Your MOTOROLA RAZR™ M—surfs faster, displays bigger, in a super compact 4G LTE smartphone.

- **Display:** Edge to edge, 4.3" display in compact design.
- **Speed:** 4G LTE speeds and Chrome browser.
- **Design:** Premium protective materials—DuPont™ KEVLAR® fiber, Corning® Gorilla® Glass 2.

Note: Kevlar is only used in licorice variant

- **Voice Actions:** Google Maps with Navigation™, Google Play™, Voice Actions.

TIPS & TRICKS

- **Start:** SIM in, charge up, and register. See “**START**”.
- **Top topics:** Just want a quick hit of what your phone can do? See “**TOP TOPICS**”.
- **More:** All the topics in this guide and so much more, right on your phone. Touch Apps > **Guide Me** > **HELP TOPICS**. Want even more? See “**GET MORE!**”

SAR This product meets the applicable limit for exposure to radio waves (known as SAR) of 2.0 W/kg (ICNIRP). The limits and guidelines include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The highest SAR values measured for this device are listed in the regulatory information packaged with your product.

Note: When using the product while worn on your body, maintain a distance of 2.5 cm (1 inch) from the body to ensure compliance with SAR requirements. Note that the product may be transmitting even if you are not making a phone call.

CHARGE UP

SIM in, memory card in (optional), charge up, then power up.

Caution: Before using your phone, please read the safety, regulatory and legal information provided with your product.

Note: Certain apps and features may not be available in all countries.

1

Insert micro SIM & optional microSD using the Card Insertion/Removal Tool.

Place the SIM or microSD card with the gold contacts facing down. Gently push until it clicks.
Note: If your SIM or microSD card doesn't click in, position the Card Insertion/Removal Tool on the edge of the card, and gently push until it clicks.

2

Charge up fully.

Note: Use only the charger provided with your phone or other Motorola Approved chargers.

3

Turn on.

Power Key
Press & hold to turn on.

TIPS & TRICKS

- **Power/Sleep Key:** To make the screen sleep or wake up, press the Power key. To turn your phone on or off, press and hold it.
- **Notification Light:** The notification light turns on when your phone starts charging and blinks when you have a new message or notification.
- **Battery:** Squeeze every bit of juice out of your battery, see "**BATTERY LIFE**".

Note: This product uses a non-removable battery. The battery should only be replaced by a Motorola-approved service facility. Any attempt to remove or replace your battery, unless performed by a service representative, may damage the product and void your warranty.

OLD PHONE TO NEW PHONE

BATTERY LIFE

Your phone is like a small computer, giving you tons of information and apps, at 4G LTE speed. Depending on what you use, that can take a lot of power.

To see what's using up battery power, touch Apps  >  **Settings** > **Battery**.

To set automatic rules to save power touch Apps  >  **SMARTACTIONS**, see "**SMARTACTIONS™**".

Time remaining.

Add **Triggers** (like events, times, or places) that start the action.

Add an **Action** (like reducing the brightness) to make it happen when the trigger does.

TIPS & TRICKS

To save even more battery life between charges, you could reduce:

- recording or watching videos, listening to music, or taking pictures.
- widgets that stream information to your home screen, like news or weather.
- unused online accounts that you registered: Touch Apps  >  **Settings** > **Accounts & sync**.
- Wi-Fi and Bluetooth™ use: Touch Apps  >  **Settings**, then touch the switch next to **Wi-Fi** or **Bluetooth** to turn them **OFF** when you don't need them.
- GPS use: Touch Apps  >  **Settings** > **Location services**, and uncheck **GPS satellites**.
- display brightness: Touch Apps  >  **Settings** > **Display** > **Brightness** > (*dimmer setting*).
- display timeout delay: Touch Apps  >  **Settings** > **Display** > **Sleep** > (*shorter setting*).

OLD PHONE TO NEW PHONE

Are you switching from an Apple™ or Blackberry phone? Get all your important information set up on your new Motorola phone in a few easy steps. The **Welcome Home To Motorola** application transfers contacts, email addresses, calendar meetings, events, tasks, music, playlists, photos, and videos from your old phone to your new Motorola phone.

Note: If you are switching from another Android™ phone, your Google™ account's contacts, events, Gmail™ and other settings start downloading as soon as you log into your Google account. If you are switching from another type of device, contact your service provider for assistance.

To move information from an Apple or Blackberry phone to your Motorola phone:

- 1** Use your computer browser to navigate to www.markspace.com/welcomehome/, and download the free Microsoft™ Windows™ or Apple Macintosh version of the Welcome Home To Motorola application to your computer.
- 2** Install and run the application on your computer. **You can skip registration.**
- 3** Follow the instructions to transfer information from your old phone to your Motorola phone.

The Welcome Home To Motorola application prompts you to connect your old phone to the computer with a USB cable, and backup the data you want to transfer.

Next, install the Welcome Home To Motorola app on your Motorola phone, connect the phone to your computer with a USB cable, then transfer the data onto your Motorola phone.

For quick access to your favorite things, customize your home screen the way you want:

- **Change wallpaper:** Touch and hold an empty spot on your home screen to choose your wallpaper.
- **Create shortcut folders:** To create a folder of shortcuts on your home screen, touch and hold a shortcut, then drop it on top of another shortcut.

You can create a folder of apps, that contains your music and books, or whatever goes together for you.

- **Add widgets & shortcuts:** Touch Apps (⋮), touch and hold the app or widget, then drag it to one of your home screen pages. To see all your apps and widgets, flick the menu to the left, or touch **APPS** or **WIDGETS** at the top. To see your **Favorites** touch ★, then touch **ADD/REMOVE** to edit your favorite apps.

Tip: Some apps include widgets. To download apps, touch Apps (⋮) > **Play Store**.

- **Resize widgets:** You can resize some widgets—touch and hold a widget until you feel a vibration, then

release. Drag the blue diamonds at the edges to resize.

- **Move or delete widgets & shortcuts:** Touch and hold a widget or shortcut until you feel a vibration, then drag it to another spot, another page, or **Remove** at the top of the screen.
- **Add, rearrange, or delete pages:** To show other pages of shortcuts and widgets, flick the home screen left.

To add, reorder, or delete pages, from your home screen, flick right to show **Add a page**. Then, touch **Blank page** or **Start with a template**.

Touch **Manage pages**, then touch and hold a page to rearrange or remove. Touch **+** to add, or touch and hold an existing page and drag it to left or right to reorder, or drag it up to **Remove**.
- **Ringtones and more:** For more about customizing, see “**CONTROL & CUSTOMIZE**”.

Network and Wi-Fi icons turn blue () when your phone exchanges data with your Google™ account.

Note: Apps you download from the Google Play™ Store might show other icons in the status bar to alert you to specific events.

DOWNLOAD APPS

GOOGLE PLAY™

Google Play is a new entertainment hub full of music, movies, books, apps, and games. You can instantly access your content from all your Android devices.

Find it: Apps > Play Store

- **Find:** To search, touch in the top right.
- **Review:** To show details and reviews for an app you found, just touch it.

Tip: For the full list of reviews, touch **See all** below the third review, then touch **Most helpful first** or **Options** to customize the list.

- **Download:** To download an app you found, touch it to open details and then touch **Download**, or the price.
- **Share:** To share an app you found, touch it to open details and then touch .

- **Reinstall:** To show or reinstall apps you downloaded from the Google Play Store app, touch Menu > **My Apps**.

- **On a computer:** To find and manage apps from any computer, go to <http://play.google.com> using your Google™ account and password.

There, you can browse apps on the big screen, manage your apps across multiple devices (like a phone and tablet), and even set new apps to download to your devices.

- **Music, Books & Movies:** You can also use the Google Play Store app to download “**MUSIC**”, “**BOOKS**”, and “**MOVIES**”.
- **Help:** To get help and more, touch Menu in the top right.

APPS FROM THE WEB

You can get apps from online app stores using your browser.

Tip: Choose your apps and updates carefully, as some may impact your phone’s performance—see “**CHOOSE CAREFULLY**”.

Note: When installing an app, make sure you read the alerts that tell you what information the app will access. If you don’t want the app to have access to this information, cancel the installation.

To let your phone install apps that are not from Google Play, touch Apps  >  **Settings** > **Security & Screen** and check **Unknown sources**.

CHOOSE CAREFULLY

Apps are great. There's something for everyone. Play, communicate, work, or have fun. But remember, choose your apps carefully. Here are a few tips:

- To help prevent spyware, phishing, or viruses from affecting your phone or privacy, use apps from trusted sites, like the Google Play™ Store.
- In the Google Play, check the app's ratings and comments before installing.
- If you doubt the safety of an app, don't install it.
- Like all apps, downloaded apps will use up memory, data, battery, and processing power—some more than others. For example, a simple battery level widget will use less than a streaming music player app. After installing an app, if you're not happy with how much memory, data, battery or processing power it's using, uninstall it. You can always install it again later.
- Just like web browsing, you may want to monitor children's access to apps to help prevent exposure to inappropriate content.
- Certain apps may not provide completely accurate information. Take care, especially when it comes to personal health.

TAKE CARE OF YOUR APPS

From your home screen, touch Apps , then flick left to scroll through apps. To close the apps screen, touch Home  or Back .

- **Favorites:** To show your favorite apps, touch  at the top of the screen. Then touch **ADD/REMOVE** to edit your favorite apps.

Tip: Apps you download are added to your favorites.

- **Uninstall apps:** Touch Apps  >  **Settings** > **Apps** > **ALL**, touch an app, then touch **Disable** or **Uninstall** in the top right (if available).

Disable removes the app from your menu. To **Enable** it, reopen this window and touch **Enable** (disabled apps are at the bottom of the list).

If an app locks up your phone as soon as you turn it on, restart in Safe Mode: Turn off your phone, then turn it back on—when you see the “Motorola” logo during power-up, press and hold both volume keys until you see the home screen, with **Safe Mode** in the lower left. Then, try removing the app.

- **Reinstall apps:** To reinstall apps from the Google Play™ Store, touch Apps  >  **Play Store** > **My apps**. The apps you downloaded are listed and available for download.
- **Share, show, or clear app details:** Touch Apps  >  **Settings** > **Apps**. A bar at the bottom tells you how much app storage space you have left. At the top,

TAKE CARE OF YOUR APPS

UPDATE YOUR PHONE

touch the list of **DOWNLOADED**, **RUNNING**, or **ALL** apps, then touch an app in the list to show its details and storage usage. You can touch **Share**, **Clear data** or other options.

Tip: To quickly show these app details from your app screen: Just touch and hold an app, drag it to **More options** at the top of your screen, then choose **App info**.

- **Show app data usage:** To show which apps are using the most data, touch Apps  >  **Settings** > **Data usage**. For more, see “**DATA USE**”.

UPDATE YOUR PHONE

Use your phone or computer to check, download, and install phone software updates:

- Using your phone:
If your phone notifies you about an update, follow the instructions to download and install it.

To manually check for updates, touch Apps  >  **Settings** > **About phone** > **System updates**.

Your phone downloads updates over your Wi-Fi connection (if available) or mobile network. We recommend that you download updates when you have a Wi-Fi connection. Remember, these updates can be quite large (250MB or more) and may not be available in all countries. If the mobile network updates are not available in your country, update using a computer.

- Using your computer:

On your computer, go to www.motorola.com/support and check the “Software” links. If an update is available, just follow the installation instructions.

TALKBACK

Use **TalkBack** to read out loud—your navigation, your selections, even your books.

To turn on **TalkBack**, touch Apps  >  **Settings** > **Accessibility** > **TalkBack**, then touch  at the top to turn it to .

Note: You might need to download text-to-speech software (data charges may apply).

To use **TalkBack**:

- **Menus and screens:** Touch an item in a menu or screen—your phone speaks the name.
- **Dialer & text entry:** Start typing—your phone speaks each number or letter.
- **Notifications:** Flick the status bar down—your phone speaks all of the notifications.
- **Books & more:** Open a book, file, message, and more—it’s read out loud (app dependent).

Tip: Navigate through your apps and menus to hear how voice readouts work on your phone.

Take **TalkBack** to the next level, see “**EXPLORE BY TOUCH**”.

EXPLORE BY TOUCH

Use **Explore by touch** to expand **TalkBack**, and have your touches read out loud as you move your finger around the screen.

To turn on **Explore by touch**, turn on **TalkBack** then touch Apps  >  **Settings** > **Accessibility** > **Explore by touch**, then touch  at the top to turn it to .

Explore by touch changes some touch gestures slightly so that the location of your touches can be read out loud. Just follow the handy tutorial to learn more.

CALLER ID

When you want to hear who’s calling:

- **Read out loud:** Have your caller announced. Touch Apps  >  **Settings** > **Accessibility** > **Caller ID Readout**.
- **Ringtones:** Assign a unique ringtone to a contact—touch Apps  >  **People**, touch the contact, then touch Menu  > **Set ringtone**.

VOLUME & VIBRATE

Find it: Apps  >  **Settings** > **Sound** > **Volumes** or **Vibrate and ring**

- **Volumes:** Sliders that let you set different volumes for your music or videos, ringtone, text or email notifications, and alarms.
- **Vibrate and ring:** Determines whether your phone vibrates for incoming calls (even if the ringer is silent).

SMARTACTIONS™

ACCESSIBILITY

- **Pinch to zoom:** Pinch to zoom on maps, web pages, and photos: To zoom in, touch the screen with two fingers and then drag them apart. To zoom out, drag your fingers together.

Tip: To zoom in, you can also double-tap.

- **Big text:** Show bigger text throughout your phone: touch Apps  >  **Settings** > **Accessibility** > **Large text**.

DISPLAY BRIGHTNESS

Your phone automatically adjusts the screen brightness when you're in bright or dark places. But you can set your own brightness level instead:

Find it: Apps  >  **Settings** > **Display** > **Brightness**

Uncheck **Automatic brightness** to set your own level.

TOUCHSCREEN & KEYS

To hear or feel when you touch the screen, touch Apps  >  **Settings** > **Sound**:

- **Touchscreen:** To hear screen touches (clicks), select **Touch sounds**.
- **Keys:** To feel screen keyboard touches (vibrate), select **Vibrate on touch**.
- **Screen lock:** To hear when you lock or unlock the screen (click), select **Screen lock sound**.

MESSAGES

To make text entry even easier, use features like auto-complete, auto-correct, and auto-punctuate, touch Apps  >  **Settings** > **Language & input**, then touch  next to a keyboard type. Of course if you don't want to type at all, then use your voice—touch  on the touchscreen keyboard.

APPS

Want more? No problem. The Google Play™ Store app provides access to thousands of apps, and many provide useful accessibility features.

Find it: Apps  >  **Play Store**

QUICK START: CALLS

Dial numbers, recent calls, or contacts, all from one app.

Find it: Apps > Phone

Tip: In the phone unlock screen, drag to .

To make a call, enter a number then touch in the **DIALER**, or flick to the **RECENT** and **FAVORITES** tabs for quick access to your calls and contacts.

TIPS & TRICKS

- **During a call:** Your touchscreen goes dark to avoid accidental touches. To wake it up, move it away from your face or press the Power key.
- **Multi-task:** Touch Home to hide the call display and look up a phone number, address, or open other apps during a call. To reopen the call display, flick down the status bar and touch **Current call**.
- **People:** To search your **People**, touch .
- **Voicemail:** shows in the status bar when you have new voicemail. To hear it, touch Apps > **Phone**, then touch and hold **1**.
- **Forward:** To forward all calls or unanswered calls, touch Apps > **Phone** > Menu > **Settings** > **Call forwarding**.

MAKE, ANSWER & END CALLS

When you make or answer a call, you have options:

- **Make a call:** Touch Apps > **Phone**, enter a number, then touch .

To enter the international dialing code (+), touch and hold . To add a pause or wait after numbers, touch Menu .

Tip: You can video chat with your friends. To learn how, see “**VIDEO CHAT**”.

- **Answer a call:** Touch and flick to .

With call waiting on, touch and flick to to answer the new call, then touch **Hold current call + Answer** or **End current call + Answer**.

- **Ignore a call:** Touch and flick to . You can also press the Power key to ignore the call, or press a volume key to silence the ring.

- **End a call:** Touch .

- **During a call:** Touch icons at the bottom of the call display to mute or hold the call. To hide the call display, touch Home . To reopen it, flick down the status bar and touch **Current call**.

Note: When you hold your phone to your ear, the touchscreen goes dark to avoid accidental touches.

When you move your phone away from your ear, the display lights up again.

During a call, your touchscreen might stay dark if the sensor just above it is covered. Don't use covers or screen protectors (even clear ones) that cover this sensor.

RECENT CALLS

Show your calls (with newest first), to call, text, or store them:

Find it: Apps > **Phone** > **RECENT**

- To call a number, touch on the right.
- To send a text message, store the number, or other options, touch and hold an entry.
- To search the list, touch at the bottom.
- To clear the list, touch Menu > **Clear List**.

PHONEBOOK

To show the phone numbers from your **People** list, touch Apps > **Phone** > . Touch and hold a contact to open option icons at the bottom of your screen (touch and hold an icon to show what it does).

For more about **People**, see “**CONTACTS**”.

SPEED DIAL

Call your eight most important **People** by just touching and holding one key in **Phone**:

- To choose the numbers for your speed dial list, touch Apps > **Phone** > Menu > **Speed dial setup**. Your voicemail is set as 1, and you can choose 2 through 9.
- To call a number in the list, touch Apps > **Phone**, then touch and hold the list number (like 1 for voicemail).

Tip: To call a number even faster, add a **Direct dial** widget to your home screen.

HANDSFREE

Switch to handsfree calling during a call:

- To use the speakerphone, touch .
- To use (or stop using) a connected Bluetooth™ device, touch in the call display.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

MUTE & HOLD

During a call:

- To mute the current call, touch .
- To put a call on hold, touch .

ENTER NUMBERS DURING A CALL

To enter numbers during a call, touch **Dial pad**, then touch the numbers.

VOICEMAIL

When you have a new voicemail, shows in your status bar. To access voicemail, touch Apps > **Phone** then touch and hold **1**.

If you need to change your voicemail number, in the **Phone** app touch Menu > **Settings** > **Voicemail settings**.

VIDEO CHAT

You can see friends as you talk, using a phone's front camera, or a computer's webcam. To use Google Talk™, see "**CHAT**".

MULTIPLE CALLS & CONFERENCE CALLS

During a call, you can start other calls, switch between them, or join them in a conference call:

- To answer a second call, touch and flick to . To ignore it, touch and flick to .

The first call goes on hold if you answer the second call. To switch between calls, touch .

- To dial a second call, touch **+**, enter a number in **DIALER**, **RECENT**, or **FAVORITES**, then touch . The first call goes on hold when you touch . To join the calls after the second call answers, touch .

YOUR NUMBER & CALLER ID

To see the phone number on a phone, touch Apps > **Settings** > **About phone** > **Status** > **My phone number**.

To hide your number from people you call, touch Apps > **Phone** > Menu > **Settings** > **Additional settings** > **Caller ID**.

CALL FORWARDING & WAITING

Call forwarding can forward calls all the time, or only when your phone is busy, unanswered, or unreachable (not on the network). To set call forwarding, touch Apps > **Phone** > Menu > **Settings** > **Call forwarding**.

Call waiting lets you answer a second call when you're already on a call. To turn off **Call waiting** and send second calls straight to your voicemail, touch Apps > **Phone** > Menu > **Settings** > **Additional settings** > **Call waiting**.

RESTRICT OUTGOING CALLS

To restrict your phone so that it can only dial a few numbers, touch Apps > **Phone** > Menu > **Settings** > **Fixed Dialing Numbers**.

- To turn fixed dialing on, touch **Enable FDN**.
- To add or delete the allowed numbers, touch **FDN list**.

COOL DOWN

In very limited circumstances, such as where your phone has been exposed to extreme heat, you may see "Cool Down" messages. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in "Cool Down" mode, only emergency calls can be made.

EMERGENCY CALLS

Note: Your service provider programs one or more emergency phone numbers that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

- 1 Touch Apps > **Phone** (if your phone is locked, touch **Emergency Call** or touch Menu > **Emergency call**).

CREATE CONTACTS

Find it: Apps > People >

Touch a text box to type the name and details. When you're finished, touch **SAVE** at the top.

Note: To import contacts or change where they're stored, see "**GET CONTACTS**".

CALL, TEXT, OR EMAIL CONTACTS

Find it: Apps > People

Touch and hold the contact to open option icons at the bottom of your screen (touch and hold an icon to show what it does).

You can also use "**VOICE COMMANDS**".

FAVORITE CONTACTS

To see your favorite contacts, touch Apps > People > **FAVORITES**.

To tag a favorite, touch Apps > People > **PEOPLE**, touch a contact to open it, then touch next to their name.

EDIT, DELETE, OR HIDE CONTACTS

Find it: Apps > People

- To edit a contact, touch it, then touch Menu > **Edit**. Then, touch a field to edit or touch to choose the contact's picture.

- To set a special ringtone for the contact, touch it, then touch Menu > **Set ringtone**.

- To delete the contact, touch it, then touch Menu > **Delete**.

Contacts from social networks (like Facebook™) will become hidden if you select **Delete**. To view these contacts, or delete them permanently, use the social network's app or website.

- To hide the contacts from an account or group in your **People** list, touch Menu > **Contacts to display**. Touch a group name to show it, or touch **Customize** to uncheck groups you always want to hide.

GET CONTACTS

- To add your social networking contacts, add your account in "**ADD OR DELETE ACCOUNTS**".
- To add your email contacts, see "**EMAIL**".

Tip: If you add a **Corporate Sync** account, you can send messages to your coworkers, even if you don't have them stored in your contacts.

- To import contacts from your SIM card (if that didn't happen automatically): Touch Apps > People > Menu > **Import/Export** > **Import contacts from SIM card**. Touch **OK** to confirm.
- To import contacts from your computer, upload the contacts to your Google™ account at contacts.google.com. On your phone,

MOTOROLA

TEXT ENTRY SETTINGS & DICTIONARY

Choose your keyboard style and edit the dictionary of words your phone suggests:

Find it: Apps > **Settings** > **Language & input**

- To choose your display keyboard, touch **Default**.

Motorola input lets you enter text one letter at a time. As you type, your phone suggests words. If you enter a word that wasn't one of the suggestions, touch the completed word in the suggestion bar twice to add it to your dictionary for next time.

Swype™ lets you enter words with one continuous motion. Just drag your finger over the letters in the word. If Swype doesn't know a word, you can touch letters to enter it—then, touch the word in the suggestion bar, and touch **Add to dictionary** for next time.

- To change the preferences for your keyboards, touch next to a keyboard type. You can change the language, automatic punctuation, and more.
- To add or edit the words that your phone suggests and recognizes, touch **Personal dictionary**.

CUT, COPY & PASTE

Cut, copy, and past names, phone numbers, addresses, quotes, or anything else in a text box.

To highlight a word, double-tap it.
To highlight more, drag the arrows.

- 1 To highlight a word, double-tap it.
To highlight more words, drag the selector arrow at the edge of the highlight.
- 2 Touch the icons for cut or copy.
Tip: Touch and hold icons to show labels.
- 3 Open the text box where you want to paste the text (even if it's in a different app).
- 4 Touch in the text box, then touch and hold to show the **PASTE** option. Touch **PASTE** to paste the text.

QUICK START: MUSIC

Music everywhere, literally—stream it, play it. Listen and create playlists anytime.

Find it: Apps > **Play Music**

To access your Google Play™ Music app with a computer, visit www.play.google.com/music/listen.

TIPS & TRICKS

- **Go back:** When you open a song or artist list, touch in the top left to go back.
- **Shuffle or repeat:** During a song, touch to show shuffle and repeat at the bottom. Touch once to repeat the current song list, or twice to repeat only the current song.
- **Volume:** Press the volume keys.
- **Hide the music player:** To use another app while your music plays, touch Home . To return to the music player, flick down the status bar and touch the song title.
- **Home screen:** Control music playback from the home screen by adding the **Google Play Music** widget.
- **Shop:** Touch to shop for more music.
- **Playlists:** Touch and hold a song in your library to add it to a playlist or show other options. To edit, delete and rename a playlist, touch and hold its name in the music library.
- **During a flight:** Press and hold the Power key > **Airplane mode** to turn off all your network and wireless connections and listen to music during a flight.
- **File types:** Your phone can play MP3, M4A, AAC, AAC+, MIDI, and WAV files.

BOOKS

BLUETOOTH™ WIRELESS

TURN BLUETOOTH POWER ON/OFF

Find it: Apps > **Settings**, then touch the **Bluetooth** switch to turn it

Tip: To extend battery life or stop connections, turn the Bluetooth switch when you're not using it.

CONNECT DEVICES

The **first time** you connect a device, follow these steps:

- 1 Make sure the device you are pairing with is in discoverable mode (for details, refer to the guide that came with the device).
- 2 Touch Apps > **Settings** > **Bluetooth**.
- 3 Make sure the switch at the top is , then touch **SEARCH FOR DEVICES**.
- 4 Touch a found device to connect it (if necessary, touch **Pair** or enter a passkey like **0000**).

Tip: Touch next to a device to rename it.

When the device connects, the Bluetooth status indicator turns blue .

To automatically **disconnect** or **reconnect** a device anytime, just turn it off or on.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

MANAGE DEVICES

To manually reconnect your phone with a paired device, touch the device name in the **AVAILABLE DEVICES** list.

To manually disconnect your phone from a paired device, touch the device name in the devices list, then touch **OK**.

To remove a paired device, touch the next to the device name in the **PAIRED DEVICES** list, then touch **Unpair**.

Touch Apps > **Settings** > **Bluetooth**, turn Bluetooth power on, then touch Menu > **Rename phone**. Enter a name and touch **OK**.

LET DEVICES FIND YOUR PHONE

To let a Bluetooth device discover your phone:

- 1 Touch Apps > **Settings** > **Bluetooth**.
- 2 Touch **Only visible to paired devices** to make your phone visible to all devices for two minutes.

TRANSFER FILES

- **Photos or videos:** Open the photo or video, then touch > **Bluetooth**.
- **People:** Touch Apps > **People** > Menu > **Share contacts**, check what you want to share (you can choose **Unselect all**), then touch **OK** > **Bluetooth**.

WI-FI NETWORKS

TURN WI-FI POWER ON/OFF

Find it: Apps > **Settings**, then touch the **Wi-Fi** switch to turn it .

Note: To extend battery life, turn the Wi-Fi switch when you're not using it.

CONNECT TO NETWORKS

To find networks in your range:

1 Touch Apps > **Settings** > **Wi-Fi**.

Tip: To see your phone's MAC address and Wi-Fi settings, touch Menu > **Advanced**.

2 Make sure the switch at the top is , then touch **SCAN**.

3 Touch a found network to connect it (if necessary, enter **Network SSID**, **Security**, and **Wireless password**, and touch **Connect**).

When your phone connects, the Wi-Fi status indicator appears in the status bar.

Note: If you see a question mark in the Wi-Fi status indicator , pull down the status bar, touch the network, and enter the network's password.

Tip: When Wi-Fi power is on, your phone automatically reconnects to available networks it has used before

MANAGE NETWORKS

To remove a network, touch it in the list, then touch **Forget**.

To manage your networks, touch Apps > **Settings** > **Wi-Fi**, turn Wi-Fi power on, then touch Menu > **Manage Networks**.

WI-FI HOTSPOT

You can make your phone a Wi-Fi hotspot to provide portable, convenient internet access to other Wi-Fi enabled devices.

Note: Keep it secure. To protect your phone and hotspot from unauthorized access, it is strongly recommended that you set up hotspot **Security** (**WPA2** is the most secure), including password.

Find it: Apps > **Settings** > **Tethering & Mobile Hotspot** and check **Mobile Hotspot**.

1 Your phone turns off **Wi-Fi** power and uses the mobile network for Internet access. Touch **Mobile Hotspot Settings** > **Configure Mobile Hotspot** to set up security:

- **SSID**—Enter a unique name for your hotspot.
- **Security**—Select the type of security you want: **Open** or **WPA2**. For **WPA2**, enter a unique password that others will need to access your Wi-Fi hotspot.

Note: **WPA2** is recommended by IEEE.

- **Channel**—If you notice interference after your hotspot has been active for a while, try different channels.

2 Touch **Save** when the settings are complete.

When **Mobile Hotspot** is active, other Wi-Fi enabled devices can connect by entering your hotspot's **SSID**, selecting a **Security** type, and entering the correct **Wireless password**.

WI-FI MODES

For those who like to get a bit more technical, your phone supports the following Wi-Fi modes: 802.11a, b, g, n.

USB CABLES

Note: Copyright—do you have the right? Always follow the rules. See "**CONTENT COPYRIGHT**" in your legal and safety information.

To load music, pictures, videos, documents, or other files from your computer, connect your phone to your computer with a USB cable. To change the type of USB connection, touch Apps > **Settings** > **Storage** > Menu > **USB computer connection**.

- For Microsoft™ Windows™ XP, Windows Vista, and Windows 7: On your computer, choose Start, then select Windows Explorer from your list of programs. In Windows Explorer, your phone will appear as a connected drive (mass storage device) where you can drag and drop files, or it will appear as an MTP or PTP

device that lets you use Windows Media Player to transfer files. For more instructions or driver files, visit www.motorola.com/myrazrm.

- For Apple™ Macintosh™: Use Android File Transfer, available at www.android.com/filetransfer.

MEMORY CARD & FILE MANAGEMENT

Your photos, videos, and other files are automatically stored in your phone's internal memory.

Optional microSD memory cards can help store more files.

Tip: To move media from internal memory to a microSD card, touch Apps > **Settings** > **Storage** > **Manage internal storage**.

REMOVE OR ERASE A MEMORY CARD

Note: Do not remove a microSD memory card while your phone is using it or writing files on it.

Before you remove a microSD card you need to unmount it. Touch Apps > **Settings** > **Storage** > **Unmount SD card**.

To erase a microSD card, touch Apps > **Settings** > **Storage** > **Erase SD card**.

Warning: All data on the microSD card will be deleted.

USB CONNECTION

You can connect your phone to a computer with a USB cable.

Note: The first time you use a USB connection, your computer may indicate that drivers are being installed. Follow any prompts you see to complete the installation. This may take a few minutes.

- 1 With the home screen showing, connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer. Your phone should show  in the status bar.

Note: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer. To change the type of USB connection if necessary, touch Apps  >  **Settings** > **Storage** > Menu  > **USB computer connection** > **Mass Storage**, **Media device (MTP)** or **Camera (PTP)**.

- 2 Your phone and microSD memory card appear as two separate removable disks on your computer.

Drag and drop files between your computer and the phone or microSD card folders. When you're done, use "Safely Remove Hardware" before disconnecting the USB cable.

Note: You can't use files on the microSD card while your phone is connected to the computer.

SHARE YOUR DATA CONNECTION

Your computer can access the internet through your phone's mobile network—you just need a USB cable.

Tip: To share a Wi-Fi connection, see "**WI-FI HOTSPOT**".

- 1 Connect your phone to your computer using a USB cable.

Note: If your computer is running something older than Microsoft™ Windows™ 7 or Apple™ Macintosh™ OSX, it might require special configuration.

- 2 On your phone, touch Apps  >  **Settings**, then make sure the **Wi-Fi** switch is set to **OFF**.
- 3 In **Settings**, touch **Tethering & Mobile Hotspot**, then check **USB tethering** to start the connection.

To stop the connection, uncheck **USB tethering**, then disconnect your phone from your computer.

DATA USE

You can track and set limits on your data usage.

Note: Usage information is provided to help you manage your phone. This may not match the amounts charged by your service provider, as they're not measured in the same way.

Find it: Apps  >  **Settings** > **Data usage**

Your phone shows a data usage graph, followed by a list of the apps that are running, from highest data usage

down to least. Touch an app to open its details. Apps that use a lot of data might also use a lot of battery power.

The data usage screen shows information and settings for data transferred over your service provider's mobile network.

Tip: To track Wi-Fi and ethernet data usage in separate tabs, touch Apps > Settings > Data usage > Menu > Show Wi-Fi usage or Show Ethernet usage.

SET A DATA USAGE WARNING

Touch Apps > Settings > Data usage, then drag the right side of the orange bar up/down to set the data warning level. You'll receive a notification when your data usage reaches the specified level.

SET A DATA USAGE LIMIT

Touch Apps > Settings > Data usage > Set mobile data limit, then drag the right side of the red bar up/down to set the data usage limit.

When you reach your data usage limit, mobile data is turned off automatically and many of your phone's features won't work correctly. You'll receive a notification when mobile data is turned off.

RESTRICT BACKGROUND DATA

Some apps transfer data in the background, when you're not using them. You can restrict background data usage for individual apps to help reduce your overall data usage.

Touch Apps > Settings > Data usage, and scroll down to see which apps are transferring data over the mobile network. Touch an app, then touch **Restrict background data**.

You can also restrict background data for all apps across all available networks (mobile, Wi-Fi, and/or Ethernet).

Find it: Menu > System settings > Data usage > Menu > Restrict background data

Caution: Restricting all background data can cause some features to stop working.

NFC

Near Field Communication technology lets you instantly share content (like web links, contacts, and photos), information, and more, by touching the back of your phone to another NFC-enabled device.

ACTIVATE NFC & ANDROID BEAM™

To activate NFC on your phone, touch Apps  >  **Settings** > **More** > **NFC**. Make sure the checkbox is checked.

To activate Android Beam, touch Apps  >  **Settings** > **More** > **Android Beam**, then touch the power switch to turn it .

SHARE WITH ANDROID BEAM

Use Android Beam to share content on your phone with another NFC-enabled phone or tablet.

Note: The other device must support NFC too.

- 1 Open the screen that contains what you want to share—map page, browser page, photo, whatever.
- 2 Touch the back of your phone to the back of the other device.

When the devices connect, you'll see **Touch to Beam** on your phone.

- 3 Touch your screen to share your content.

RECEIVE WITH NFC

Receive web links, e-coupons, brochures, maps and more from an NFC tag. Look for the NFC logo on posters, signs, store displays and other areas. Just touch the back of your phone to the logo to receive its tag information.

BLUETOOTH & WI-FI ONE-TOUCH SETUP

Just touch your phone to an NFC-enabled Bluetooth device or Wi-Fi access point to automatically pair or connect with the device.

MOBILE PAYMENT

You can use Google Wallet™ or another secure payment app to pay for your purchase (where available).

Look for the NFC logo to confirm that you can make a mobile payment. Touch the back your phone to the payment device to pay for your purchase.

*This is not available in Australia.

SECURITY

Mobile payments, wireless connections, and content sharing all demand security:

- **Range:** NFC only works over a short range (about 4 cm/1.5 inches), so it's unlikely you'll connect by

PHONE & TABLET

Your Android™ phone and tablet can work together to help you get the most out of both:

- **Your cloud:** Access to all your stuff on both devices. See "**YOUR CLOUD**".
- **Transfer media and files:** Upload files to your "**GOOGLE DRIVE™**" from any Android device on your Google account, or you can copy files to your phone's memory card and transfer it to other devices with "**MEMORY CARD & FILE MANAGEMENT**".
- **Phone hotspot:** If you have a Wi-Fi tablet, turn your phone into a Wi-Fi hotspot to let your tablet access the Internet anywhere—see "**WI-FI HOTSPOT**".
- **Bluetooth accessories:** If you have a Bluetooth keyboard or other accessories to use with your tablet, remember you can use them with your phone too. To connect them, see "**BLUETOOTH™ WIRELESS**".

DLNA™ MEDIA DEVICES

Use DLNA Certified computers, TVs, and other devices to show the videos and pictures stored on your phone.

- 1 Make sure your phone is connected to a Wi-Fi network that has another DLNA Certified device.
- 2 Touch Apps ⋮ > **Gallery**, then open the picture or video you want to show.

- 3 Touch at the top of the screen.

Your phone searches for DLNA devices on your network.

- 4 Choose a device to connect.

To turn on media share so other DLNA Certified devices on your Wi-Fi network can view the videos and pictures stored on your phone, touch Apps ⋮ > **Settings** > **More** > **Media share settings** > **Media share**.

For more about DLNA devices, visit www.dlna.org.

VIRTUAL PRIVATE NETWORKS (VPN)

A VPN lets you access files on a secured network (like an office network with a firewall). Contact the network administrator to ask for VPN settings, and any additional apps or other requirements.

To enter VPN settings, touch Apps ⋮ > **Settings** > **More...** > **VPN**. Choose the type of VPN and enter settings from the network administrator. The network is stored in the **VPN** list so that you can select it whenever you need to connect.

MOBILE NETWORK

You should not need to change any network settings. Contact your service provider for help.

Touch Apps ⋮ > **Settings** > **More...** > **Mobile networks** to see network settings options.

AIRPLANE MODE

AIRPLANE MODE

Use airplane mode to turn all your wireless connections off—useful when flying. Press and hold the Power key > **Airplane mode**.

Note: When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth power back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region's emergency number can still be made.

PROTECT

QUICK START: PROTECT

SCREEN LOCK

SIM LOCK

ENCRYPT YOUR PHONE

BACKUP & RESTORE

RESET

QUICK START: PROTECT

Make sure your information is protected, in case your phone is lost or stolen.

Find it: Apps > **Settings** > **Security & Screen Lock**

The easiest way to protect your phone is to use **Screen lock**. You can choose facial recognition, a pattern, or a PIN to unlock your phone.

Change your screen lock to use a slide, facial recognition, a pattern, PIN, password, or no lock.

Your info can show on the lock screen.

Encrypt the data stored on your phone or memory card.

TIPS & TRICKS

- **Face unlock:** Unlock your phone by looking at it! Touch Apps > **Settings** > **Security & Screen Lock** > **Screen lock** > **Face Unlock** and follow the prompts.
- **Forgotten pattern:** If you enter the wrong unlock **Pattern** five times, your device shows a **Forgot pattern?** option that lets you enter your Google™ account email and password to unlock your device.
- **Forgotten password:** You will need to reset your phone (see "**RESET**").
- **Restrict dialing:** To restrict your phone so that it can only dial a few numbers, touch Apps > **Phone** > Menu > **Settings** > **Fixed dialing numbers**.

Menu

PROTECT

PROTECT

QUICK START: PROTECT

SCREEN LOCK

SIM LOCK

ENCRYPT YOUR PHONE

BACKUP & RESTORE

RESET

SCREEN LOCK

To keep your phone secure, you can make the touchscreen lock when it goes to sleep.

Find it: Apps  >  **Settings** > **Security & Screen Lock** > **Screen lock**, then select the lock type:

- **None:** Turn off the screen lock.
- **Slide:** Flick  to the right to unlock.
- **Face Unlock:** Look at your phone to unlock it.

Follow the prompts to capture your face and enter a PIN or password (for backup or to change the lock setting). When the screen is dark, press the Power key, then frame your face in the square at the bottom to unlock.

Note: This feature is less secure than a pattern, PIN, or password.

- **Pattern:** Draw a pattern to unlock.
- **PIN:** Enter four to sixteen digits to unlock.
- **Password:** Enter four to sixteen letters, digits, or symbols to unlock.

To change when your touchscreen goes to sleep, see “**POWER KEY**”.

Note: You can make emergency calls on a locked phone (see “**EMERGENCY CALLS**”). A locked phone still rings, **but you need to unlock it to answer.**

CAN'T UNLOCK?

Face unlock: If your phone doesn't recognize your face, you'll be prompted to enter your backup pattern or PIN code to unlock it.

Pattern, PIN, or password: If you forget your pattern, PIN, or password, your device shows an option that lets you enter your Google™ account email and password to unlock your device.

SIM LOCK

Caution: If you enter an incorrect PIN code three times, your phone locks your SIM card and asks for your PIN unlock code. Contact your service provider for your PIN unlock code.

To set a SIM card PIN that you must enter when you turn on your phone:

Find it: Apps  >  **Settings** > **Security & Screen Lock** > **Set up SIM card lock** > **Lock SIM card**

To set your SIM PIN, enter a 4-digit code. To change your code, choose **Change SIM PIN**.

ENCRYPT YOUR PHONE

Caution: If you forget your encryption code, you cannot recover the data stored on your phone or memory card. Encrypting your files can take an hour or more. Leave your phone plugged in, and be careful not to interrupt the process.

Encryption protects the accounts, settings, apps, and files on your phone, so that people cannot access them if your phone is stolen.

To encrypt your phone and require a PIN or password whenever you turn on your phone:

Find it: Apps > **Settings** > **Security & Screen Lock** > **Encrypt phone**

BACKUP & RESTORE

Your Google™ account data is backed up online. So, if you reset or replace your phone, just log into your Google account to restore the contacts, events, and other details you synced with the account. To choose what syncs with the account, touch Apps > **Settings** > **Accounts & sync**, touch your Google™ account, and check things to sync. Please note that text messages, call logs, and items stored on your phone will not be restored. To restore your apps from Google Play™, see “**TAKE CARE OF YOUR APPS**”.

RESET

To reset your phone to factory settings and erase all the data on your phone, touch Apps > **Settings** > **Privacy** > **Factory Data Reset** > **Reset Phone**.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Battery Use & Safety

The following battery use and safety information applies to all Motorola mobile devices. **If your mobile device uses a non-removable main battery** (as stated in your product information), **details related to handling and replacing your battery should be disregarded**—the battery should only be replaced by a Motorola-approved service facility, and **any attempt to remove or replace your battery, unless performed by a service representative, may damage the product and void your warranty.** **Important: Handle and store batteries properly to avoid injury or damage.** Most battery safety issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

- **Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.**
- **Don't use tools, sharp objects, or excessive force to insert or remove the battery as this can damage the battery.**
- **Don't let the mobile device or battery come in contact with liquids.*** Liquids can get into the mobile device's circuits, leading to corrosion.
- **Don't allow the battery to touch metal objects.** If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
- **Don't place your mobile device or battery near a heat source.*** High temperatures can cause the battery to swell, leak, or malfunction.
- **Don't dry a wet or damp battery with an appliance or heat source,** such as a hair dryer or microwave oven.

DOs

- **Do avoid leaving your mobile device in your car in high temperatures.***
- **Do avoid dropping the mobile device or battery.*** Dropping these items, especially on a hard surface, can potentially cause damage.*
- **Do contact your service provider or Motorola if your mobile device or battery has been damaged in any of the ways listed here.**

* **Note:** Always make sure that any battery, connector and compartment covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your **mobile device** can resist damage from these conditions.

Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola's warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers. To help you identify authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a "Motorola Original" hologram.

If you see a message on your display such as **Invalid Battery** or **Unable to Charge**, take the following steps:

- Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram;
- If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorized service center.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. You can recycle your used batteries in many retail or service provider locations. Additional information on proper disposal and recycling can be found at www.motorola.com/recycling

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery Charging

Notes for charging your product's battery:

- During charging, keep your battery and charger near room temperature for efficient battery charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Third Party Accessories

Use of third party accessories, including but not limited to batteries, chargers, headsets, covers, cases, screen protectors and memory cards, may impact your mobile device's performance. In some circumstances, third party accessories can be dangerous and may void your mobile device's warranty. For a list of Motorola accessories, visit www.motorola.com/products

Driving Precautions

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction, and may be prohibited or restricted in certain areas—always obey the laws and regulations on the use of these products.

COPYRIGHT & TRADEMARKS

While driving, NEVER:

- Type, read, enter or review texts, emails, or any other written data.
- Surf the web.
- Input navigation information.
- Perform any other functions that divert your attention from driving.

While driving, ALWAYS:

- Keep your eyes on the road.
- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device **before** driving.
- Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available.
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
- End your call or other task if you cannot concentrate on driving.

Remember to follow the “Smart Practices While Driving” at www.motorola.com/callsmart (in English only).

Seizures, Blackouts & Eyestrain

To reduce eyestrain and avoid headaches, it is always a good idea to hold the screen at a comfortable distance from your eyes, use in a well-lit area, and take frequent breaks.

Some people may be susceptible to seizures or blackouts (even if they have never had one before) when exposed to flashing lights or light patterns, such as when playing video games, or watching videos with flashing-light effects.

Discontinue use and consult a physician if any of the following symptoms occur: seizures, blackout, convulsion, eye or muscle twitching, loss of awareness, or disorientation.

If you or someone in your family has experienced seizures or blackouts, please consult with your physician before using an application that produces flashing-light effects on your mobile device.

Caution About High Volume Usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our website at

<http://direct.motorola.com/hellomoto/nss/AcousticSafety.asp> (in English only).

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

Children

Keep your mobile device and its accessories away from small children. These products are not toys and may be hazardous to small children. For example:

- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Supervise access for older children. Similar to a computer, if an older child does use your mobile device, you may want to monitor their access to help prevent:

- Exposure to inappropriate apps or content.
- Improper use of apps or content.
- Loss of data.

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Areas

Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries, unless it is a radio product type especially qualified for use in such areas and certified as “Intrinsically Safe” (for example, Factory Mutual, CSA, or UL approved). In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, or mobile device may contain symbols, defined as follows:

Symbol	Definition
	Important safety information follows.
	Do not dispose of your battery or mobile device in a fire.
	Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.
	Do not dispose of your battery or mobile device with your household waste. See “Recycling” for more information.
	Do not use tools.
	For indoor use only.
	Listening at full volume to music or voice through a headset may damage your hearing.

Radio Frequency (RF) Energy

Exposure to RF Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits. Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions

For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:

- When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
- If you wear the mobile device on your body, ensure that the device is positioned at least 2.5 cm (1 inch) away from the body, and if you use an accessory case or holder, ensure it is free of any metal.

Government of India

The Government of India requires the following information to be provided as a measure of precaution:

- Use a wireless handsfree system (headphone, headset) with a low power Bluetooth emitter.
- Make sure the mobile device has a low SAR value.
- Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women.
- Use the mobile device when the signal quality is good.

Motorola emphasizes that it has never been proven that non-compliance with these recommendations, or the use of a mobile device in general, are likely to produce effects that could be detrimental to the health of users. The inclusion of these recommendations does not reflect the opinion of Motorola, but is done so in compliance with government requirements.

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn off your mobile device in any location where posted notices instruct you to do so, such as hospitals or health care facilities.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Medical Devices

If you have a medical device, including an implantable medical device such as a pacemaker or defibrillator, consult your healthcare provider and the device manufacturer's directions before using this mobile device.

Persons with implantable medical devices should observe the following precautions:

- ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned ON.
- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Regulatory Information

Your Motorola mobile device is designed to comply with national and international regulatory requirements. For full compliance statements and details, please refer to the regulatory information in your printed product guide.

Location Services

The following information is applicable to Motorola mobile devices that provide location based functionality. Location sources can include GPS, AGPS and Wi-Fi.

Your mobile device can use *Global Positioning System* (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device.

Your mobile device can also use *Assisted Global Positioning System* (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider's network and therefore airtime, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details. Your mobile device can also use *Wi-Fi* signals to determine your approximate location, using information from known and available Wi-Fi networks.

Your Location

Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Devices enabled with location technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls

When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and **might not work in your area**. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the phone for as long as the emergency responder instructs you.

Navigation

The following information is applicable to Motorola mobile devices that provide navigation features.

When using navigation features, note that mapping information, directions and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Privacy & Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Use your device's security and lock features, where available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.

- **Secure Personal Information**—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.
Note: For information on how to backup or wipe data from your mobile device, go to www.motorola.com/support
- **Online accounts**—Some mobile devices provide a Motorola online account (such as MOTOBLUR). Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- **Applications and updates**—Choose your apps and updates carefully, and install from trusted sources only. Some apps can impact your phone's performance and/or have access to private information including account details, call data, location details and network resources.
- **Wireless**—For mobile devices with Wi-Fi features, only connect to trusted Wi-Fi networks. Also, when using your device as a hotspot (where available) use network security. These precautions will help prevent unauthorized access to your device.
- **Location-based information**—Mobile devices enabled with location based technologies such as GPS, AGPS or Wi-Fi, can transmit location-based information. See "Location Services" for more details.
- **Other information your device may transmit**—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. This information is used to help improve products and services offered by Motorola.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

Use & Care

To care for your Motorola mobile device, please observe the following:

liquids

Don't expose your mobile device to water, rain, extreme humidity, sweat, or other liquids.

drying

Don't try to dry your mobile device using a microwave oven, conventional oven, or dryer, as this may damage the mobile device.

extreme heat or cold

Don't store or use your mobile device in temperatures below -10°C (14°F) or above 60°C (140°F). Don't recharge your mobile device in temperatures below 0°C (32°F) or above 45°C (113°F).

dust and dirt

Don't expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.

cleaning

To clean your mobile device, use only a dry soft cloth. Don't use alcohol or other cleaning solutions.

shock and vibration

Don't drop your mobile device.

protection

To help protect your mobile device, always make sure that any battery, connector and compartment covers are closed and secure.

Recycling

Mobile Devices & Accessories

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at:

www.motorola.com/recycling

Packaging & Product Guides

Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

The Motorola website opensource.motorola.com (in English only) also contains information regarding Motorola's use of open source.

Motorola has created the opensource.motorola.com website to serve as a portal for interaction with the software community-at-large.

To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please go to Apps > **Settings** > **About phone** > **Legal information**

> **Open source licenses**. In addition, this Motorola device may include

self-contained applications that present supplemental notices for open source packages used in those applications.

Service & Repairs

If you have questions or need assistance, we're here to help.

Go to www.motorola.com/support, where you can select from a number of customer care options. For Australia and New Zealand users, you can also contact the Motorola Customer Support Center at 1300 138 823 (Australia) or 0508 6686 7652 (New Zealand).

How to Obtain Service or Other Information

1. Please access and review the online Customer Support section of Motorola's consumer website prior to requesting warranty service.
2. If the Product is still not functioning properly after making use of this resource, please contact the Warrantor listed at the Motorola website or the contact information for the corresponding location.
3. A representative of Motorola, or of a Motorola Authorized Repair Center, will help determine whether your Product requires service. You may be required to download, or otherwise obtain and accept software updates from Motorola or a Motorola Authorized Repair Center. You are responsible for any applicable carrier service fees incurred while obtaining the required downloads. Complying with the warranty process, repair instructions and accepting such software updates is required in order to receive additional warranty support.
4. If the software update does not fix the problem, you will receive instructions on how to ship the Product to a Motorola Authorized Repair Center or other entity.
5. To obtain warranty service, as permitted by applicable law, you are required to include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase; (b) a written description of the problem; (c) the name of your service provider, if applicable; (d) your address and telephone number. In the event the Product is not covered by the Motorola Limited Warranty, Motorola will inform the consumer of the availability, price and other conditions applicable to the repair of the Product.

To obtain service or other information, please access and review the online Customer Support section of Motorola's consumer website at www.motorola.com.
