Getting Started

Assembly, SIM card, battery, turning on, help, calls.

Assembly

To use your phone

- 1 Insert the SIM card and the battery.
- 2 Charge the battery.
- 3 Turn on your phone.

SIM card

When you register as a subscriber with a service provider, you get a SIM (Subscriber Identity Module) card. The SIM card contains a computer chip that keeps track of items such as your phone number, the services included in your subscription, and names and numbers in your contacts.

 *Save contact information on your SIM card before removing it from another phone; for example, you may have saved contacts in the phone memory.*

PIN

You may need a PIN (Personal Identity Number) for your SIM card to start your phone and activate services. When you enter your PIN, each digit appears as *, unless it starts with the same digits as an emergency number, for example 112. This allows for emergency calls without entering a PIN. Press  to correct mistakes.

 *If you enter the wrong PIN three times in a row, **PIN Blocked** appears. To unblock it, you need to enter your PUK (Personal Unblocking Key) ➡ 80 SIM Card Lock.*

Battery

Some functions use more battery power than others and may cause a need for more frequent re-charging. If talk time or standby time becomes noticeably shorter, you may have to replace the battery. Only use approved batteries from Sony Ericsson ➡ 90 Battery.

SIM Card and Battery

To insert SIM card and battery

- 1 Remove the battery cover.
- 2 Slide the SIM card into its holder with the contacts facing down.
- 3 Insert the battery with the label side up and the connectors facing each other.
- 4 Slide the battery cover into place.

To charge the battery

- 1 Connect the charger plug to the phone with the symbol facing upwards.
- 2 It may take up to 30 minutes before the battery icon appears.
- 3 Wait approximately 2.5 hours or until the battery icon indicates a full charge. Press a key to activate the screen.
- 4 Remove the charger by tilting the plug downwards.

To remove the battery

- 1 Remove the battery cover.
- 2 Insert your thumbnail into the groove to remove the battery.

Turning Your Phone On and Off

Make sure the phone is charged and the battery and a SIM card are inserted before you turn on your phone. Use the setup wizard to quickly and easily prepare for use.

To turn on the phone

- 1 Press and hold . The first startup may take a few minutes.
- 2 Select to use the phone in:
 - **Normal Mode** – full functionality or
 - **Flight Mode** – limited functionality with network transceivers off **9 Flight Mode Menu.**
- 3 Enter your SIM card PIN, if requested.
- 4 At first startup, select the language for your phone menus.
- 5 ► **Yes** for the setup wizard to help you.
- 6 Follow instructions to complete setup.

 *If predefined settings exist in your phone, you may not need more settings. If asked to register the phone at Sony Ericsson, no personal data, such as your phone number, will be transferred to or processed by Sony Ericsson if you accept to register your phone.*

To turn off the phone

In standby press and hold .

Standby

After you have turned on the phone and entered your PIN, the name of the service provider will appear on the display. This is called standby mode.

Help in Your Phone

Help and information is available in your phone at any time.

Using keypad shortcuts

In standby, go to menus by pressing  and then enter the number of the menu. Menu numbering starts from the top left icon and moves across and then down row by row, for example, press **(5)** for the fifth menu item. For the tenth, eleventh and twelfth items, press **(*)a/Ans**, **(0)+** and **(#)l** respectively. To go back to standby, press and hold **(←)**.

Using navigation key shortcuts

In standby, go to a shortcuts menu or function by pressing , ,  or .

To edit a navigation key shortcut

From standby select **Menu ► Settings ► the General tab ► Shortcuts** and select a shortcut ► **Edit**.

Phone Language

Select the language to use in the phone menus or when writing text.

To change the phone language

From standby select **Menu**
► **Settings** ► the **General** tab
► **Language** ► **Phone Language**.
Select a language.

In standby, you can also press 8888 for automatic language.
 0000 for English.

Most SIM cards automatically set the menu language to the country where you bought your SIM card. If not, the predefined language is English.

To select writing language

- 1 From standby select **Menu**
► **Settings** ► the **General** tab
► **Language** ► **Writing Language**.
- 2 Scroll to the language to use and mark it. ► **Save** to exit the menu.

Entering Letters

Enter letters in one of the following ways (text input methods), for example, when writing messages:

- Multitap text input
- T9™ Text Input.

To change the text input method

Before, or when entering letters, press and hold to change the method.

Options when entering letters

► **More** for options when writing a message.

To enter letters using multitap input

- Press – repeatedly until the desired character appears.
- Press to shift between capital and lower-case letters.
- Press and hold – to enter numbers.
- Press to delete letters or numbers.
- Press repeatedly for the most common punctuation marks.
- Press to add a space.

T9™ Text Input

The T9 Text Input method uses a built-in dictionary to recognize the most commonly used word for each sequence of key presses. This way, you press each key only once, even if the letter you want is not the first letter on the key.

To enter letters using T9 Text Input

- 1 For example, to write the word “Jane”, press (5), (2), (6), (3).
- 2 If the word shown is the one you want, press (#_) to accept and add a space. To accept a word without adding a space, press (). If the word shown is not the one you want, press () or () repeatedly to view alternative words. Accept a word and add a space by pressing (#_).
- 3 Continue writing the message. To enter a punctuation mark, press (1∞) and then () or () repeatedly, press (#_) to accept and add a space.

To add words to the T9 Text Input dictionary

- 1 When entering letters ► More ► Spell Word.
- 2 Edit the word by using multitap input. Use () and () to move the cursor between the letters. To delete a character, press (C). To delete the entire word, press and hold (C). When you have edited the word ► Insert. The word is added to the T9 Text Input dictionary. Next time you enter this word using T9 Text Input, it appears in alternative words.

Next word prediction

When writing a message, you can use T9 Text Input to predict the next word, if previously used in a sentence.

To turn next word prediction on/off

When entering letters ► More ► Writing Options ► Next Word Pred.

To use next word prediction

When entering letters, press (#_) to accept and continue.

Activity Menu

You can open the activity menu almost anywhere in the phone to view and handle new events, and access bookmarks and shortcuts.

To open and close the activity menu

Press ().

Activity menu tabs

- **New Events** – such as missed calls and messages. When a new event occurs, the activity menu appears. Press (C) to dismiss an event from the event tab. New events can also be set to appear as pop-up text instead, ► Settings ► the General tab ► New Events ► Popup.

- **Running Apps** – applications that are running in the background. Select an application to return to it or press **C** to end it.
- **My Shortcuts** – add, delete and change the order of shortcuts. When you select a shortcut and the application opens, other programs are closed or minimized.
- **Internet** – your Internet bookmarks. When you select a bookmark and the browser opens, other programs are closed or minimized.

File Manager

Use the **File Manager** to handle items such as pictures, videos, music, themes, Web pages, games and applications saved in the phone memory or on a memory card.

Memory Stick Micro™ (M2™)

Your phone supports Memory Stick Micro™ (M2™) memory card adding more storage space to your phone to save files containing pictures or music, for example. It can also be used as a portable memory card with other compatible devices.

To insert and remove a memory card

- 1 Open the cover and insert as shown.
- 2 Press the edge to release and remove. You can also move and copy files between the phone, a computer and a memory card.

Create subfolders to move or copy files to. Games and applications can be moved within the **Games** and **Applications** folders and from the phone memory to a memory card. Unrecognized files are saved in the **Other** folder. When handling files, you can select several or all files in a folder at the same time for all items except **Games** and **Applications**.

If all available memory is full, you cannot save any files until content is removed.

File manager menu tabs

The file manager is divided into three tabs, and icons are included to indicate where the files are saved.

- **All Files** – all content in the phone memory and on a memory card.
- **On Memory Stick** – all content on a memory card.
- **In Phone** – all content in the phone memory.

File information

View file information by highlighting it ► **More** ► **Information**. Items that are downloaded, or received using one of the available transfer methods, may be copyright-protected. If a file is protected, you may not be able to copy or send that file. A DRM-protected file has a key symbol.

To use a file from the file manager

- 1 From standby select **Menu** ► **File Manager** and open a folder.
- 2 Scroll to a file ► **More**.

To move or copy a file to memory

- 1 From standby select **Menu** ► **File Manager** and select a folder.

Calling

Calls, video calls, contacts, voice control, call options.

Making and Receiving Calls

Before you can make or receive any calls, you must turn on your phone and be within range of a network.

➤ *7 Turning Your Phone On and Off.*
To make a video call ➤ *23 Video Call.*

Networks

When you turn on the phone, it automatically selects your home network if this is within range. If it is not within range, you may use another network, provided your service provider has an agreement that allows you to do so. This is called roaming.

Select the network to use, or you can add a network to your preferred networks. You can also change the order in which networks are selected during an automatic search.

To view available network options

From standby select **Menu**
► **Settings** ► the **Connectivity**
tab ► **Mobile Networks**.

Your phone also switches automatically between GSM and 3G (UMTS) networks depending on availability. Some service providers allow you to switch networks manually, as searching for unavailable networks consumes battery power.

To switch networks

- 1 From standby select **Menu** ► **Settings** ► the **Connectivity** tab ► **Mobile Networks** ► **GSM/3G Networks**.
- 2 ► **GSM and 3G (automatic)** or ► **GSM Only**.

For more information, contact your service provider.

To make a call

- 1 Enter a phone number (with international country code and area code, if applicable).
- 2 ► **Call** to make a voice call or ► **More** to view options, such as **Make Video Call** ➤ 23 *Video Call*.
- 3 ► **End Call** to end the call.

 You can call numbers from your contacts and call list ➤ 25 *Contacts*, and ➤ 28 *Call List*. You can also use your voice to make calls ➤ 29 *Voice Control*.

To make international calls

- 1 Press  until a + sign appears.
- 2 Enter the country code, area code (without the first zero) and phone number ► **Call** to make a voice call or ► **More** ► **Make Video Call**.

To redial a number

If a call connection fails and **Retry?** appears ► **Yes**.

 Do not hold the phone to your ear when waiting. When the call connects, the phone gives a loud signal, unless muted.

To answer or reject a call

► **Answer** or ► **Busy**.

To turn off the microphone

- 1 Press and hold .
- 2 To resume the conversation press and hold  again.

To turn the loudspeaker on or off during a call

► **More** ► **Turn On Speaker** or **Turn Off Speaker**.

 Do not hold the phone to your ear when using the loudspeaker. This could damage your hearing.

To change the ear speaker volume

Press  to increase or  to decrease the ear speaker volume during a call.

Missed calls

When the activity menu is set to default missed calls appear in the **New Events** tab in standby. If pop-up is set to default **Missed calls:** appears in standby
■ 18 Activity Menu.

To check missed calls from standby

- If pop-up is set to default: ► **Calls** ► the **Missed** tab. Scroll  or  to select a number ► **Call** to call.
- If activity menu is set to default: Press  and use  or  to scroll to the **New Events** tab and use  or  to select a number ► **Call** to call.

Emergency Calls

Your phone supports international emergency numbers, for example, 112, 911. These numbers can normally be used to make emergency calls in any country, with or without a SIM card inserted, if a 3G (UMTS) or GSM network is within range.

 *In some countries, other emergency numbers may also be promoted. Your service provider may therefore have saved additional local emergency numbers on the SIM card.*

To make an emergency call

Enter 112 (the international emergency number) ► **Call**.

To view your local emergency numbers

From standby select **Menu**
► **Contacts** ► **More** ► **Options**
► **Special Numbers** ► **Emergency Nos.**

Video Call

See a person on screen during calls.

Before you start

To make a video call, both you and the person you are calling need a subscription that supports the 3G (UMTS) service, and you need to be within range of a 3G (UMTS) network. 3G (UMTS) service is available when the 3G icon appears in the status bar.

Video call demo mode

You can use most video call functions without making a call, for example, to prepare a camera view before calling. From standby select **Menu** ► **Organizer** ► **Video Call**.

To make a video call

When 3G (UMTS) service is available, you can make a video call in one of the following ways:

- Enter a phone number (international prefix and area code if applicable)
► More ► Make Video Call.
- From standby select Menu
► Contacts and select the contact to call. Use ⏪ or ⏩ to select a number
► More ► Make Video Call.
- From standby select Menu
► Organizer ► Video Call ► Call....
► Contacts to retrieve a phone number ► Call or enter a phone number ► Call.

To zoom the outgoing video in or out

Press ⏪ to zoom in the outgoing video and press ⏩ to zoom out.

To accept an incoming video call

► Answer.

To end a video call

► End Call.

 - **Brightness** – adjust the level for the outgoing picture.
 - **Turn On Night M.** – use when lighting conditions are poor. This setting affects the outgoing video.
- **Sound – options during a video call**
 - **Turn Off Speaker/Turn on Speaker** – incoming sound.
 - **Mute Mic./Unmute Mic.** – microphone off or on.
 - **Transfer Sound** – to and from Bluetooth handsfree equipment.
- **Layout – options**
 - **Switch Pictures** – show incoming or outgoing video in full size view.
 - **Hide Small Pic./Show Small Pic.**
 - **Mirror Image** – show the outgoing camera picture.

- **Settings** – when answering
 - **Answer Mode** – set the video call camera to on or off.
 - **Alternative Pict** – set a picture to show to the recipient when the camera is off.
 - **Audio Options** – select if microphone, speaker phone, or both should be on or off.
 - **Video Quality** – select picture quality for video calls. Changes do not take effect during an ongoing call.

Contacts

You can save your contact information in the phone memory or on a SIM card. The following is available:

You can choose which contact information – **Phone Contacts** or **SIM Contacts** – is shown as default.

For useful information and settings, from standby select **Menu** ► **Contacts** ► **More** ► **Options**.

Email

Read your email messages in your phone at any time. Write a message, attach a high-resolution camera picture, sound recording or video clip, and send it to your friends or colleagues. You can also reply to and forward email in your phone, just as you can on your computer.

The email address that you use on your computer can also be used in your phone. To do this, your phone needs the same email settings as used by your computer for email address. To use your computer email address in your phone, do one of the following:

- **Receive settings automatically**

The easiest way is to have settings sent directly to your phone. Use Internet on your computer to go to www.sonyericsson.com/support.

- **Enter settings manually**

- Ask your email provider for settings information. An email provider is the person or company who provided your email address, for example, your IT administrator at work or an Internet provider, or
- you may have a document at home from your email provider with the settings information, or
- you may find the information in your computer email program settings.

Bluetooth™ Wireless Technology

The Bluetooth function makes wireless connection to other Bluetooth devices possible. You can:

- connect to handsfree devices.
- connect to stereo headsets.
- connect to several devices at the same time.
- connect to computers and access the Internet.
- synchronize information with computers.
- use remote control computer applications.
- use media viewer accessories.
- exchange items and play multiplayer games.

Before you start

- Turn on the Bluetooth function to communicate with other devices.
- Add Bluetooth devices to your phone to communicate with.

 Please verify whether local laws or regulations restrict the use of Bluetooth wireless technology. If Bluetooth wireless technology is not allowed, you must ensure that the Bluetooth function is turned off. The maximum allowed Bluetooth radio output power in the phone is automatically adjusted according to possible local restrictions. This means range may vary.

To turn the Bluetooth function on

From standby select **Menu ► Settings ► the Connectivity tab ► Bluetooth ► Turn On.**

Adding devices to your phone

Enter a passcode to setup a secure link between your phone and the device. Enter the same passcode on the device when prompted. A device with no user interface, such as a handsfree, will have a predefined passcode. See the device User guide for more information.

 Make sure that the device you want to add has the Bluetooth function activated and is visible.

To add a device to your phone

- 1 From standby select **Menu ► Settings ► the Connectivity tab ► Bluetooth ► My Devices ► New Device** to search for available devices. Make sure the other device is visible.

File transfer

If your computer supports Bluetooth wireless technology, you can install the Sony Ericsson PC Suite to synchronize, transfer files, use the phone as modem and more via Bluetooth communication. Install the Sony Ericsson PC suite from the CD that came with your phone or download it from www.sonyericsson.com/support.

Transferring Files Using the USB Cable

Connect your phone to a computer, via the USB cable, to transfer files and synchronize. Select either **File Transfer** or **Phone Mode** depending on what you want to do. To transfer files use **File Transfer** and to synchronize use **Phone Mode**.

USB drivers are installed automatically with the PC suite software.

To start using the PC suite

- 1 **Computer:** Install the Sony Ericsson PC suite from the CD that came with your phone or download it from www.sonyericsson.com/support.
- 2 **Computer:** Start PC suite from *Start/Programs/Sony Ericsson/PC suite*.
- 3 Connect the USB cable to the phone and the computer.
- 4 **Phone:** Select **Phone Mode** or **File Transfer**.
- 5 **Computer:** Wait while Windows installs the required drivers.
- 6 **Computer:** When PC suite has found your phone you are notified.
Applications that you can use with your connected phone are found in the Sony Ericsson PC suite. Applications that need to be installed can be found on the CD that came with your phone or can be downloaded from www.sonyericsson.com/support.

File transfer

Transfer files, music or pictures when in **File Transfer**. Applications supported in file transfer mode include: Disc2Phone, Adobe™ Photoshop™ Album Starter Edition and QuickTime™ player.

Only use the USB cable that came with the phone, and connect the USB cable directly to your computer. Do not remove the USB cable from the phone or computer during transfer, as this may corrupt the memory card. You cannot view the transferred files in your phone until you have removed the USB cable from the phone.

To use file transfer mode

- 1 Connect the USB cable to the phone and the computer.

- 2 **Phone:** Select **File Transfer**, the phone shuts down.
- 3 Wait until your phone memory and memory card, if inserted, appear as external disks in Windows Explorer.

To disconnect the USB cable safely

- 1 When using file transfer mode, right-click the removable disk icon in Windows Explorer and select Eject.
- 2 Remove the USB cable from your phone.

Phone mode

You can synchronize contacts and calendar, transfer files, use the phone as modem with your computer. Applications supported in phone mode include: Synchronization, File manager, Mobile Networking Wizard, Image Editor and MMS Home Studio.

 *Your computer needs to have one of the following operating systems to be able to use this feature: Windows 2000 with SP3/SP4, Windows XP (Pro and Home) with SP1/SP2.*

Update Service

Always keep your phone updated with the latest software to improve performance. You do not lose personal or phone information, for example messages or settings during an update.

There are two ways to update your phone:

- over the air via your phone
- via the provided USB cable and an Internet-connected computer.

The update service requires data access (GPRS). Your operator will provide you with a subscription with data access and price information.

Before you start

If required settings are not in your phone ➡ **64 Settings**.

To use Update service over the air

- 1 From standby select **Menu** ► **Settings** ► the **General** tab ► **Update Service**.
- 2 ► **Search For Update** to search for the latest available software. Start the update process by following the installation instructions, or ► **Software Version** to show the current software in your phone, or ► **Reminder** to set when to search for new software.

To use Update service via a computer

- 1 Visit www.sonyericsson.com/support.
- 2 Select a region and country.
- 3 Enter the product name.
- 4 Select Sony Ericsson Update Service and follow the instructions that appear.

SIM Card Lock

The SIM card lock protects your subscription, but not the phone itself, from unauthorized use. If you change SIM cards, your phone still works with the new SIM card.

Most SIM cards are locked at the time of purchase. If the SIM card lock is on, you have to enter a PIN (Personal Identity Number) every time you turn on your phone.

If you enter your PIN incorrectly three times in a row, the SIM card is blocked. This is indicated by the message **PIN Blocked**. To unblock it, you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by your service provider. You can edit your PIN and select a new four- to eight-digit PIN.

 *If the message **Codes do not match** appears when you edit your PIN, you entered the new PIN incorrectly. If the message **Wrong PIN** appears, followed by **Old PIN**:, you entered your old PIN incorrectly.*

To unblock your SIM card

- 1 When **PIN Blocked** appears, enter your PUK ► **OK**.
- 2 Enter a new four- to eight-digit PIN ► **OK**.
- 3 Re-enter the new PIN to confirm ► **OK**.

To turn the SIM card lock on or off

- 1 From standby select **Menu ► Settings ► the General tab ► Security ► Locks ► SIM Protection ► Protection and select On or Off**.
- 2 Enter your PIN ► **OK**.

Phone Lock

Protect your phone against unauthorized use if it is stolen and the SIM card is replaced. You can change the phone lock code (0000) to any four- to eight-digit personal code.

Automatic phone lock

If the phone lock is set to **Automatic**, you do not need to enter your phone lock code until a different SIM card is inserted in the phone.

 *It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.*

To set the phone lock

- 1 From standby select **Menu** ► **Settings** ► the **General** tab ► **Security** ► **Locks** ► **Phone Protection** ► **Protection** and select an alternative.

Troubleshooting

Why doesn't the phone work the way I want it to?

This chapter lists some problems that you might encounter when using your phone. Some problems require you to call your service provider, but you can easily correct most of the problems yourself.

However, if you need to take your phone in for repair, please note that you may lose information and content that you have saved in your phone. You are advised to make a copy of such information before taking your phone in for repair.

For more support go to www.sonyericsson.com/support.

I have problems with memory capacity or the phone is working slowly

Possible cause: The phone memory is full or the memory contents are not properly organized.

Solution: Restart your phone every day to free memory and increase the capacity of your phone.

Guidelines for Safe and Efficient Use

Please read this information before using your mobile phone.

These instructions are intended for your safety. Please follow these guidelines. If the product has been subject to any of the conditions listed below or you have any doubt as to its

proper function make sure you have the product checked by a certified service partner before charging or using it. Failure to do so might entail a risk of product malfunction or even a potential hazard to your health.

Recommendations for safe use of product (mobile phone, battery, charger and other accessories)

- Always treat your product with care and keep it in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.
- Do not expose your product to liquid or moisture or humidity.
- Do not expose your product to extreme high or low temperatures. Do not expose the battery to temperatures above +60°C (+140°F).
- Do not expose your product to open flames or lit tobacco products.
- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not attempt to disassemble or modify your product. Only Sony Ericsson authorized personnel should perform service.
- Do not use your product near medical equipment without requesting permission from your treating physician or authorized medical staff.
- Do not use your product when in, or around aircraft, or areas posted "turn off two-way radio".
- Do not use your product in an area where a potentially explosive atmosphere exists.
- Do not place your product or install wireless equipment in the area above an air bag in your car.

CHILDREN

KEEP OUT OF CHILDRENS REACH.
DO NOT ALLOW CHILDREN TO PLAY
WITH YOUR MOBILE PHONE OR ITS
ACCESSORIES. THEY COULD HURT
THEMSELVES OR OTHERS, OR COULD

ACCIDENTALLY DAMAGE THE MOBILE PHONE OR ACCESSORY. YOUR MOBILE PHONE OR ITS ACCESSORY MAY CONTAIN SMALL PARTS THAT COULD BECOME DETACHED AND CREATE A CHOKING HAZARD.

Power supply (Charger)

Connect the AC power adapter only to designated power sources as marked on the product. Make sure the cord is positioned so that it will not be subjected to damage or stress. To reduce risk of electric shock, unplug the unit from any power source before attempting to clean it. The AC power adapter must not be used outdoors or in damp areas. Never alter the cord or plug. If the plug does not fit into the outlet, have a proper outlet installed by a qualified electrician.

Use only Sony Ericsson branded original chargers intended for use with your mobile phone. Other chargers may not be designed to the same safety and performance standards.

Battery

We recommend that you fully charge the battery before you use your mobile phone for the first time. A new battery or one that has not been used for a long time could have reduced capacity the first few times it is used. The battery should only be charged in temperatures between +5°C (+41°F) and +45°C (+113°F).

Use only Sony Ericsson branded original batteries intended for use with your mobile phone. Using other batteries and chargers could be dangerous. Talk and standby times depend on several different conditions such as signal strength, operating temperature, application usage patterns, features selected and voice or data transmissions when the mobile phone is being used.

Turn off your mobile phone before removing the battery. Do not put the battery into your mouth. Battery electrolytes may be toxic if swallowed. Do not let the metal contacts on the battery touch another metal object. Doing this could short-circuit and damage the battery. Use the battery for the intended purpose only.

Personal medical devices

Mobile phones may affect the operation of pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, e.g. in your breast pocket. When using the mobile phone, use it at the ear on the opposite side of the body to the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you have any reason to suspect that interference is taking place, immediately turn off your mobile phone. Contact your cardiologist for more information.

For other medical devices, please consult your physician and the manufacturer of the device.

Driving

Please verify whether local laws and regulations restrict the use of mobile phones while driving or require drivers to use handsfree solutions. We recommend that you use only Sony Ericsson handsfree solutions intended for use with your product.

Please note that because of possible interference to electronic equipment, some vehicle manufacturers forbid the use of mobile phones in their vehicles unless a handsfree kit with an external antenna has been installed.

Always pay full attention to driving and pull off the road and park before making or answering a call if driving conditions so require.

Emergency calls

Mobile phones operate using radio signals, which cannot guarantee connection in all conditions. You should therefore never rely solely upon any mobile phone for essential communications (e.g. medical emergencies).

Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

Antenna

This phone contains a built-in antenna. Use of antenna devices not marketed by Sony Ericsson specifically for this model could damage your mobile phone, reduce performance, and produce SAR levels above the established limits (see below).

Efficient use

Hold your mobile phone as you would any other phone. Do not cover the top of the phone when it is in use, as this affects call quality and may cause the phone to operate at a higher power level than needed, thus shortening talk and standby times.

Radio frequency (RF) exposure and SAR

Your mobile phone is a low-power radio transmitter and receiver. When it is turned on, it emits low levels of radio frequency energy (also known as radio waves or radio frequency fields).

Governments around the world have adopted comprehensive international safety guidelines, developed by scientific organizations, e.g. ICNIRP (International Commission on Non-Ionizing Radiation Protection) and IEEE (The Institute of Electrical and Electronics Engineers Inc.), through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure for the general population. The levels

include a safety margin designed to assure the safety of all persons, regardless of age and health, and to account for any variations in measurements. Specific Absorption Rate (SAR) is the unit of measurement for the amount of radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but the actual SAR level of the mobile phone while it is operating can be well below this value. This is because the mobile phone is designed to use the minimum power required to reach the network.

Variations in SAR below the radio frequency exposure guidelines do not mean that there are variations in safety. While there may be differences in SAR levels among mobile phones, all Sony Ericsson mobile phone models are designed to meet radio frequency exposure guidelines.

For phones sold in the US, before a phone model is available for sale to the public, it must be tested and certified by the Federal Communications Commission (FCC) that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (that is, at the ear and worn on the body) as required by the FCC for each model. For body-worn operation, this phone has been tested and meets FCC RF exposure guidelines when the handset is positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when used with the original Sony Ericsson accessory intended for this phone and worn on the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

A separate leaflet with SAR information about this mobile phone model is included with the material accompanying this mobile phone. This information can also be found, together with more information on radio frequency exposure and SAR, on: www.sonyericsson.com/health.

Accessible Solutions/Special Needs

For phones sold in the US, you can use your TTY terminal with your Sony Ericsson mobile phone (with the necessary accessory). For information on Accessible Solutions for individuals with special needs call the Sony Ericsson Special Needs Center on 877-878-1996 (TTY) or 877-207-2056 (voice), or visit the Sony Ericsson Special Needs Center at www.sonyericsson-snc.com.

Disposal of old electrical & electronic equipment

This symbol indicates that all electrical and electronic equipment included shall not be treated as household waste. Instead it shall be left at the appropriate collection point for recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Disposing of the battery

Please check local regulations for disposal of batteries or call your local Sony Ericsson Call Center for information.

The battery should never be placed in municipal waste. Use a battery disposal facility if available.

Memory Card

Your product comes complete with a removable memory card. It is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use.

The memory card is formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

WARNING:

If your device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on Memory Card Use

- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- **Check you have inserted the memory card correctly.**
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any loss or damage to content you store on the memory card.

- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Accessories

Sony Ericsson recommends use of Sony Ericsson original accessories for safe and efficient use of its products. Use of third-party accessories may decrease performance or pose a risk to your health or safety.

LOUDNESS WARNING:

Please adjust the audio volume cautiously when using third-party audio accessories to avoid volume levels that may be harmful to your hearing. Sony Ericsson does not test use of third-party audio accessories with this mobile phone. Sony Ericsson recommends using only Sony Ericsson original audio accessories.

End User License Agreement

This wireless device, including without limitation any media delivered with the device, ("Device") contains software owned by Sony Ericsson Mobile Communications AB and its affiliated companies ("Sony Ericsson") and its third party suppliers and licensors ("Software").

As user of this Device, Sony Ericsson grants you a non-exclusive, non-transferable, non-assignable license to use the Software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device. You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third

party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this license, it will terminate with immediate effect.

Sony Ericsson and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sony Ericsson, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms.

The validity, construction and performance of this license shall be governed by the laws of Sweden. The foregoing shall apply to the full extent permitted by, when applicable, statutory consumer rights.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your mobile phone and original accessory delivered with your mobile phone (hereinafter referred to as "Product").

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com to get further information.

OUR WARRANTY

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer, and for a subsequent period of one (1) year.

WHAT WE WILL DO

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorized distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Sony Ericsson Product is repaired or replaced. At present Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

CONDITIONS

- 1 The warranty is valid only if the original proof of purchase issued to the original purchaser by a Sony Ericsson authorized dealer, specifying the date of purchase and serial number**, for this Product, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.
- 2 If Sony Ericsson repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair,

whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

- 3 This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Sony Ericsson recommends that you use only batteries and chargers approved by Sony Ericsson.

Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and can not be adjusted. Two defective pixels are deemed acceptable.

Minor variations in the appearance of the camera image may occur between phones. This is not uncommon in digital cameras and does not mean that the camera is defective in any way.

- 4 Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.
- 5 This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorized person.

- 6 The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.

- 7 Tampering with any of the seals on the Product will void the warranty.

- 8 THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the dealer arising from their sales / purchase contract.

***EUROPEAN UNION (EU)**

If you have purchased your Product in an EU country you can have your Product serviced, under the conditions set out above, within the warranty period in any EU country where an identical Product is sold by an authorized Sony Ericsson distributor. To find out if your Product is sold in the EU country you are in, please call the local Sony Ericsson Call Center. Please observe that certain services may

not be possible elsewhere than in the country of original purchase, for example due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other EU countries. It may not be possible to repair SIM-locked Products.

** In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
