At a glance

Let's get started. We'll guide you through startup and tell you a bit about your phone's features.

And when you're ready, customise your phone to match your style with Motorola Shells (sold separately and not available in all countries).

Note: software updates happen frequently, so your phone may look a little different.

Remove the back cover

Your phone is water resistant,* but it depends on you putting the cover on properly. You may need to remove the cover to insert cards, but be sure to replace it properly to ensure water resistance.

Caution: don't use tools to remove the cover—doing so may damage your phone.

Put in the cards & power on

Caution: make sure you use the correct size SIM cards, don't cut the SIM card and don't use adapters with your SIM cards.

Dual SIM phone settings

To set up a dual SIM phone, insert both SIM cards, turn on your phone and follow the prompts. Then drag down the status bar at the top of the home screen and touch

Welcome to your dual SIM.

Sign in

If you use Gmail™, you already have a Google™ account—if not, you can create an account during setup. Signing in to your Google account lets you use Google apps, see your contacts, appointments, photos and more.

Select your language and follow the screen prompts to get started.

Home screen & settings

From the Home screen, you can explore apps, check notifications, speak commands and more.

- **Add a shortcut to a home screen page:** touch Apps (⌘), touch and hold an app, then drag it to your home screen.
- **Customise:** to change your Wi-Fi, brightness and more, drag the status bar down with two fingers.

Volume

Press the side volume key up or down to select a ringer volume from high to vibrate (🔕). Or, touch an option:

- **All:** receive all notifications and alarms.
- **Priority:** touch ⚙️ to select which interruptions to receive and more. You will always hear alarms.
- **None:** turn off all sounds and alarms. Override sound settings from other apps. Set how long to stay in this mode, or choose indefinitely.

read me

Caution: Before using your phone, please read the safety, regulatory and legal information provided with your product.

Discover your Moto apps

Your phone knows if you're in a meeting or at home.

Find it: Apps (⊞) → **Moto**

- **Assist:** set your phone's behaviour based on what you're doing. For example, keep alarms quiet at night while you're sleeping.
- **Actions:** learn how to open your camera with two twists of your wrist using Quick Capture.
- **Display:** see messages, calls and other notifications—even if your phone is asleep.

Note: your phone may not have all features.

Select a feature to learn more.

Photos

Use the 13 megapixel camera to take crisp, clear photos with two twists of your wrist and a tap on the screen.

- **Launch it:** even when your phone is asleep, open your camera with two twists of your wrist.
- **See it:** swipe left for your photo gallery (🖼️ Gallery).
- **Share it:** view a photo or video from your gallery, then touch Share (➦).

Tip: swipe right for effects and settings, like panorama.

Touch anywhere to take the photo. Touch and hold for multiple shots.

Swipe right for effects and settings.

Switch to front camera.

Switch to video camera.

Email

Check your messages, old and new.

Find it: Apps (⊞) → **Gmail**

You can set up Gmail™ when you turn on your phone for the first time or do it later. You can use Gmail to set up your other email accounts. For other email, just touch **Gmail** and follow the prompts.

Tip: want to chat instead? To use Hangouts™ to video or text chat, touch Apps (⊞) → **Hangouts**.

Touch to search mail.

Touch to choose multiple messages, then touch ⊞ to select an option.

Swipe left or right to archive a message.

Touch to compose a new email.

Help & more

Get answers, updates and info:

- **Help is here:** touch Apps (⊞) → **Help** to get walk-through tutorials, how-tos, FAQs or chat with people who can help, right on your phone.
- **Everything Moto G:** get software, user guides and more at www.motorola.com/mymoto.
- **Accessories:** get accessories for your phone at www.motorola.com/mobility.
- **Get apps:** touch Apps (⊞) → **Play Store** to buy and download apps.
- **News:** here's how to find us:
 - YouTube™ www.youtube.com/motorola
 - Facebook™ www.facebook.com/motorola
 - Twitter www.twitter.com/motorola
 - Google+™ www.google.com/+Motorola/posts

For your safety

Warning: don't try to remove or replace the battery yourself—doing so may damage the battery and could cause burning and injury. If your phone becomes unresponsive, try a reboot—press and hold the Power key until the screen goes dark and your phone restarts.

• **Water resistance:** this device is IPX7 water resistant—not waterproof. Avoid prolonged exposure to water. Do not submerge in more than three feet of water or for longer than 30 minutes.

Specific Absorption Rate

YOUR MOBILE DEVICE MEETS MINISTRY OF COMMUNICATION LIMITS FOR EXPOSURE TO RADIO WAVES.

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) adopted by the Ministry of Communications. These limits include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit in India for mobile devices is 1.6 W/kg.

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the guidelines for your device model are listed below:

Head	GSM 900MHz, WFi, Bluetooth	0.955 W/kg
Body	LTE B7, WFi, Bluetooth	1.069 W/kg

During use, the actual SAR values for your device are usually well below the values stated. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

If you are interested in further reducing your RF exposure then you can easily do so by limiting your usage or simply using a hands-free kit to keep the device away from the head and body.

Usage

This phone supports apps and services that may use a lot of data, so make sure your data plan meets your needs. Contact your service provider for details. Certain apps and features may not be available in all countries.

Copyright & trademarks

Certain features, services and applications are network-dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. Contact your service provider for details.

All features, functionality and other product specifications, as well as the information contained in this guide, are based upon the latest available information and believed to be accurate at the time of printing. Motorola reserves the right to change or modify any information or specifications without notice or obligation.

Electronic label

Your phone may use an electronic label that provides some regulatory information about the phone. To see the electronic label, touch Apps (⊞) → **Settings** → **About phone** → **Regulatory information**.

This product meets the applicable national or international RF exposure guidance (SAR guideline) when used normally against your head or, when worn or carried, at a distance of 1.5 cm from the body. The SAR guideline includes a considerable safety margin designed to assure the safety of all persons, regardless of age and health.
