Android je blagovna znamka družbe Google LLC
Ime proizvajalca: Shenzhen Jurgit Intelligent Technology Co., Ltd (Družba z omejeno odgovornostjo)/Naslov proizvajalca: STRAN A A2, STAVBA 2 / F, NOVI INDUSTRIJSKI PARK (NET. ST. ZINDUSTRIJSKA CONA DAFU, SKUPNOST ADBEI, GUANGUANG, NOVO OMOČJE LONGHUA, SENZEN, KITAJSKA)/Proizvajalec: SHENZHEN YUNBI INTELLIGENT TECHNOLOGY CO.,LTD. (DRUŽBA Z OMEJENO ODGOVORNOSTJO)

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
Specific Absorption Rate (SAR) information:
This Mobile Phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.
requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
Body-worn Operation
This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
