

Voice recorder You can record a voice memo in the Voice recorder menu.

Messaging
Menu 5

This menu includes functions related to SMS (Short Message Services) and MMS (Multimedia Message Service).

New message	Create and send a text or multimedia message to one or more recipients.
Inbox	You will be alerted when you have received a message.
Drafts	This menu shows the preset message list.
Outbox	This menu allows to view the message which is about to be sent or has failed to be sent.
Sent	This menu allows you to view the messages which have already been sent, including time and content.
Listen voicemail	This menu provides you with a quick way of accessing your voice mailbox (if provided by your network).
Info messages	Info service messages are text messages delivered by the network to your handset.
Templates	There are pre-defined messages in the list. You can view and edit the template messages or create new messages.
Settings	This menu allows you to set features of your network service provider.

Settings
Menu 9 (Continued)

	› Change codes: PIN is an abbreviation of Personal Identification Number to prevent use by unathorised persons. You can change the access codes: Security code, PIN code, PIN2 code.
Flight mode	If set to On, the connection between the phone and network service will be cut off.
Power save	This function saves battery power by keeping the backlight brightness to max 40%.
Reset	You can initialise all factory defaults. You will need the Security code to activate this function.
Memory status	You can check the capacity of free memory.

Guidelines for safe and efficient use (Continued)

In aircraft	
Wireless devices can cause interference in aircraft.	
› Turn off your mobile phone before boarding any aircraft.	

Children	
Keep the phone in a safe place out of children's reach. It includes small parts which if detached may cause a choking hazard.	

Emergency calls	
Emergency calls may not be available under all mobile networks. Therefore, you should never depend solely on the phone for emergency calls. Check with your local service provider.	

My files
Menu 6

You can set the following menus for your convenience and preferences.	
Images	Shows the list of image files.
Sounds	Shows the list of sound files.
Others	Any type of file can be stored here. This folder is mainly used for transporting files from one PC to another.
Games	In this menu, you can manage the Java applications installed in your phone.

Profiles
Menu 7

In Profiles, you can adjust and customise the phone tones for different events, environments, or caller groups.

Guidelines for safe and efficient use

Please read these simple guidelines. Ignoring them may be dangerous or illegal. Further detailed information is given in this manual.	
Warning	
› For your safety, use ONLY specified ORIGINAL batteries and chargers.	
› Switch off the phone in any area where required by special regulations, e.g. in a hospital where it may affect medical equipment.	
› Batteries should be disposed of in accordance with relevant legislation.	
› Not to charge a handset near flammable material as the handset can get hot and smoulder the Material, hence possible house fire.	
Product care and maintenance	
WARNING! Only use batteries, chargers and accessories approved for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone, and may be dangerous.	
› Do not disassemble this unit. Take it to a qualified service technician when repair work is required.	
› The unit should be kept away from heat sources such as radiators or cookers.	
› Use a dry cloth to clean the exterior of the unit. (Do not use any solvents.)	
› Do not keep the phone next to credit cards or transport tickets; it can affect the information on the magnetic strips.	

Guidelines for safe and efficient use (Continued)

Battery information and care	
› You do not need to completely discharge the battery before recharging. Unlike other battery systems, there is no memory effect that could compromise the battery's performance.	
› Use only LG batteries and chargers. LG chargers are designed to maximize the battery life.	
› Do not disassemble or short-circuit the battery pack.	
› Replace the battery when it no longer provides acceptable performance. The battery pack may be recharged hundreds of times before it needs to be replaced.	
› Do not expose the battery charger to direct sunlight or use it in high humidity, such as the bathroom.	
› Risk of explosion if battery is replaced by an incorrect type.	
› Dispose of used batteries according to the manufacturer's instructions.	

Contacts
Menu 8

Search	You can Search for contacts in Phonebook. Note: <i>Instant searching is available by inputting the initial letter of the name you want to search.</i>
New contact	You can add phonebook entries by using this menu.
Speed dials	Assign contacts to any of the keys between  and  .
Groups	You can add members to each group, with up to a maximum of 7 groups in total.
Copy all	You can copy all entries from the SIM card memory to Phone memory.
Delete all	You can delete all entries from the SIM card memory or Phone memory.
Settings	You can set the Contact display option.
Information	› Service dial numbers: Access the list of service numbers assigned by your service provider. › Own numbers: You can save and check your own numbers in the SIM card. › Business card: This option allows you to create your own business card featuring your name, mobile phone number and so on.

Guidelines for safe and efficient use (Continued)

Fuse replacement	
Always replace a blown fuse with a fuse of the same type and size. Never use a fuse of a higher rating.	
Efficient phone operation	
To enjoy optimum performance with minimum power consumption please:	
› Hold the phone as you would any other telephone.	
Electronic devices	
All mobile phones may get interference, which could affect performance.	
› Do not use your mobile phone near medical equipment without requesting permission. Avoid placing the phone over a pacemaker, i.e. in your breast pocket.	

Guidelines for safe and efficient use (Continued)

Exposure to radio frequency energy	
Radio wave exposure and Specific Absorption Rate (SAR) information	
This mobile phone model KG130 has been designed to comply with applicable safety requirement for exposure to radio waves. This requirement is based on scientific guidelines that include safety margins designed to ensure safety of all persons, regardless of age and health.	
› The radio wave exposure guidelines employ a unit of measurement known as the Specific Absorption Rate, or SAR. Tests for SAR are conducted using standardised methods with the phone transmitting at its highest certified power level in all used frequency bands.	
› While there may be differences between the SAR levels of various LG phone models, they are all designed to meet the relevant guidelines for exposure to radio waves.	
› The SAR limit recommended by the International Commission on Non-Ionizing Radiation Protection (ICNIRP) is 2W/kg averaged over ten (10) gram of tissue.	
› The highest SAR value for this model phone tested by DASV4 for use at the ear is 0.514 W/kg (10g) and when worn on the body is 0.426 W/kg (10g).	
› SAR data information for residents in countries/regions that have adopted the SAR limit recommended by the Institute of Electrical and Electronics Engineers (IEEE) is 1.6 W/kg averaged over one (1) gram of tissue.	

Settings
Menu 9

Date & Time	You can set functions relating to the date and time.
Languages	You can change the language for the display texts in your phone.
Display	You can change the settings for the phone display.
Network	You can select a network which will be registered as Automatic, Manual or Preferred. Usually, the network selection is set to Automatic.
Call	You can set the menu relevant to a call by pressing  [OK] in the Settings menu.
Security	This menu allows you to protect your phone from unauthorised use. › PIN code request: You can set the phone to ask for the PIN code of your SIM card when the phone is switched on. › Auto key lock: This menu allows to set the time of Auto key lock. › Phone lock: You can use a security code to avoid unauthorised use of the phone. › Call barring: The Call barring service prevents your phone from making or receiving a certain category of calls. This function requires the call barring password. › Fixed dial number (SIM dependent): You can restrict your outgoing calls to selected phone numbers. The numbers are protected by your PIN2 code. The numbers you wish to allow access to once this service has been enabled, must be added to the contacts after enabling Fixed dial number.

Guidelines for safe and efficient use (Continued)

Road safety	
Check the laws and regulations on the use of mobile phones in the areas when you drive.	
› Do not use a hand-held phone while driving.	
› Use a hands-free kit, if available.	
› Pull off the road and park before making or answering a call if driving conditions so require.	

Blasting area	
Do not use the phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.	
Potentially explosive atmospheres	
Do not use the phone at a refueling point. Do not use near fuel or chemicals.
