Acer Liquid X1 User's Manual

Model: X1

This revision: August 2014

Sign up for an Acer ID and enjoy great benefits

Open the *Acer Portal* app from the *Start* screen to sign up for an Acer ID or sign in if you already have an Acer ID.

There are three great reasons for you to get an Acer ID:

- Build Your Own Cloud with Acer BYOC.
- Get the latest offers and product information.
- Register your device for warranty service.

For more information, please visit the AcerCloud website:

www.acer.com/byoc-start

SETTING UP

Unpacking your smartphone

Your new smartphone comes packed in a protective box. Carefully unpack the box and remove the contents. If any of the following items is missing or damaged, contact your dealer immediately:

- Your new Acer smartphone
- Quick Guide
- USB cable
- AC adapter
- Headset

Note

In-box content varies depending on country and region.

Getting to know your smartphone

Views

No.	Item	Description
1	Microphone	Second microphone for noise-cancellation.
2	3.5 mm headphone jack	Connects to stereo headphones.
3	Phone speaker	Emits audio from your smartphone; suitable for holding to your ear.
4	Indicator LED	Indicates the phone status and/or unread messages.
5	Proximity/light sensor	Detects ambient light and proximity to control screen brightness.
6	Touchscreen	Touchscreen to display data, phone content and enter information.
7	Speaker	Built-in speaker for handsfree use or media playback.
8	Front camera	A front-facing camera suitable for taking portraits.
9	Rear camera	A camera for taking high-resolution images.
10	Flash	An LED flash for use when taking photos with the rear camera.
11	AcerRAPID button	Shortcut button to answer incoming calls. Long press to launch the camera app; short press to launch a designated app (default app is Google Play Music).
12	Micro USB connector	Connects to a USB cable/charger.
13	Volume up/down button	Increases or decreases the phone volume.
14	Power button	Press to turn the screen on/off or enter sleep mode; press and hold to turn the smartphone on or off.
15	Microphone	Internal microphone.

Charging the battery

For initial use, you need to charge your smartphone for eight hours. After that you can recharge the battery as needed.

Connect the AC adapter cord to the micro USB connector on your smartphone.

Installing a SIM or microSD card

To take full advantage of your smartphone's telephony capabilities, you must install a SIM card.

Additionally, you may wish to increase your smartphone's storage by inserting a microSD card into the labeled slot.

1. Turn off the phone by pressing and holding the power button.
2. Insert your fingernail into the cutout between the cover and the phone. Unclip the cover and lift off the cover.

3. If necessary, remove the battery by lifting it out from the bottom of the battery.
4. Insert the SIM or microSD card as shown.

Note

Ensure that the microSD and SIM cards are inserted all the way into the card slots. The microSD card slot is above the SIM card slot.

5. Replace the battery and cover by aligning the tabs on the cover into the slots on the phone. Gently press the cover until it snaps in place.

SIM card lock

Your smartphone may come with a SIM card lock, i.e., you will only be able to use the SIM card provided by your network operator.

To cancel the SIM lock, contact your network provider.

USING YOUR SMARTPHONE

Turning on for the first time

To turn on your smartphone for the first time, press and hold the power button until the screen turns on. You will then be asked to configure some settings before you can use your smartphone.

Follow the onscreen instructions to complete setup.

Sign in to or create a Google account

If you have Internet access, your smartphone allows you to synchronize information with a Google account.

You may create or sign in to an existing Google account, which will be used to synchronize your contact list, email, calendar and other information. Open the *App menu* and then tap **Settings** > **Add account**. Tap the type of account you want to add (e.g. Google). You will need internet access to complete the synchronization process. You can create and easily access multiple Google accounts.

Entering your PIN

When you install a SIM card for the first time, you may need to enter a PIN using the onscreen number pad.

Important

Depending on your settings, you may be required to enter your PIN each time you switch on the phone function.

Activating a new SIM card

If you are using your SIM card for the first time, it may require activation. Contact your network operator for details on how to do this.

Locking your smartphone

If you will not use your smartphone for a while, briefly press the power button to lock access. This saves power and ensures your

smartphone does not unintentionally use any services. Your smartphone will lock automatically if it is not used for one minute (depending on your settings).

Waking your smartphone

If the screen is off and the smartphone does not react to any taps on the screen or front panel button, then it has been locked and is in sleep mode.

Press the power button to wake your smartphone. Unlock your smartphone by sliding your finger from one side of the screen to the other (it works both ways).

For additional security, you may set an unlock pattern, a set of dots that must be touched in the correct order to access the phone. Open the *App menu* and then tap **Settings** > **Security** > **Screen lock**. If you forget your unlock pattern, please refer to [Unlock pattern on page 59](#).

You may also directly enter the lock screen apps. Tap and hold the lock screen icon, move your finger slightly in any direction, and release. The phone unlocks and opens that app.

Navigating through menus and options

To navigate through menus and options, there are three buttons beneath the screen.

Back

Tap this button to go to the previous page, or to go up one level in a menu.

Home

Tap this button to go directly to the *Home* screen. Tap and hold this button to open *Search*.

Menu

Tap this button to see recently opened apps. Tap an app to open it. At the bottom of the *Menu* screen are Acer Float apps. Tap a Float app to open the app in its own window while keeping what you were doing visible. You can customize which apps appear. Swipe to the right in the Acer Float apps bar and tap the gear icon. Choose from float *Browser*, *Buttons*, *Calculator*, *Camera*, *Maps*, *Notes*, *Stopwatch*, and *Text*.

Tap and hold the *Menu* button to open a menu of actions that are valid for the current app or screen. Tap anywhere on the screen to return to the *Home* screen. **See Multitasking on page 18.**

Using the touchscreen

Your smartphone uses a touchscreen for selecting items and entering information. Use your finger to tap the screen.

Tap: Touch the screen once to open items and select options.

Drag: Hold your finger on the screen and drag across the screen to select text and images.

Tap and hold: Tap and hold an item to see a list of actions available for that item. On the pop-up menu that appears, tap the action you want to perform.

Scroll: To scroll up or down the screen, simply drag your finger up or down the screen in the direction that you want to scroll.

Onscreen keyboards

Note

The keyboard layout varies slightly, depending on the application and information that is required.

Google keyboard

This is a standard onscreen QWERTY keyboard that allows you to enter text. Tap and hold a key with numbers at the top to select alternative characters, such as letters with accents.

Tap the **?123** button to see numbers and special characters, and then tap the **=\<** key to see even more.

You can choose another input language by tapping and holding the forward slash key. Alternatively, you can open the *App menu* and then tap **Settings > Language & input**. Then tap the **Settings** button next to *Google keyboard > Input languages*. The keyboard layout changes according to the selected language.

After setting up more than one language, the world button appears next to the space bar. Tap this button to quickly toggle between multiple input languages.

Text assistance

The Google keyboard has various features that assist you to enter correct text. In the *App menu*, tap **Settings > Language & input**. Then tap the **Settings** button next to *Google keyboard*. From here you can enable or disable several keyboard-related settings.

Changing the text input method

To change the input method, in the *App menu* tap **Settings > Language & input > Default** and then select your preferred input method.

Predictive text

Google keyboard provides predictive text input for the browser. As you tap the letters of a word, a selection of words are displayed above the keyboard that continue the sequence of letters tapped, or are a close match allowing for errors. The word list changes after every key press. If the word you need is displayed, you can tap on it to insert it into your text.

The *Home* screen

The *Home* screen gives you quick access to information and simple controls with widgets or shortcuts. These display information such as the time and weather, or provide additional controls and direct access to apps and other frequently used features of your smartphone.

At the bottom of the screen is the *application dock* which displays default apps. Tap an icon to open the app. Tap the *App menu* icon in the middle of the *application dock* to view your apps. To change apps, **see [Changing application dock icons on page 16](#)**.

Search

To search for apps, files or for information on the Internet, tap the **Google** icon.

Simply enter the text you want to find and tap  or tap one of the suggestions, apps or files shown in the list.

In order to search or browse the Internet, you must be connected to a cellular data (if available) or wireless network. **See Going online on page 30.**

Voice search

If voice search is available, tap the microphone and speak your search request. **See Voice search on page 32.**

The extended *Home screen*

The *Home screen* extends to either side of the screen, giving you more room to add icons, widgets or features. To view the extended screen, slide your finger to the left or right.

Personalizing the *Home screen*

You may personalize your *Home screen* by adding or removing app shortcuts or widgets, and by changing the wallpaper.

Adding and removing shortcuts and widgets

To add shortcuts or widgets, tap the *App menu* icon in the bottom-center of the *Home screen*.

Tap **Apps** to see a list of shortcuts to apps you can drag to a *Home screen*.

Tap **Widgets** to see small apps and links (such as custom shortcuts, contacts or bookmarks) that you can add to a *Home screen*. Widgets are small apps that display constantly-updated information or quick shortcuts to apps or special functions.

To move an app or widget to the *Home screen*, tap and hold an item until it is selected. The *Home screen* will open. Drag the item to any free area on the screen. To view information about the app or widget, drag it to the icon at the top of the screen.

To move the item to a different *Home screen*, drag it to the side of the screen, the *Home screen* will switch to the screen in that direction. Release the item when it is positioned correctly.

To remove a shortcut or widget from the *Home screen*, tap and drag it to **Remove** at the top of the screen.

Resizing widgets

Some widgets can be resized. To resize a widget that is already on the *Home screen*, tap and hold the widget. Once the **Remove** icon appears, release the widget. If the widget is resizable, you will be able to drag the sides of the widget to resize it.

Adding or removing folders

You can also add folders to your *Home screen*. To create a new folder drag and drop an app icon onto another app icon in the *Home screen*.

This will create an Unnamed Folder. Tap the folder icon and then tap the name of the folder to rename it.

To delete an app shortcut from a folder, tap on the folder icon to display the apps inside and then tap and hold the app icon that you want to remove. Drag and drop the icon on **Remove** that will appear at the top of the screen.

To delete a folder, tap and hold on the folder and then drag and drop the folder on **Remove** that will appear at the top of the screen.

Changing application dock icons

You can set icons for installed apps in the *application dock*. Open the *App menu* and find the app you want to add. Tap and hold the icon, then drag it to any open position in the dock. Dragging the new app to an existing dock icon will create a folder for both icons.

To remove an icon from the dock, tap and hold the icon to select it. Either drag the icon to a different location outside the dock or to **Remove** at the top of the screen.

Changing the wallpaper

In the *App menu*, tap **Settings** > **Display** > **Wallpaper**. Choose from images stored in the *Gallery*, *Live Wallpapers* (featuring animated or interactive backgrounds), *Photos*, *Video Wallpaper* (enabling you to use videos as your background), or *Wallpapers*.

The *Application (App) menu*

To access the *App menu*, on the *Home* screen tap  in the center of the dock.

Apps are displayed in alphabetical order. Swipe the page to the left or right to see more apps. When you are on the last page of apps, swipe to the left to see widgets available on your tablet, or tap **Widgets** at the top of the page.

To quickly jump to apps or widgets, tap **Apps** or **Widgets** at the top of the *App menu*.

Notification and status area

Notification and status icons are shown at the top of the screen. The top-right area displays a variety of status information, such as Wi-Fi connectivity, signal strength, battery status, and time. The top-left area displays event icons, such as a new message.

Drag the **Notification** area down the screen to view more information about new events and access *Quick Settings*.

Multitasking

You can have multiple apps open at the same time. To open a new app, tap the home button to return to the *Home screen*, then start the new app. Tap the **Menu** button to quickly navigate back and forth between previously-opened apps.

Note

*To prolong battery life, it is better to close an app when you've finished using it. Do this by either pressing the **Back** key or the **Menu** button and selecting **Exit** (if available).*

MANAGING CONTACTS

Managing your contacts

Your smartphone features an address book that allows you to save contacts to either the internal memory or onto your SIM card.

Tap the **People** app from the *App menu* or tap **All contacts** from the *Dialer* to view your contacts.

If you don't have any contacts stored on your phone, you can import your Google account contacts, add a new contact or import contacts from your SIM or SD card. Open the **People** app from the *App menu* and then tap  to add a contact,  to search for a contact, or tap the **Menu** button to open the menu.

Adding a contact

Tap  to add a new contact. You may also scan a person's profile barcode to add the person to your contact list or group.

To create a contact, first choose where you want to store the contact's information. You will then be asked to enter the contact's information, such as name, address, and phone number.

You may scroll down the page and tap **Add another field** to add things such as:

- IM addresses.
- Add any personal notes about the contact.
- Phonetic name
- Link a website

To assign an image to your contact, tap the silhouette and select whether to take a photo or select an image from your smartphone's picture gallery.

When done, click **Done** at the top of the screen.

Tapping on the contacts name will bring up their profile. Tap  while viewing a contact's profile to edit, share, delete, or print the contact. You may also set a ringtone for the contact, block incoming calls from this contact, or place the contact on your *Home* screen.

You may also create a contact from an already dialed or received number, **see Saving a dialed number to contacts on page 25.**

MAKING CALLS

This chapter shows you how to make phone calls, and the various options available to you during your call.

Before making a call

Check that the phone function is on before you make a call. You can confirm the phone status from the Notification area.

Note

Status and notification icon colors may vary.

Icon	Description
	Not connected to the network: You are unable to make a call.
	Connected to the network: You may make a call.
	Airplane mode: Wireless connectivity disconnected (Wi-Fi, Bluetooth, 2G and 3G). Please disable airplane mode before trying to make a call.

Making a call

1. From the *Home screen* tap **Phone** to open the onscreen number pad.
2. Enter the number you wish to dial.
3. Tap to make the call.
4. To end the call, tap .

If the contact you need is displayed, simply tap the contact name to make a call.

Dialing a number from Call History

Your call history can be viewed by tapping the *Call History*  button. It displays recent received, dialed, and missed calls.

Tap the phone icon to redial. To view call details and other options, tap the number or contact's name.

Viewing missed calls

Missed call notifications are displayed in the following three areas:

1. The Notification area with the missed call  icon. Open the **Notification** area and tap the missed call notification to display the missed call details.
2. By the Phone icon  (the number in the box is the number of missed calls). Tap **Phone** from either the *Home screen* or the *App menu* to directly display the missed call details.
3. On your phone's lock screen. Tap the notification and slide to the left or right to display the missed call details.

Making a call to one of your contacts

Calling a contact from the Contacts tab

1. Tap the **All contacts** to view your contacts.
2. Tap on a contact to call them.

Calling a contact from the Contacts app

1. Tap the **People** icon the *App menu* to view your contacts.
2. Tap on a contact to open their profile.
3. Tap on the contact's phone number to call them.

Dialing an international number

When dialing international numbers, there is no need to enter the international direct dialing prefix ('00' etc.) before the country code.

Simply tap and hold 0+ on the onscreen number pad until + appears onscreen.

Important

International call rates can vary greatly depending on the country you are calling and your network provider. We suggest you check all call rates with your network provider, to avoid excessive phone bills. If you are using your smartphone abroad, roaming charges will apply. Consult your network provider for roaming rates specific to the country you are visiting before you leave.

Direct dial widget

You may add a direct dial widget for a contact on your *Home screen*. Open the *App menu*, then tap the **Widgets** tab. Tap and hold **Direct dial** and you will be able to place the widget on your *Home screen*. Once placed, you will be able to select a contact to associate with that particular widget on your *Home screen*.

The voice call screen

You can minimize the call window to appear as a movable dialog instead of a whole screen by tapping the  icon. You can even set this "floating" dialog box as the default voice call screen. To do so, open the **Notification** area and tap the down arrow to display more *Quick Settings* options (see **Notification and status area on**

page 17). Tap the **Float caller** button to activate (green means *Float caller* is "ON").

Answering or declining a call

When you have an incoming call, the number will be shown on the screen. To accept or decline the call, tap the appropriate icon and slide your finger across the screen. To decline the call with a text message, tap the  icon and select a message.

Ending a call

To end a call, tap  from the voice call screen.

Voice call options (call screen maximized)

Icon	Description
	Place the call on hold.
	Mute a call.
	Speakerphone.
	Access the keypad while a call is in progress.
	Add a second call

Saving a dialed number to contacts

You can save a number you have dialed to your contacts for future use.

1. From the *Call History* , tap the number and then tap **Add to contacts** .
2. Tap **Create new contact** and enter the information. **See Adding a contact on page 19.**

Conference calls

If you have one call on hold and another on line, you can combine both calls to create a conference call.

After the first call is established, tap  to add a second call. Tap  to start the conference call.

MESSAGING

This chapter shows you how to set up and use the **Phone messages**, **Social messages** and **Social events** functions of your smartphone.

All SMS and MMS messages are accessed via **Messaging**. Messaging automatically arranges received and sent messages into threads.

To access Messaging, open the *App menu* and tap **Messaging** on the *Home screen*.

Note

If you have multiple SIMs inserted in the phone, you will be asked which SIM to use before the message is sent. To select a SIM, just tap the name of the carrier.

Creating a new message

You can use your phone to compose text (SMS) and multimedia (MMS) messages.

Tap  to compose a new message.

Tap  to add contacts from your contacts list (*People*), or tap the **Type name or number** field to enter the recipient's phone number or name directly. Suggested contacts will be displayed in a drop-down list below the text field. To select a suggested contact, tap the contact's name.

Enter your message in the text box labeled **Type text message**.

Note

Text messages may be up to 160 characters long. If your message is longer than 160 characters, it will be sent as multiple linked messages. Most phones will automatically join the linked messages to present the recipient with a single long message, however, some older phones do not have this ability.

Tap the Menu button to see what options are available when creating a new message. The options change depending on the status of the message.

Option	Description
Insert quick text	Insert pre-defined text content.
Insert contact	Add a contact to the recipients list.
Add subject	Add a subject to the message.
Discard	Discard the message.

Replying to a message

When a new text message arrives a message icon appears in the Notification area and the message icon at the bottom of the phone displays the number of unread text messages.

Tap **Messaging** from the *App menu* to view the message list or open the **Notification** area to see a summary of the message. Tap the summary to open the message list.

To reply to an SMS or MMS message, open the message from the message list. Enter your text in the text box labeled **Type text message**. Tap the Menu button to see available options.

Option	Description
Select message	Select multiple messages.
Insert quick text	Insert pre-defined text content.
Insert contact	Add a contact to the recipients list.
Add subject	Add a subject to the message.

Option	Description
Add to contacts	Add the other contact to your contacts list.
Chat settings	Modify various messaging settings.

Multimedia messages

Multimedia messages are similar to text messages but also allow you to attach files such as pictures, audio or video clips. Each message can be up to 300 kB in size.

Note

You need to set up an MMS profile before you can send MMS messages. Normally, your smartphone will set up the profile for you based on information retrieved from your provider.

Ask your network provider for the necessary information if you need to manually set up the MMS profile.

Receiving multimedia messages

When a new multimedia message arrives, a message icon appears at the top of the screen and a notification message is displayed.

1. The notification message displays a summary of the message. Tap **View** to view a summary of the message.
2. Tap **Download** to download the message content. Downloads can take a long time, depending on your connection quality. If you reply or open another app, the download will be stopped.

Important

You may be charged to download message content, especially if you are roaming. Please contact your provider if you have any questions.

3. Tap the message to view the content.
4. To reply to the message, enter **your text in the text box labeled Type message and tap the Send icon**. Simple text replies will be sent as SMS messages. If you wish to attach a file, tap . You will be presented with a menu of options.
5. When you have finished composing the message, tap the **Menu** button and tap **Send**.

GOING ONLINE

Browsing the internet

In order to browse the internet with your smartphone, you must be connected to a data or wireless network.

Using the browser

To start browsing, open the *App menu* and tap the **Chrome** or **Browser** icon.

Note

Reference images made using Browser.

To open a new website, tap the address box at the top of the page. Enter the address using the keyboard and tap **Go**. You can zoom in or out of pages by pinching or reverse pinching.

To navigate forward and backward in your browser's history, view your bookmarks, and open multiple pages, tap or slide the screen to display the navigation options at the bottom of the screen.

To open multiple pages Tap  to display all of your open tabs (tap again to close). Tap a tab from the list to open it. To open a new tab, tap the plus sign. The number in the icon represents the number of open tabs.

Setting up Email

Your smartphone enables you to access your email. Most popular ISPs can be set up in two steps. In the *App menu* tap **Email** to start setting up your email account.

If necessary, enter your email address and tap **Manual setup** to enter the parameters manually. Tap **Next** to finish the setup process.

Google services

Note

Apps may not be available in all countries and regions.

You must activate a Google account before using Google services. The first time you access Google services, you must read and accept the Terms of Service.

Setting up your Google email

1. Make sure your smartphone is connected to a data or Wi-Fi connection.
2. From the *App menu* tap **Gmail**.

If you did not enter your Gmail account address and password when you first started your phone, follow the onscreen instructions.

Composing an email

1. Make sure your smartphone is connected to a data or Wi-Fi connection.
2. From the *App menu* tap **Gmail**.
3. Tap .
4. Enter the recipient's email address, the subject and message.
5. When you are finished composing your message, tap .

Voice search

With voice actions, you can send text messages, place calls, send emails, find directions of establishments, automatically call establishments, search the internet and even send a note to yourself using your voice. Tap **Voice Search** from the *App menu*, or tap the *microphone* icon on the *Home screen*.

Play Store

Important

For connection issues with Play Store, see [FAQ](#) and [troubleshooting](#) on page 57.

Tap **Play Store** from the *App menu* to open Google Play. Here you can obtain a variety of add-on programs and apps to enhance the functionality of your smartphone.

The contents and design of Google Play varies by region. For example, in some regions, you can also browse for and purchase movies, books, magazines, or music. Updates may add new categories or change how to navigate Google Play at any time.

You can browse the store by category or tap the search icon to search for a specific app.

Once you have selected an app, tap the **Install** button to download and install the app. You will be told which services the app requires access in order to function correctly (e.g. contact information, wireless access, GPS). If none of these services seem unusual, tap **Accept & download** to proceed with the installation.

You may keep track of the download progress from both the app's page and the notification area.

Important

Some apps may require payment before you can download them. You will need to have a **Google Wallet** account in order to pay for these apps, or a credit card number associated with your Google account.

Using downloaded apps

Once you've downloaded and installed an app, you may find it in the Apps or Widgets sections of the *App menu*.

Certain apps provide both an App and widget, or only provide a widget (with no app icon). **See Personalizing the Home screen on page 14.**

Uninstalling downloaded apps

Once you've downloaded and installed an app, you may uninstall the app by opening the *App menu* and tapping **Settings** > **Apps**. In the downloaded tab, select the app you wish to uninstall and tap **Uninstall**. Deleting an app icon from the *Home screen* only deletes the shortcut.

Google Hangouts

Tap **Hangouts** from the *App menu* to open Google Hangouts. Here you can see a list of your contacts connected to Google Hangouts

services. Tap on a contact to open a chat session. After you have connected, you can open a video chat session.

Maps, Navigation, Places and Latitude

Get easy-to-follow directions using Google Maps, view real-time traffic condition and navigate by using spoken, turn-by-turn driving instructions. Also, view where your friends are, places of interest, and local businesses.

Note

*Maps does not have information about every location.
Some locations may not have all zoom levels.*

Using the map

Tap the **Maps** icon in the *App menu*. Drag the map with your finger to move the map around.

To zoom in or out:

1. Double tap a location on the map to zoom in on the location, and tap once to zoom out, or
2. Touch an area with two fingers at once and spread them apart to zoom in, and pinch them together to zoom out.

USING THE CAMERA

Your smartphone features two digital cameras mounted on the front and on the rear. This section will take you through all the steps in taking photos and videos with your smartphone.

To activate the camera, open the *Apps menu* and tap **Camera**.

Camera/camcorder icons and indicators

The camera window provides multiple controls on the image screen. Tap the area of the image you want to be the point of focus for the auto-focus lens (only available on the rear camera). Zoom in or zoom out using the zoom slider.

Tap the **Shutter** button or press the **volume** key to take a picture. Tap the thumbnail in the bottom-right corner to open the gallery. Tap the flash button to cycle the settings between *off*, *automatic*, and *on*.

Tap the **Camcorder** button and the camcorder immediately begins filming. While filming, you are unable to access camera/camcorder settings; however, you can still take pictures.

Tap the **Pause** button to temporarily stop recording and tap it again to restart recording. Tap the red **Stop recording** button to stop filming.

Mode selector

Tap the *Mode selector* icon to open the list of modes you can choose from. Tap the icons along the top to select different items.

Camera

Capture mode: Select a capture mode.

Normal	Multi-angle view
Face beauty	Auto scene detection
Bright magic	Smile shot
Presentation	EV bracket shot
HDR	Live Photo
Panorama	

Color effect: Applies a color effect to the image.

None	Aqua
Mono	Blackboard
Sepia	Whiteboard
Negative	

Scene mode: Adjust photo parameters for a particular environment.

Auto	Theatre
------	---------

Night	Beach
Sunset	Snow
Party	Steady photo
Portrait	Fireworks
Landscape	Sports
Night portrait	Candle light

Camcorder

Record mode: Select from *Normal* or *Time lapse*.

White balance

Compensate for different lighting environments.

Auto	Cloudy
Incandescent	Twilight
Daylight	Shade
Fluorescent	Warm fluourescent

Image properties

Adjust the Sharpness, Hue, Saturation, Brightness, and Contrast.

Self-time

Set the delay before the shutter is activated.

Settings

Tap the *Settings* icon to open the settings menu; scroll up or down the list to view more settings

Camera

You may adjust the following:

- Turn **Zero shutter delay** on or off: Takes the photo immediately when you tap the shutter button.
- **Smart Noise Reduction** on or off: Attempts to removes digital "noise" which may affect image quality.
- Turn **Voice capture** on or off: Turns the shutter on or off when you take a picture.
- Turn **Face Detection** on or off: The camera automatically detects faces and focuses on them.
- Set the **Self timer**: Options are Off, 5 seconds, 10 seconds, or 15 seconds.
- **Continuous shot**: Set the maximum number of photos taken in a single burst.
- Turn **Smile shot** on or off: The camera detects when the person smiles and automatically takes a picture.
- **Picture size**: Set the picture resolution.

- **Shutter**
- Set the **Auto Focus mode**. You can select *Exposure control* or *Quick Touch shot*.
- Set a mode as your **Favorite Shot**.
- Turn the **Time stamp** on or off.

Video

You may adjust the following:

- Turn **EIS** (Electronic Image Stabilization) on or off.
- Turn the **Microphone** on or off.
- Set the **Audio mode**.
- Set the **Video quality**.

Other

Note

Some of the following settings are not available for the front camera.

You may adjust the following:

- Turn **GPS location info** on or off: Stores GPS information in the image information.
- **Anti-flicker**: Choose from *Auto*, *50 Hz*, *60 Hz*, or *Off*.
- **Grid**: Turn the composition grid on or off.
- **Storage**: Choose between *Internal storage* and *SD card*.

Taking a photo

1. Ensure you have adjusted the settings described above.
2. Frame your subject and steady your smartphone.
3. Zoom in or out as needed.
4. Tap the **Shutter** button to take a picture.

Taking a panoramic photo

Panoramic mode allows you to take a series of up to nine photos that the camera app will 'stitch' together to make a single extended image.

1. To take a panoramic photo, select Panorama mode.
2. Align the camera to take a photo of one end of the panoramic scene (the furthest left, right, top or bottom).
3. Press the camera button to take the first image; then slowly and smoothly turn the camera to the other end of the image.
 - Two lines display on the screen: a flashing white line and a solid blue line. As you move the camera, align the blue line to the unmoving white line.

Note

If your photo needs fewer than nine images, tap the tick icon to stop the selection process and process the captured images.

Panoramic images work best with static outdoor scenes. Objects too close to the camera or large straight edges may confuse the detection process.

The camera app will process the images and save a single extended image to your smartphone's gallery.

Shooting a video

1. Frame your subject and steady your smartphone and zoom in or out as needed.
2. Tap the **Camcorder** button to start taking a video. The icon will turn red to indicate that recording is in progress. Tap the icon again to stop recording.

Supported formats

Note

To see supported image, video, and audio formats, see **Multimedia** on page 65.

Viewing photos and videos

After you have taken your photo or video, it is automatically saved. Once you have taken a photo or video, you can view it in Gallery by tapping the thumbnail in the corner of the image screen. Alternatively, open the *Apps menu* and tap **Gallery**. From Gallery you can share the file directly using various services. Services vary depending on the file type.

You may also edit individual photos you have taken by tapping the pencil icon in the lower left-hand corner of the screen.

Geotagging

Geotagging allows you to store the location where a photo or video was taken right in the photo or video itself.

For the geotag to display, pictures must be taken with **GPS location info** turned on.

ADVANCED SETTINGS

Putting your smartphone in Airplane mode

You can enter Airplane mode (also known as flight mode) to turn off telephone and Bluetooth functions and use your smartphone as a handheld device during a flight. Check with your airline to make sure this is permitted onboard.

Switch your smartphone off during takeoff and landing as it may interfere with aircraft electronic systems.

Turning Airplane mode on or off

1. Open the **Notification** area.
2. Tap .

-OR-

1. Press and hold the power button until you get the phone options menu.
2. Tap **Airplane mode** to switch it *ON* or *OFF*.

Note

When Airplane mode is active, the ✈ icon will be displayed in the Notification area.

Restarting your phone

You can restart (reboot) your phone if you find apps are not responding.

1. Press and hold the power button until you get the phone options menu.
2. Tap **Restart**.

Adjusting settings

Activating or deactivating connections

Open the *App menu* and tap **Settings** to manage your connection settings.

Item	Description
Wi-Fi	Turn the Wi-Fi function on or off.

Item	Description
Bluetooth	Turn the Bluetooth function on or off.
Data usage	View an estimate of the mobile data used for your SIM.
More...	Access additional connection settings: Airplane mode: Disable all wireless connections so you can safely use this device onboard an aircraft. Default SMS app: Choose which app serves as the default SMS app. Tethering & portable hotspot: Share your phone's mobile data connection via USB or as a portable Wi-Fi hotspot. VPN: Set up and manage Virtual Private Networks. Mobile networks: Set your options for connecting to mobile networks. Data Utility: Set how the phone should act if you connect to Wi-Fi while downloading over a mobile connection and set how apps are allowed to access data connections.

If your phone is in Airplane mode, the option to turn Bluetooth on will be disabled. Please refer to **Putting your smartphone in Airplane mode on page 44** for instructions on turning Airplane mode on or off.

Adjusting Bluetooth settings

You can use Bluetooth to exchange information between your smartphone and other mobile devices.

Bluetooth connections

For all Bluetooth settings, open the *App menu* and tap **Settings > Bluetooth**. Here you can switch Bluetooth on or off, set a device name and discoverability. Tap **SEARCH FOR DEVICES** to scan for available devices.

To connect to a device, tap the device in the list of available devices. You may be asked to enter a PIN on both devices to establish the connection.

To simply turn on or off Bluetooth, open the **Notification** area and tap the **Bluetooth** button.

Near Field Communication

Note

To send or receive tags your phone must be powered on and not in sleep mode.

You should not try to send information exceeding 1 MB in size via NFC.

Your device contains a Near Field Communication (NFC) chip that enables it to communicate with other NFC devices to send and receive tags such as contact information, Google maps, and YouTube links.

To enable NFC, open the *App menu* and tap **Settings** > **More...** > **NFC**. The box next to NFC will have a check when turned on. To be able to transmit NFC tags, ensure the Android Beam is turned on by tapping Android Beam (below NFC) and tap **ON** in the top-right corner.

Sending tags

1. With NFC enabled and Android Beam on, open the app you want to transmit information from.
2. Navigate to the specific information you want (a People contact, a YouTube video, a Google map, or others).
3. To transmit the information to another NFC device, place the backside of your phone at least 4 cm from the other device.
4. When "Touch to Beam" appears, tap the screen to transmit.

Receiving tags

1. Ensure NFC is enabled (Android Beam doesn't have to be on to receive tags).
2. To receive the information, place the backside of your phone at least 4 cm from the NFC device that is transmitting the information.

Internet sharing

Wi-Fi hotspot

You can turn your smartphone into a portable Wi-Fi hotspot to share your mobile internet connection with up to 8 clients.

1. Push the **Menu** button and then tap **Settings > More... > Tethering & portable hotspot**. Turn *Wi-Fi hotspot* **ON**. Tap **Wi-Fi hotspot > Set up Wi-Fi hotspot**.
2. Set the Network SSID and adjust security between None and WPA2 PSK. Tap **Save** to finish.

Note

When your smartphone is serving as a Wi-Fi hotspot, you can't use your phone's apps to access the internet via its Wi-Fi connection.

USB tethering

If you wish to share your mobile internet connection with a computer, you can connect your phone to a PC using the supplied USB cable.

1. Plug the USB sync cable into the micro USB connector on your smartphone.
2. Plug the USB client connector into an available USB port on your computer.
3. Push the **Menu** button and then tap **Settings > More.. > USB Internet**.

Phone network settings

In the *App menu* tap **Settings > More... > Mobile networks** to adjust your network settings. You can turn data connection on or off when roaming, choose a preferred network mode, specify a network operator and define access point names.

Selecting a network

Your phone will automatically detect your carrier/network settings when you insert a new SIM card. However, you may prefer to manually select a network. This may be a good idea when roaming.

Note

When you are traveling, manually selecting a network may help to reduce your roaming charges. Check with your home service provider for the network offering the most competitive rates at your destination.

1. Open the *App menu* and tap **Settings** > **More...** > **Mobile networks** > **Network operators** > **Select Manually**.
2. Your phone will search for available networks.
3. Select your preferred network from the list generated. Your phone will attempt to register on the selected network.

-OR-

Tap **Select automatically** to connect to the available network with the strongest signal. This may lead to your phone jumping between networks when you move around.

Note

Contact your service provider should you have any problems obtaining voice mail and the text message service center numbers.

Data usage control settings

Data usage controls let you monitor total usage by network type and app and then set limits if needed.

Ensure Wi-Fi or mobile data is enabled before setting a limit. Access data usage settings from the *App menu* by tapping **Settings** > **Data usage**.

Phone settings

Many phone settings are automatically configured by your smartphone when you insert a SIM card. The device will communicate with your provider and automatically obtain all necessary settings, such as network name, voice mail and text message center numbers.

You can also view and modify these settings manually through the Call settings screen.

From the *Home screen*, tap **Phone**, then tap the **Menu** button > **Settings** > **Voice Call**. Tap which settings you want to modify.

Audio profiles

To adjust your phone's sound settings, in the *App menu* tap **Settings** > **Audio profiles**. Choose from *General*, *Silent*, *Meeting*, or *Outdoor*.

Adjusting the volume

Adjust the volume of your phone using the volume button on the side of the phone.

Display

To adjust your phone's display settings, in the *App menu* tap **Settings** > **Display**.

Item	Description
ClearMotion	Enable or disable the video fluency enhancement feature.
Theme	Choose from <i>Default</i> or <i>Acer</i> .
Wallpaper	Change the <i>Home screen</i> 's wallpaper.
Glove Operation	Turn on to facilitate using the touchscreen while wearing gloves.
Brightness	Adjust screen brightness.
Auto-rotate screen	Enable rotation of the screen when device is tilted.
Sleep	Adjust the delay before the screen automatically turns off.
Daydream	Controls what happens when the phone is docked and/or sleeping.
Font size	Change the default font size for the UI.
Wireless display	Allow sharing your smartphone's display over a wireless connection.
Transition animation	Turn on the transition animation feature.

Setting the date and time

To set the date and time, open the *App menu* and tap **Settings > Date & time**.

If you travel frequently or live in an area that uses daylight saving time, activate **Automatic date & time > Use network-provided time** from this menu. This will enable your smartphone to set the date and time based on information it receives from the network.

Setting alarms

There are two predefined alarms on your phone by default. Tap **Clock** in the *App menu*, and then tap  to edit alarm settings. You may:

- Turn the alarm on or off.
- Set the alarm time.
- Set which days to repeat the alarm.
- Set a ringtone.
- Enable or disable vibrate.
- Give it a label.

Changing language and text options

Set your location and language input preferences by opening the *App menu* and going to **Settings > Language & input**.

Connecting to a PC

If you wish to transfer information between your device and your computer (either the microSD card in your device or the device's internal memory), you can connect your device to a PC using the supplied USB cable.

1. Plug the USB sync cable into the micro USB connector on your phone.
2. Plug the USB client connector into an available USB port on your computer.
3. Open the notification area and ensure your USB connection method says **Connected as a media device**. Your device will now be

available as a drive in your computer's file explorer. Tap **Connected as a media device** to choose other connection methods including *Charge only* and *Built-in CD-ROM*.

Note

After turning on USB storage, you will not be able to access the files in the microSD card or apps such as Gallery or Music.

Synchronization

You can sync your calendar, email and contacts on your phone and never worry about losing them again. Sync in real time or adjust it as you please. In the *App menu*, tap **Settings**. Under ACCOUNTS, tap the appropriate account and again under ACCOUNTS tap that account's email address to access the synchronization settings.

To add a new account, tap **Add account**. Select the type of account and then follow the onscreen instructions.

Google Sync

In Google, you can set synchronization for Google services. In your Google account's synchronization settings menu, tap the checkmark next to the item you would like to have auto-sync. Tap again to uncheck any for manual synchronization.

To manually synchronize an item, make sure the item is checked, tap the **Menu** button and then tap **Sync now**.

Note

You need a Google account to sync your calendar and appointments.

FM radio

The FM radio allows you to listen to your favorite stations while on the move. Headphones must be inserted to the 3.5 mm jack as it functions as an antenna.

You can access the radio by tapping **FM Radio** from the *App menu*.

Tap the back icon to turn the radio off.

Applications (apps)

Closing an app

To close an active app, in the *App menu* tap **Settings** > **Apps**. Swipe over to the **Running** tab, then tap the program you wish to close. Select **Stop** to close the program.

Uninstalling an app

You can remove programs installed on your smartphone to free up extra storage memory.

1. In the *App menu* tap **Settings** > **Apps**.
2. Swipe over to the **Downloaded** tab.
3. Find the app in the list and tap on it.
4. Tap the **Uninstall** button and then tap **OK**.

Important

You should only remove programs if you are familiar with the Android operating system.

Restoring to factory settings

You may perform a clean boot to restore your smartphone to the factory settings. Before performing a clean boot, ensure that your smartphone is not locked. Press any key or tap the screen to see if the phone responds.

Important

You should only perform a clean boot when all other options have failed to restore your smartphone to an operational state.

This will erase all your personal information, any contacts stored on your phone and any programs you installed.

If your phone is responding to screen input, then open **Settings** from the *App menu*. Tap **Backup & reset** > **Factory data reset** > **Reset phone** and then **Erase everything** to format your phone.

ACCESSORIES AND TIPS

This chapter shows you how to use accessories with your smartphone, as well as provide useful tips for when you are using your smartphone.

Using the headset

Your smartphone is compatible with headsets with built-in microphone for handsfree use when making calls.

To use the headset, plug it into the 3.5 mm headphone jack at the top of the phone.

When the headset is plugged in, all audio is routed to the headset, and the speakers are turned off.

- To answer an incoming call, press the button on the microphone.
- Adjust the volume using the volume up/down button on the smartphone.
- End the call by pressing the button again.

Using a Bluetooth headset

Your smartphone's Bluetooth functions make it fully compatible with all Bluetooth headsets. This allows you to use the unit handsfree when making calls, without the inconvenience of wires.

Creating a new access point

When you need to add another GPRS/3G/EDGE connection on your phone, obtain the access point name and settings (including username and password if required) from your wireless service provider.

1. Open the *App menu* and tap **Settings** > **More...** > **Mobile networks** > **Access Point Names**, and select an operator.
2. Tap the **Menu** button and then tap **New APN**.
3. Enter the APN settings. Tap an item to adjust it.

4. When you have finished tap the **Menu** button and then tap **Save**.

Important

Some providers and countries do not allow the use of a smartphone as a modem over HSDPA. Please check with your provider before attempting to do so.

Inserting a microSD card

Your smartphone features a memory expansion slot that accepts a microSD card to expand memory and storage capacity.

Please refer to **Installing a SIM or microSD card on page 7** for instructions on installing a microSD card.

APPENDIX

FAQ and troubleshooting

This section lists frequently asked questions that may arise during the use of your smartphone, and gives easy answers and solutions to these questions.

Aspect	Question	Suggestions
Audio	Why is there no sound coming from the device?	If the headset is plugged into the device, the speaker is automatically shut off. Disconnect the headset. Check that the device volume setting is not muted. Check that the volume control is not at its lowest setting.
	Why can't I view my picture files?	You may be trying to view an image that is not supported. See Multimedia on page 65.
Multimedia files	Why can't I view my video files?	You may be trying to view a video that is not supported. See Multimedia on page 65.
	Why can't I play my music files?	You may be trying to play a file that is not supported. See Multimedia on page 65.

Aspect	Question	Suggestions
Google Play Store	Why can't I connect to the Play Store?	1. First check that you have a Wi-Fi or data connection and then try again. <i>Some Wi-Fi "hotspots" require you to log in before accessing the internet.</i> 2. If you still cannot connect, try adjusting your date/time settings. Open the <i>App menu</i> and tap Settings > Date & time > Automatic date & time set to <i>off</i>. 3. Manually adjust the time and date then try to reconnect to the Play Store (change the time/date back after connecting).
System information and performance	How do I check the OS version of my device?	Tap Settings > About phone to check the OS version (Build number) and other hardware and software information.
Power	I can't turn on the device.	The battery power may be depleted. Recharge the device. See Charging the battery on page 7 for more information.
RAM / ROM	How do I check the RAM and ROM memory status?	To check the ROM status, tap Settings > Storage . To check RAM status, tap Settings > Apps > RUNNING .
Internal storage	My device's available internal storage is full or almost full.	Uninstall apps to increase available storage. See Uninstalling an app on page 53 .

Aspect	Question	Suggestions
Unlock pattern	I forgot my unlock pattern.	After a certain number of wrong entries, you will be presented with an option to reset your pattern. Tap Forgot pattern? and enter your Google account username and password. <i>You must have an active Google account on the smartphone.</i> <i>Alternatively, you restore your smartphone to factory settings. See Restoring to factory settings on page 54.</i>
Heat	The phone heats up when charging or making long duration calls.	It is normal for the phone to heat up when charging. When charging is complete, it will return to its normal temperature. It is also normal for the phone to heat up during long periods of use, such as watching a video or a long phone conversation.

Service enquiries	www.acer.com/support

WARNINGS AND PRECAUTIONS

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface. This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.
- Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.
- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use this product when engaging in sporting activities, exercising, or in any vibrating environment which may cause a short circuit or damage, and even a risk of explosion from the battery pack.

Protecting your hearing

To protect your hearing, follow these instructions.

- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

Additional safety information

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

Operating environment

Important

For safety reasons, turn off all wireless or radio transmitting devices when using your smartphone device under the following conditions. These devices may include, but are not limited to: wireless LAN (WLAN), Bluetooth and/or 3G.

Remember to follow any special regulations in force in any area, and always switch off your device when its use is prohibited or when it may cause interference or danger. Use the device only in its normal operating positions. To successfully transmit data files or messages, this device requires a good quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure that the above separation distance instructions are followed until the transmission is completed. Parts of the device are magnetic. Metallic materials may be attracted to the device, and persons with hearing aids should not hold the device to the ear with the hearing aid. Do not place credit cards or other magnetic storage media near the device, because information stored on them may be erased.

Medical devices

Operation of any radio transmitting equipment, including wireless phones, may interfere with the functionality of inadequately protected medical devices. Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions. Switch off your device in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF transmissions.

Pacemakers. Pacemaker manufacturers recommend that a minimum separation of 15.3 cm (6") be maintained between wireless devices and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research. Persons with pacemakers should do the following:

- Always keep the device more than 15.3 cm (6") from the pacemaker.

- Not carry the device near your pacemaker when the device is switched on. If you suspect interference, switch off your device, and move it.

Hearing aids. Some digital wireless devices may interfere with some hearing aids. If interference occurs, consult your service provider.

Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles such as electronic fuel injection systems, electronic anti-skid (anti-lock) braking systems, electronic speed control systems, and air bag systems. For more information, check with the manufacturer, or its representative, of your vehicle or any equipment that has been added. Only qualified personnel should service the device, or install the device in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty that may apply to the device. Check regularly that all wireless equipment in your vehicle is mounted and operating properly. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the device, its parts, or enhancements. For vehicles equipped with an air bag, remember that air bags inflate with great force. Do not place objects, including installed or portable wireless equipment in the area over the air bag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed, and the air bag inflates, serious injury could result. Using your device while flying in aircraft is prohibited. Switch off your device before boarding an aircraft. The use of wireless teledevices in an aircraft may be dangerous to the operation of the aircraft, disrupt the wireless telephone network, and may be illegal.

Potentially explosive environments

Switch off your device when in any area with a potentially explosive atmosphere and obey all signs and instructions. Potentially explosive atmospheres include areas where you would normally be advised to turn off your vehicle engine. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death. Switch off the device at refueling points such as near gas pumps at service stations. Observe restrictions on the use of radio equipment in fuel depots,

storage, and distribution areas; chemical plants; or where blasting operations are in progress. Areas with a potentially explosive atmospheres are often, but not always, clearly marked. They include below deck on boats, chemical transfer or storage facilities, vehicles using liquefied petroleum gas (such as propane or butane), and areas where the air contains chemicals or particles such as grain, dust or metal powders.

Follow any restrictions. Do not use the device where blasting is in progress.

Emergency calls

Important

Wireless phones, including this device, operate using radio signals, wireless networks, landline networks, and user-programmed functions. Because of this, connections in all conditions cannot be guaranteed. You should never rely solely on any wireless device for essential communications like medical emergencies.

If certain features are in use, you may first need to turn those features off before you can make an emergency call. Consult this guide or your service provider for more information.

When making an emergency call, give all the necessary information as accurately as possible. Your wireless device may be the only means of communication at the scene of an accident. Do not end the call until given permission to do so.

Taking care of your smartphone

1. **DO** take care not to scratch the screen of your smartphone. Keep the screen clean. When working with your smartphone, use your finger or fingernail. Never use an actual pen or pencil or other sharp object on the screen surface.
2. **DO NOT** expose your smartphone to rain or moisture. Do not let water enter the circuitry through the front panel buttons or expansion slots. In general, treat your smartphone as you would a mobile phone or other small electronic device.

3. **DO** be careful not to drop your smartphone or subject it to any strong impact. Do not place your smartphone in your back pocket.
4. **DO NOT** expose your smartphone to extreme temperatures. For example, do not leave your smartphone on the dashboard of a car on a hot day or when temperatures are below freezing point. Also, keep it away from heaters and other sources of heat.
5. **DO NOT** use or store your smartphone in any location that is dusty, damp or wet.
6. **DO** use a soft, damp cloth to clean your smartphone. If the surface of the screen becomes soiled, clean it with a soft cloth moistened with diluted window-cleaning solution.
7. **DO NOT** press down on the screen with force, otherwise you may crack the screen.

Specifications

Note

Specifications may vary depending on region and configuration.

Performance

- 1.7 GHz octa-core processor
- System memory:
 - 2 GB RAM (depending on model)
 - 16 GB (depending on model)
- Android operating system

Display

- 5.7" TFT LCD, capacitive touchscreen
- HD resolution

Multimedia

Formats supported:

Type	Formats
Image	JPEG, GIF, PNG, BMP
Audio playback	MP3, AMR, AAC LC, AAC+, eAAC+, Vorbis, FLAC, MIDI, WMA, WAVE
Ringtone	MP3, AMR, AAC LC, AAC+, eAAC+, Vorbis, FLAC, MIDI, WMA, WAVE
Video recording	H.263, H.264, MPEG4
Video playback	H.263, H.264, MPEG4, VP8, WMV

USB connector

- Micro USB connector
- USB client
- DC power-in (5 V, 2 A)

Connectivity

- Bluetooth 4.0
- IEEE 802.11b/g/n
- GSM 850 / 900 / 1800 / 1900 MHz
- HSPA+ / GPRS / EDGE
- GPS / aGPS

*Camera

- 13 MP rear camera
 - Auto focus
- 2 MP front camera
 - Fixed focus

Expansion

- microSD memory card slot (up to 32 GB)

Battery

- 2700 mAh Lithium-ion battery

Note

Length of battery operation will depend on power consumption which is based on system resource use. For example, constantly using the backlight or using power-demanding apps will shorten battery life between charges.

Dimensions

Height	153.3 mm
Width	80.5 mm
Thickness	8.5 mm
Weight	164 g

END USER LICENSE AGREEMENT

IMPORTANT-READ CAREFULLY: THIS END USER LICENSE AGREEMENT ("AGREEMENT") IS A LEGAL AGREEMENT BETWEEN YOU (EITHER AN INDIVIDUAL OR A SINGLE ENTITY), AND ACER INC. INCLUDING ITS SUBSIDIARIES ("ACER") FOR THE SOFTWARE (WHETHER PROVIDED BY ACER OR BY ACER'S LICENSORS OR SUPPLIERS) THAT ACCOMPANIES THIS AGREEMENT, INCLUDING ANY ASSOCIATED MEDIA, PRINTED MATERIALS AND RELATED USER ELECTRONIC DOCUMENTATION WHICH MAY BE BRANDED "ACER" ("SOFTWARE"). AGREEMENTS RELATING TO ANY OTHER PRODUCT OR TOPIC ARE NEITHER INTENDED NOR SHOULD THEY BE IMPLIED. BY INSTALLING THE ACCOMPANYING SOFTWARE OR ANY PORTION THEREOF, YOU AGREE TO BE BOUND BY THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO ALL OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, DO NOT CONTINUE THE INSTALLATION PROCESS AND IMMEDIATELY DELETE ALL INSTALLED FILES, IF ANY, OF THE ACCOMPANYING SOFTWARE FROM YOUR PHONE.

IF YOU DO NOT HAVE A VALIDLY-LICENSED COPY OF THE APPLICABLE SOFTWARE, YOU ARE NOT AUTHORIZED TO INSTALL, COPY OR OTHERWISE USE THE SOFTWARE, AND HAVE NO RIGHTS UNDER THIS AGREEMENT.

The Software is protected by U.S. and international copyright laws and conventions as well as other intellectual property laws and treaties. The Software is licensed, not sold.

GRANT OF LICENSE

Acer grants to you the following non-exclusive and non-transferable rights with respect to the Software. Under this Agreement, you may:

1. Install and use the Software only on a single designated phone. A separate license is required for each phone on which the Software will be used;
2. Make one copy of the Software solely for backup or archival purposes;
3. Make one hardcopy of any electronic documents included in the Software, provided that you receive the documents electronically.

RESTRICTIONS

You may NOT:

1. Use or copy the Software except as provided in this Agreement;
2. Rent or lease the Software to any third party;
3. Modify, adapt, or translate the Software in whole or in part;
4. Reverse engineer, decompile, or disassemble the Software or create derivative works based upon the Software;
5. Merge the Software with any other program or modify the Software, except for your personal use; and
6. Sublicense or otherwise make the Software available to third parties, except that you may, after prior written notification to Acer, transfer the Software as a whole to a third party so long as you do not retain any copies of the Software and such third party accepts the terms of this Agreement.
7. Transfer your rights under this Agreement to any third parties.
8. Export the Software in contravention of applicable export laws and regulations, or (i) sell, export, re-export, transfer, divert, disclose technical data, or dispose of, any Software to any prohibited person, entity, or destination including, without limitation, Cuba, Iran, North Korea,

Sudan and Syria; or (ii) use any Software for any use prohibited by the laws or regulations of the United States.

SUPPORT SERVICES

Acer is not obligated to provide technical or other support for the Software.

ACER LIVE UPDATE

Certain of the software contains elements that enable the use of the Acer Live Update service, which allows for updates for such software to be automatically downloaded and installed on your phone. By installing the software, you hereby agree and consent that Acer (or its licensors) may automatically check the version of such software that you are using on your phone and may provide upgrades to such software that may be automatically downloaded on to your phone.

OWNERSHIP AND COPYRIGHT

Title, ownership rights and intellectual property rights in and to the Software and all copies thereof shall remain with Acer or Acer's licensors or suppliers (as applicable). You do not have or shall not gain any proprietary interest in the Software (including any modifications or copies made by or for you) or any related intellectual property rights. Title and related rights in the content accessed through the Software is the property of the applicable content owner and may be protected by applicable law. This license gives you no rights to such contents. You hereby agree

1. Not to remove any copyright or other proprietary notices from the Software;
2. To reproduce all such notices on any authorized copies you make; and
3. To use best efforts to prevent any unauthorized copying of the Software.

TRADEMARKS

This Agreement does not grant to you any rights in connection with any trademarks or service marks of Acer or of Acer's licensors or suppliers.

DISCLAIMER OF WARRANTIES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ACER, ITS SUPPLIERS, AND ITS LICENSORS, PROVIDE THE SOFTWARE "AS IS" AND WITH ALL FAULTS, AND HEREBY DISCLAIM ALL OTHER WARRANTIES AND CONDITIONS, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES, DUTIES OR CONDITIONS OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE, OF ACCURACY OR COMPLETENESS OF RESPONSES, OF RESULTS, OF WORKMANLIKE EFFORT, OF LACK OF VIRUSES, AND OF LACK OF NEGLIGENCE, ALL WITH REGARD TO THE SOFTWARE AND THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES. ALSO, THERE IS NO WARRANTY OR CONDITION OF TITLE, QUIET ENJOYMENT, QUIET POSSESSION, CORRESPONDENCE TO DESCRIPTION OR NON-INFRINGEMENT WITH REGARD TO THE SOFTWARE.

EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER DAMAGES

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL ACER, ACER'S SUPPLIERS, OR ACER'S LICENSORS, BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, BUT NOT LIMITED TO, DAMAGES FOR LOSS OF PROFITS OR CONFIDENTIAL OR OTHER INFORMATION, FOR BUSINESS INTERRUPTION, FOR PERSONAL INJURY, FOR LOSS OF PRIVACY, FOR FAILURE TO MEET ANY DUTY INCLUDING OF GOOD FAITH OR OF REASONABLE CARE, FOR NEGLIGENCE, AND FOR ANY OTHER PECUNIARY OR OTHER LOSS WHATSOEVER) ARISING OUT OF OR IN ANY WAY RELATED TO THE USE OF OR INABILITY TO USE THE SOFTWARE, THE PROVISION OF OR FAILURE TO PROVIDE SUPPORT SERVICES, OR OTHERWISE UNDER OR IN CONNECTION WITH ANY PROVISION OF THIS AGREEMENT, EVEN IN THE EVENT OF THE FAULT, TORT (INCLUDING

NEGLIGENCE), STRICT LIABILITY, BREACH OF CONTRACT OR BREACH OF WARRANTY OF ACER OR ITS SUPPLIERS OR LICENSORS, AND EVEN IF ACER AND ITS SUPPLIERS AND LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

LIMITATION OF LIABILITY AND REMEDIES

NOTWITHSTANDING ANY DAMAGES THAT YOU MIGHT INCUR FOR ANY REASON WHATSOEVER (INCLUDING, WITHOUT LIMITATION, ALL DAMAGES REFERENCED ABOVE AND ALL DIRECT OR GENERAL DAMAGES), THE ENTIRE LIABILITY OF ACER, ITS SUPPLIERS, AND ITS LICENSORS, UNDER ANY PROVISION OF THIS AGREEMENT, AND YOUR EXCLUSIVE REMEDY FOR ALL OF THE FOREGOING, SHALL BE LIMITED TO THE AGGREGATE AMOUNT PAID BY YOU FOR THE SOFTWARE. THE FOREGOING LIMITATIONS, EXCLUSIONS AND DISCLAIMERS (INCLUDING DISCLAIMER OF WARRANTIES AND EXCLUSION OF INCIDENTAL, CONSEQUENTIAL AND CERTAIN OTHER DAMAGES ABOVE) SHALL APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EVEN IF ANY REMEDY FAILS ITS ESSENTIAL PURPOSE; PROVIDED, HOWEVER, THAT BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OR LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

TERMINATION

Without prejudice to any other rights, Acer may immediately terminate this Agreement without notice if you fail to comply with any terms and conditions of this Agreement.

In such event, you must:

1. Cease all use of the Software;
2. Destroy or return to Acer the original and all copies of the Software; and
3. Delete the Software from all phones on which it was resident.

All disclaimers of warranties and limitation of liability set forth in this Agreement shall survive termination of this Agreement.

GENERAL

This Agreement represents the complete agreement between you and Acer relating to this license for the Software and supersedes all prior agreements, communications, proposals and representations between the parties and prevails over any conflicting or additional terms of any quote, order, acknowledgement or similar communication. This Agreement may only be modified by a written document signed by both parties. If any provision of this Agreement is held by a court of competent jurisdiction to be contrary to law that provision will be enforced to the maximum extent permissible and the remaining provisions of this Agreement will remain in full force and effect.

ADDITIONAL PROVISIONS APPLICABLE TO THIRD PARTY SOFTWARE AND SERVICES

Software provided hereunder by Acer's licensors or suppliers ("Third Party Software") is made available to you for your personal, non-commercial use only. You may not use the Third Party Software in any manner that could damage, disable, overburden, or impair the services provided by Acer's licensors or suppliers hereunder ("Third Party Services"). Furthermore, you may not use the Third Party Software in any manner that could interfere with any other party's use and enjoyment of the Third Party Services, or the services and products of Acer's licensors' or suppliers' third party licensors. Your use of the Third Party Software and Third Party Services is also subject to additional terms and conditions and policies which can be accessed through our global website.

Privacy policy

During registration you will be asked to submit some information to Acer. Please refer to Acer's privacy policy at **www.acer.com** or your local Acer website.
