.
	No mains voltage	Plug in to a different socket or check the voltage.
	Charger defective	If the charger does not warm up, replace it.
	Wrong charger	Only use original LG accessories.
	Battery defective	Replace battery.
Phone loses network	Signal too weak	Reconnection to another service provider is automatic.
Number not permitted	The Fixed dial number function is on.	Check settings.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS :

LG offers you a limited warranty that the enclosed phone and its enclosed accessories will be free from defects in material and workmanship according to the following terms and conditions:

- (1) The limited warranty for the product extends the warranty period beginning on the date of purchase of the product.
- (2) The limited warranty applies for 1 year from the original date of purchase and extends only to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user. It shall neither exclude nor limit any mandatory statutory rights of the customer or any of the customer rights against the seller/dealer of the product.
- (3) This warranty is good only to the original purchaser during the warranty period, but limited to certain country if specified.
- (4) The external housing and cosmetics parts shall be free of defects at the time of shipment and, therefore, shall not be covered under these limited warranty terms.
- (5) Upon request from LG. or their designated service agent the consumer must provide information to reasonably prove the date of purchase.
- (6) Unless other service arrangements have been specified the customer shall bear the cost of shipping a defective product back to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.
- (7) During the warranty period LG or its authorised service agent will repair or replace at LG's sole discretion a defective product. A repaired or replaced product will not be given a prolonged or renewed warranty period.

2. WHAT THIS WARRANTY DOES NOT COVER :

- (1) Defects OR Damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage. exposure to moisture or dampness, unauthorised modifications, unauthorised connections, unauthorised repair, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping, blown fuses, spills of food or liquid.

- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) A warranty repair if the Customer Service Department at LG or other agreed service agent was not notified by the consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number or IMEI number removed or made illegible.
- (6) This limited warranty is in lieu of all other warranties, express or implied either in fact or by operations of law, statutory or otherwise, including, but not limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).
- (12) Suspected defects caused by a failure of the cellular network.

3. CONDITIONS :

No other express warranty is applicable to this product.

THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG ELECTRONICS INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED MARKETABILITY APPLICABLE TO THIS PRODUCT.

Some do not allow the exclusive limitation of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from country to country.
